I. GENERAL INFORMATION/BACKGROUND

ClearWater Arts Center & Studios is located at 223 Crowell Drive NW Concord, NC 28025, less than one-half mile from Downtown Concord. The campus was formerly the City of Concord's old water treatment facility and was later used as the City's electric and stormwater utility operations facility. The idea for ClearWater was birthed in 2003 when the City requested feedback from the Gibson Village neighborhood residents to determine the best use of this facility as a part of the overall Center City Plan. City Council approved the idea of rehabilitating the buildings into an arts center as part of a community revitalization effort using Community Development Block Grant funding.

As a unique and vibrant gathering place for all, ClearWater Arts Center & Studios works to be an active, engaged, and inclusive arts center that will continue to touch the lives, passions, and imaginations of those who share a love for all types of arts. The City of Concord is seeking an architectural design partner to help achieve the vision for a more comprehensive art center, tailored to the City, by expanding the opportunities within the ClearWater campus. The area designated for expansion is in the unrenovated space of the ClearWell building, located at 235 Crowell Drive NW.

Within the proposal, the City seeks an architect/architectural firm who understands and shares the goals within their work of providing a purposefully designed space to potentially accommodate large-scale sculpture work which will both 1) house arts education activities and 2) act as a facility for artists to create their work.

The City will only contract with firms that do not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability, marital status, sexual orientation, citizenship status or any other status protected by North Carolina and Federal laws.
