### RE: Weddington Road Site Single Family Development Phase Concord, NC Preliminary Wastewater Flow Narrative

To Whom It May Concern;

A proposed residential development, currently referred to as the Weddington Road Site is being proposed by Mattamy Homes as generally shown in the "Weddington Road Site Preliminary Concept Plan" last dated March 7, 2023, prepared by ESP Associates, Inc. The project encompasses approximately 75.8 acres within Tax Parcel ID#56007478020000, of which approximately 41.3 acres will be developed as outlined below. The proposed development is located directly South and West of the West Cabarrus High School along Weddington Road near the intersection of Weddington Road and George Lyles Parkway and consists of approximately:

- +/-65 Total Units:
  - 65 Single Family Detached Residential Lots, assumed to be an average of 4 bedrooms per home.
- Utilization of Existing RV Zoning.
- Two (2) tie ins of proposed streets to existing public roadways.
- Tie-in to existing City of Concord public water and sewer infrastructure.
- Water quality areas to manage and control stormwater runoff from the proposed development.
- Grading to minimize impacts to protected streams/wetlands, as feasible.
- Incorporation of at least 15% of the total site areas as shared public spaces and open areas for use by the residents.
- Incorporation of tree save equal to or greater than 50% required common open space.
- No industrial development.

This proposed development is estimated to produce 19,500 gal/day of wastewater flow, assuming 75gal/day/bedroom as outlined in NCDEQ Section 18 Session Law 2-23-137. Wastewater is currently anticipated to be managed by tying into and utilizing the existing City's sanitary sewer system surrounding the site.

To the City of Concord Planning Department,

We are under contract on 139 Kerr St. NW Concord NC 28052 (Zoned PUD), in order to purchase the eastern half that was designated for residential construction in November 2017. This designation is recorded at book 12763, pages 100–103.

Our plan is to build six 3 bed/2 bath single family homes here, with at least five of them facing Cedar Dr. NW, and the sixth potentially facing Kerr St. This project will generate roughly 1,350 GPD of wastewater, so we are applying for the City's wastewater allocation program as our first order of operation.

Our closing date on this property is currently scheduled for 08/09/24.

Thank you!

#### Brief Summary

This is a project that has been submitted as a townhome style multi-family project for sewer allocation in July 2022. A preliminary plat was approved for a townhome style subdivision on February 4, 2022, but payment of \$400 has not been received. The narrative now reflects the desire to restructure the project as 24 single family detached units and 95 townhomes.

Dear Mr. Mayor, City Council and Staff,

Dream Finders Homes (formally H+H Homes) is requesting sewer allocation for Sunview, an integrated housing development of single family residential homes and townhomes. This development is tucked in behind the long-established neighborhood of Collingswood Dr off of Central, in the heart of Concord. In support of this request, please note the following considerations:

- 1. The developer is committed to Concord, and has owned the property since January 2021 (Saphire Straight LLC).
- 2. Preliminary Plat approval for a 140 unit townhome development was issued February 4<sup>th</sup>, 2022, as the sewer restrictions were coming into place.
- 3. Sewer allocation has been *requested at every opportunity*, including:

Project Design	City Council Meeting	City Council Results
140 Apartment Townhomes	July 2022	Not Allocated
72 Single Family Residential	September 2022	Not Allocated
72 Single Family Residential	December 2022	Not Allocated
72 Single Family Residential	February 2023	Not Allocated
Horizontal Mixed Use (24 Single Family Residential and 95 Townhomes)	December 2023	Not Allocated
Horizontal Mixed Use (24 Single Family Residential and 95 Townhomes)	March 2023	To Be Determined

- 4. The site is located less than 2.5 miles from City Hall, nearby to downtown.
- 5. There is existing sewer running through the development, and water available at the connection points with city streets.
- 6. Proposed site amenities include a nature trail that traverses the site. Of the 53 acres on-site, *approximately 33 acres are proposed to remain natural/undeveloped.*
- 7. This site is designated as Urban Neighborhood in the Future Land Use Plan. This site meets the intent of the Future Land Use Plan, section 5.2 bullet 4, which specifies that "infill is most desirable within identified Mixed-Use Activity Centers, Village Centers, and Urban Neighborhoods"
- 8. This proposal also meets the *Future Land Use Plan Objective 1.6 which guides us to "provide a diverse mix and range of housing options"* through the guidance of providing mixed-density housing through integrated housing types. This project meets the policy and guidance of the Future Land Use Plan through the proposed mixed single family and single family attached horizontal mixed-use approach.

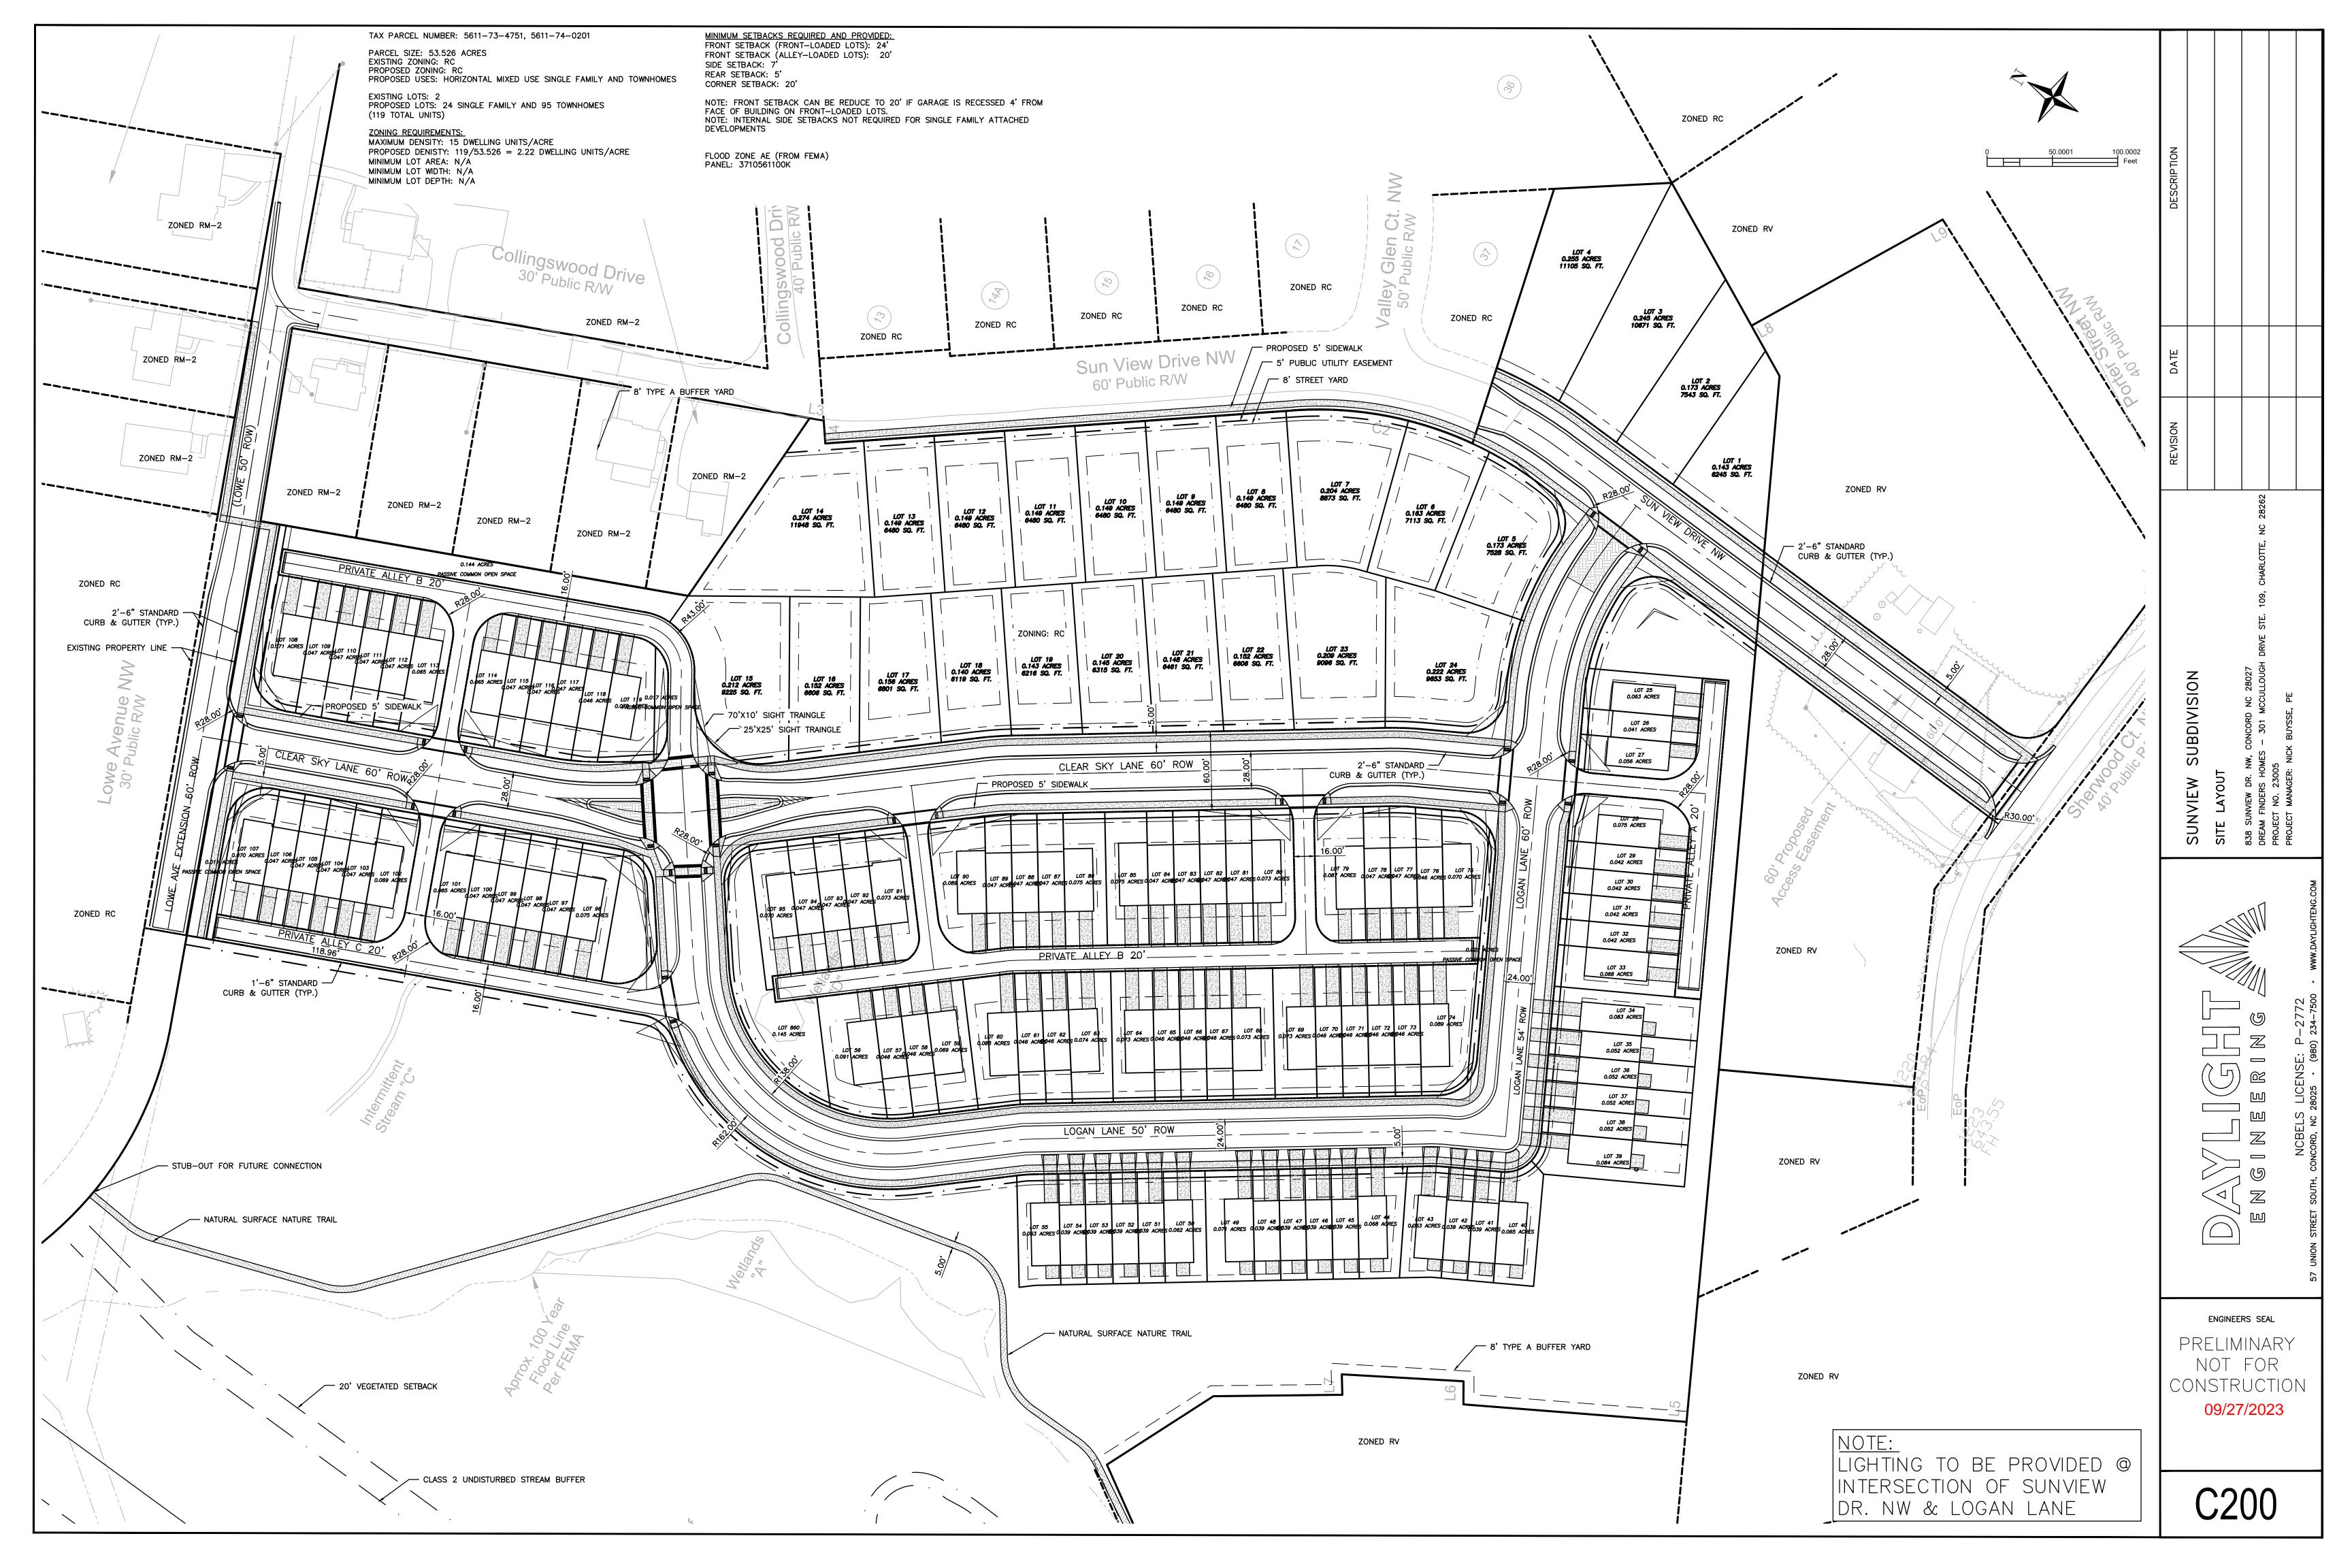

While Dream Finders Homes appreciates the challenges that restricted sewer availability has caused for Cabarrus County and the City of Concord, we would like to respectfully request your consideration and approval of this project in the heart of Concord.

Respectfully,

01/15/2024

#### **Brief Summary**

This case is for 50 units: a reduction from the 368 units requested at the July 2022 allocation and from the 371 requested at the March 2022 allocation meeting. The preliminary plat was approved on 9/20/20. Zoning case Z(CD)07-16 was approved on June 21, 2016. This rezoning to Planned Residential Development required a mixture of unit types: 55', 75', and 90' wide lots. The applicant has provided a phasing plan for the project, which would result in 50 lots in the first phase, with the assumption that they would come back and ask for their project in phases. The developer is proposing phase 1 to be the more affordable lots focused on affordable buyers. The developer has continued submitting revisions to their plans since the March 2024 allocation and has gone from 24 to 2 open issues.

### <u>Sewer Flow Allocation Request for Residential Development Project at 5100</u> <u>Grand Canyon Road NW, Concord</u>

Reddy Suresh Babu Gouder 5100 Grand Canyon Road NW Concord, NC 28027 22nd July 2024

### **Subject**: <u>Sewer Flow Allocation Request for Residential Development Project at 5100 Grand</u> <u>Canyon Road NW, Concord</u>

I am writing to formally request a sewer flow allocation for a proposed residential development project at 5100 Grand Canyon Road NW, Concord, NC 28027. The parcel number associated with this property is 56014141720000, zoned as RV (Residential Village). Our plan involves the development of 5 lots for single-family homes.

Currently, the property accommodates a single-family home connected to the City of Concord sewer system. Our proposed plan involves demolishing the existing home to make way for a residential village of 5 lots, each featuring 3-bedroom units. The budget for each single-family home is estimated at \$340,000.

We are committed to complying with all regulations and addressing any concerns you may have. Attached to this letter, please find the completed application form for the proposed development project, as well as proof of ownership for the property. Should you require any further information or documentation, please reach me at contact.deckarc@gmail.com.

Thank you for your attention to this matter. We eagerly anticipate your prompt response and cooperation in facilitating the sewer flow allocation for our project.

Sincerely,

Reddy Suresh Babu Goudar

#### RE: Weddington Road Site Townhome Development Phase Concord, NC Preliminary Wastewater Flow Narrative

To Whom It May Concern;

A proposed residential development, currently referred to as the Weddington Road Site is being proposed by Mattamy Homes as generally shown in the "Weddington Road Site Preliminary Concept Plan" last dated March 7, 2023, prepared by ESP Associates, Inc. The project encompasses approximately 75.8 acres within Tax Parcel ID#56007478020000, of which approximately 34.53 acres will be developed as outlined below. The proposed development is located directly South and West of the West Cabarrus High School along Weddington Road near the intersection of Weddington Road and George Lyles Parkway and consists of approximately:

- +/-166 Total Units:
  - 166 Townhome Front-Loaded Units, assumed to be an average of 3 bedrooms per unit.
- Utilization of Existing RV Zoning.
- One (1) tie in of proposed streets to existing public roadways and one (1) tie in to future single family development phase.
- Tie-in to existing City of Concord public water and sewer infrastructure.
- Water quality areas to manage and control stormwater runoff from the proposed development.
- Grading to minimize impacts to protected streams/wetlands, as feasible.
- Incorporation of at least 15% of the total site areas as shared public spaces and open areas for use by the residents.
- Incorporation of tree save equal to or greater than 50% total required common open space.
- No industrial development.

This proposed development is estimated to produce 37,350 gal/day of wastewater flow, assuming 75gal/day/bedroom as outlined in NCDEQ Section 18 Session Law 2-23-137. Wastewater is currently anticipated to be managed by tying into and utilizing the existing City's sanitary sewer system surrounding the site.

### **DEVELOPMENT STANDARDS:**

- 1. GENERAL PROVISIONS
- a) SITE LOCATION. THESE DEVELOPMENT STANDARDS, THE SCHEMATIC SITE PLAN, AND RELATED GRAPHICS FORM THE REZONING PLAN (COLLECTIVELY REFERRED TO AS THE "REZONING PLAN") ASSOCIATED WITH THE REZONING PETITION FILED BY CAPITAL LAND PARTNERS, LLC (THE "PETITIONER") TO ACCOMMODATE THE DEVELOPMENT OF A RESIDENTIAL COMMUNITY ON THE APPROXIMATELY 13.44 ACRE SITE LOCATED OFF OF BRANCHVIEW DRIVE (THE "SITE").
- **b) ZONING DISTRICTS/ORDINANCE.** DEVELOPMENT OF THE SITE WILL BE GOVERNED BY THE REZONING PLAN AS WELL AS THE APPLICABLE PROVISIONS OF THE CONCORD DEVELOPMENT ORDINANCE (THE "ORDINANCE"). UNLESS THE REZONING PLAN ESTABLISHES MORE STRINGENT STANDARDS THE REGULATIONS ESTABLISHED UNDER THE ORDINANCE FOR THE RV-CD ZONING CLASSIFICATION SHALL GOVERN.
- c) GRAPHICS AND ALTERATIONS. THE SCHEMATIC DEPICTIONS OF LOTS, SIDEWALKS, STRUCTURES AND BUILDINGS, BUILDING ELEVATIONS, DRIVEWAYS, STREETS, BUFFERS, STORM WATER FACILITIES, TRAILS, AND OTHER DEVELOPMENT MATTERS AND SITE ELEMENTS (COLLECTIVELY THE "DEVELOPMENT/SITE ELEMENTS") SET FORTH ON THE REZONING PLAN SHOULD BE REVIEWED IN CONJUNCTION WITH THE PROVISIONS OF THESE DEVELOPMENT STANDARDS. THE LAYOUT, LOCATIONS, SIZES, AND FORMULATIONS OF THE DEVELOPMENT/SITE ELEMENTS DEPICTED ON THE REZONING PLAN ARE GRAPHIC REPRESENTATIONS OF THE DEVELOPMENT/SITE ELEMENTS PROPOSED. SINCE THE PROJECT HAS NOT UNDERGONE THE DESIGN DEVELOPMENT AND CONSTRUCTION PHASES, IT IS INTENDED THAT THIS REZONING PLAN PROVIDES FOR SIGNIFICANT FLEXIBILITY IN ALLOWING ALTERATIONS OR MODIFICATIONS FROM THE GRAPHIC REPRESENTATIONS OF THE DEVELOPMENT/SITE ELEMENTS. THEREFORE, THERE MAY BE INSTANCES WHERE MODIFICATIONS WILL BE ALLOWED WITHOUT REQUIRING AMENDMENTS TO THE REZONING PETITION, AND THESE INSTANCES GENERALLY INCLUDE CHANGES TO GRAPHICS IF THEY ARE MINOR AND DON'T MATERIALLY CHANGE THE OVERALL DESIGN INTENT DEPICTED ON THE REZONING PLAN.
- d) ANY TECHNICAL ISSUES NOT ADDRESSED WITH THE REZONING SITE PLAN SHALL BE SUBJECT TO THE CONSTRUCTION DOCUMENT APPROVAL AND COMPLIANCE WITH THE CITY'S SUBDIVISION AND LAND DEVELOPMENT STANDARDS.

### PERMITTED USES & DEVELOPMENT AREA:

- a) THE DEVELOPMENT AREA MAY BE DEVELOPED WITH UP TO 99 RESIDENTIAL TOWNHOME UNITS, AS ALLOWED BY RIGHT AND UNDER PRESCRIBED CONDITIONS, TOGETHER WITH ACCESSORY USES, AS PERMITTED IN THE RV-CD ZONING DISTRICT, INCLUDING, WITHOUT LIMITATION, RECREATION, OPEN SPACE AND RELATED USES (E.G. IMPROVED PASSIVE AND ACTIVE OPEN SPACES, /GATHERING SHELTERS, GAZEBOS, DOG PARKS, MAINTENANCE BUILDINGS, OUTDOOR RECREATIONAL USES, AND/OR OTHER USES TYPICALLY ASSOCIATED WITH RESIDENTIAL COMMUNITIES).
- b) TOTAL NUMBER OF LOTS IS APPROXIMATE. FINAL COUNTS FOR EACH SIZE MAY VARY BUT THE TOTAL LOT YIELD SHALL NOT EXCEED 99 LOTS.

### 3. ACCESS AND TRANSPORTATION:

- a) ACCESS. ACCESS TO THE SITE WILL BE FROM BRANCHVIEW DRIVE, AS GENERALLY DEPICTED ON THE REZONING PLAN. THE PLACEMENT AND CONFIGURATION OF THE VEHICULAR ACCESS POINTS ARE SUBJECT TO ANY MINOR MODIFICATIONS REQUIRED TO ACCOMMODATE FINAL SITE DEVELOPMENT AND CONSTRUCTION PLANS AND TO ANY ADJUSTMENTS REQUIRED FOR APPROVAL BY THE CITY OF CONCORD AND/OR NCDOT IN ACCORDANCE WITH APPLICABLE PUBLISHED STANDARDS.
- **b) IMPROVEMENTS AND PHASING. THE PETITIONER SHALL INSTALL** PHASED TRANSPORTATION IMPROVEMENTS PER THE APPROVED TRAFFIC IMPACT ANALYSIS (TIA) SUBJECT TO THE FOLLOWING:
- i. PHASING. THE IMPROVEMENTS SET FORTH IN THE TIA SHALL BE COMPLETED PRIOR TO THE ISSUANCE OF FORTIETH (40<sup>11</sup> CERTIFICATE OF OCCUPANCY ASSOCIATED WITH THE **RESIDENTIAL UNITS.**
- **ii. SUBSTANTIAL COMPLETION.** REFERENCE TO "SUBSTANTIAL COMPLETION" FOR CERTAIN IMPROVEMENTS AS SET FORTH IN THE PROVISIONS OF THE APPROVED TIA SHALL MEAN COMPLETION OF THE ROADWAY IMPROVEMENTS IN ACCORDANCE WITH THE STANDARDS SET FORTH IN THE APPROVED TIA PROVIDED, HOWEVER, IN THE EVENT CERTAIN NON-ESSENTIAL ROADWAY IMPROVEMENTS (AS REASONABLY DETERMINED BY THE CITY OF CONCORD) ARE NOT COMPLETED AT THE TIME THAT THE PETITIONER SEEKS TO OBTAIN A CERTIFICATE OF OCCUPANCY FOR BUILDING(S) ON THE SITE IN CONNECTION WITH RELATED DEVELOPMENT PHASING DESCRIBED ABOVE, THEN THE CITY OF CONCORD WILL INSTRUCT APPLICABLE AUTHORITIES AND/OR DEPARTMENTS TO ALLOW THE ISSUANCE OF CERTIFICATES OF OCCUPANCY FOR THE APPLICABLE BUILDINGS, AND IN SUCH EVENT THE PETITIONER MAY BE ASKED TO POST A LETTER OF CREDIT OR A BOND FOR ANY IMPROVEMENTS NOT IN PLACE AT THE TIME SUCH A CERTIFICATE OF OCCUPANCY IS ISSUED TO SECURE COMPLETION OF THE APPLICABLE IMPROVEMENTS.
- **iii.RIGHT-OF-WAY AVAILABILITY.** IT IS UNDERSTOOD THAT SOME OF THE PUBLIC ROADWAY IMPROVEMENTS REFERENCED IN THE APPROVED TIA MAY NOT BE POSSIBLE WITHOUT THE ACQUISITION OF ADDITIONAL RIGHT OF WAY. IF AFTER THE EXERCISE OF DILIGENT GOOD FAITH EFFORTS OVER A MINIMUM OF A 60-DAY PERIOD, THE PETITIONER IS UNABLE TO ACQUIRE ANY LAND NECESSARY TO PROVIDE FOR ANY SUCH ADDITIONAL RIGHT OF WAY UPON COMMERCIALLY REASONABLE TERMS AND AT MARKET PRICES, THEN THE CITY OF CONCORD, NCDOT OR OTHER APPLICABLE AGENCY, DEPARTMENT OR GOVERNMENTAL BODY MAY AGREE TO PROCEED WITH ACQUISITION OF ANY SUCH LAND. IN SUCH EVENT, THE PETITIONER SHALL REIMBURSE THE APPLICABLE AGENCY, DEPARTMENT OR GOVERNMENTAL BODY FOR THE COST OF ANY SUCH ACQUISITION INCLUDING COMPENSATION PAID BY THE APPLICABLE AGENCY, DEPARTMENT OR GOVERNMENTAL BODY FOR ANY SUCH LAND AND THE EXPENSES OF SUCH PROCEEDINGS. FURTHERMORE, IN THE EVENT PUBLIC ROADWAY IMPROVEMENTS REFERENCED IN THE APPROVED TIA ARE DELAYED BECAUSE OF DELAYS IN THE ACQUISITION OF ADDITIONAL RIGHT-OF-WAY AS CONTEMPLATED HEREIN AND SUCH DELAY EXTENDS BEYOND THE TIME THAT THE PETITIONER SEEKS TO OBTAIN A CERTIFICATE OF OCCUPANCY FOR BUILDING(S) ON THE SITE IN CONNECTION WITH RELATED DEVELOPMENT PHASING DESCRIBED ABOVE, THEN THE CITY OF CONCORD WILL INSTRUCT APPLICABLE AUTHORITIES AND/OR DEPARTMENTS TO ALLOW THE ISSUANCE OF CERTIFICATES OF

OCCUPANCY FOR THE APPLICABLE BUILDINGS; PROVIDED, HOWEVER, PETITIONER CONTINUES TO EXERCISE GOOD FAITH EFFORTS TO COMPLETE THE APPLICABLE ROAD-WAY IMPROVEMENTS; IN SUCH EVENT THE PETITIONER MAY BE ASKED TO POST A LETTER OF CREDIT OR A BOND FOR ANY IMPROVEMENTS NOT IN PLACE AT THE TIME SUCH A CERTIFICATE OF OCCUPANCY IS ISSUED TO SECURE COMPLETION OF THE APPLICABLE IMPROVEMENTS.

**iv.ALTERNATIVE IMPROVEMENTS.** CHANGES TO THE ABOVE-REFERENCED ROADWAY IMPROVEMENTS CAN BE APPROVED THROUGH THE PERMITTING PROCESS UPON THE DETERMINATION AND MUTUAL AGREEMENT OF PETITIONER AND THE CITY OF CONCORD PROVIDED. HOWEVER. THE PROPOSED ALTERNATE TRANSPORTATION IMPROVEMENTS PROVIDE (IN THE AGGREGATE) COMPARABLE TRANSPORTATION NETWORK BENEFITS TO THE IMPROVEMENTS IDENTIFIED IN THIS PETITION IN THE OVERALL AREA OF THE REZONING. IN ADDITION TO THE FOREGOING, IN THE EVENT THE RIGHT OF WAY IS NOT AVAILABLE FOR ANY REASON AFTER THE GOOD FAITH EFFORTS OF THE PETITIONER, THE PETITIONER WILL WORK WITH THE CITY OF CONCORD AND/OR NCDOT AS APPLICABLE TO EITHER (I)IDENTIFY ALTERNATIVE IMPROVEMENTS TO IMPLEMENT TRAFFIC MITIGATION IN LIEU OF THE IMPROVEMENTS IMPACTED BY THE LACK OF RIGHT OF WAY; OR (II) CONTRIBUTE TO THE CITY OF CONCORD AND/OR NCDOT AS APPLICABLE, AN AMOUNT EQUAL TO THE ESTIMATED COST OF THE ROAD IMPROVEMENTS NOT COMPLETED DUE TO THE LACK OF AVAILABLE RIGHT OF WAY SUCH FUNDS TO BE USED TO COMPLETE SUCH ALTERNATIVE ROADWAY IMPROVEMENTS IN THE GENERAL AREA OF THE SITE IN A MANNER REASONABLE AGREEABLE TO THE PETITIONER, THE CITY OF CONCORD AND/OR NCDOT AS APPLICABLE.

c) STREET NETWORK. THE OVERALL STREET NETWORK IS CONCEPTUAL IN NATURE AND MAY BE ADJUSTED DURING THE PERMITTING PROCESS SO LONG AS THE PROVISIONS OF THE ORDINANCE RELATED TO CONNECTIVITY, BLOCK LENGTHS AND LINKS ARE ADHERED TO.

#### 4. DESIGN INTENT STATEMENT:

- a) THE PETITIONER PROPOSES TO DEVELOP A WALKABLE RESIDENTIAL COMMUNITY WHERE THE RESIDENTS OF THE COMMUNITY WILL HAVE CONVENIENT AND EASY ACCESS TO A SERIES OF PASSIVE AND ACTIVE OPEN SPACES THAT ARE INTERCONNECTED BY A NETWORK OF STREETS, SIDEWALKS, AND TRAILS.

### **Project Narrative**

1090 Poole Place Townhomes is a townhome project consisting of 38 for sale townhomes. Townhome sizes are approximately 35'x22'. The townhomes will be located in 7 separate buildings ranging from 3 to 7 units.

The project consists of extending Poole Place, a public road with a 50' public R/W. Then having 2 private alley roads that connect off the Poole Place extension. There will be additional guest parking provided with potentially 2 cluster mailbox locations. At this time, it is not determined if a dumpster will be provided or the project will use rollout containers for waste management. The project will have a BMP that meets all City of Concord stormwater requirements.

Honorable William C. Dusch & Concord City Council 35 Cabarrus Ave W, Concord, NC 28025

RE: Project Narrative for for Skybrook Corners Phase 2; Parcel IDs: 46717306200000 & 46717312110000

Dear Mayor Dusch & City Council Members,

Please allow this letter to serve as a narrative regarding our project's request for sewer capacity within the City of Concord. Skybrook, LLC is seeking to develop the final 19 Townhome Lots which will complete the last phase of the Skybrook Corners development. This approved project is an infill development which will close out the home building in between the existing Skybrook Corners site and the single-family homes located in the Parkside at Skybrook North community.

The following schedule shows the review dates as well the upcoming remaining approvals for our project:

- January 22, 2022- Early Grading Approvals Issued.
- February 10, 2022- The property was annexed into the city limits.
- April 19, 2022- The Concord P&Z Commission unanimously approved the rezoning plan.
- June 19, 2022- 1<sup>st</sup> Sewer Allocation was denied by City Council.
- September 20, 2022- 2<sup>nd</sup> Sewer Allocation was denied by City Council.
- November 28, 2022- the Preliminary Plats were approved by staff.
- December 20, 2022- 3<sup>rd</sup> Sewer Allocation was denied by City Council.
- March 21, 2023- 4<sup>th</sup> Sewer Allocation was denied by City Council.
- December 19, 2023- 5<sup>th</sup> Sewer Allocation was denied by City Council.
- April 17, 2024- 6<sup>th</sup> Sewer Allocation application has been filed for review and approval.
- July 10, 2024- 7<sup>th</sup> Sewer Allocation application has been filed for review and approval.
- July 17, 2024- Construction Drawings for the 19 Lots will be submitted to the city for review.

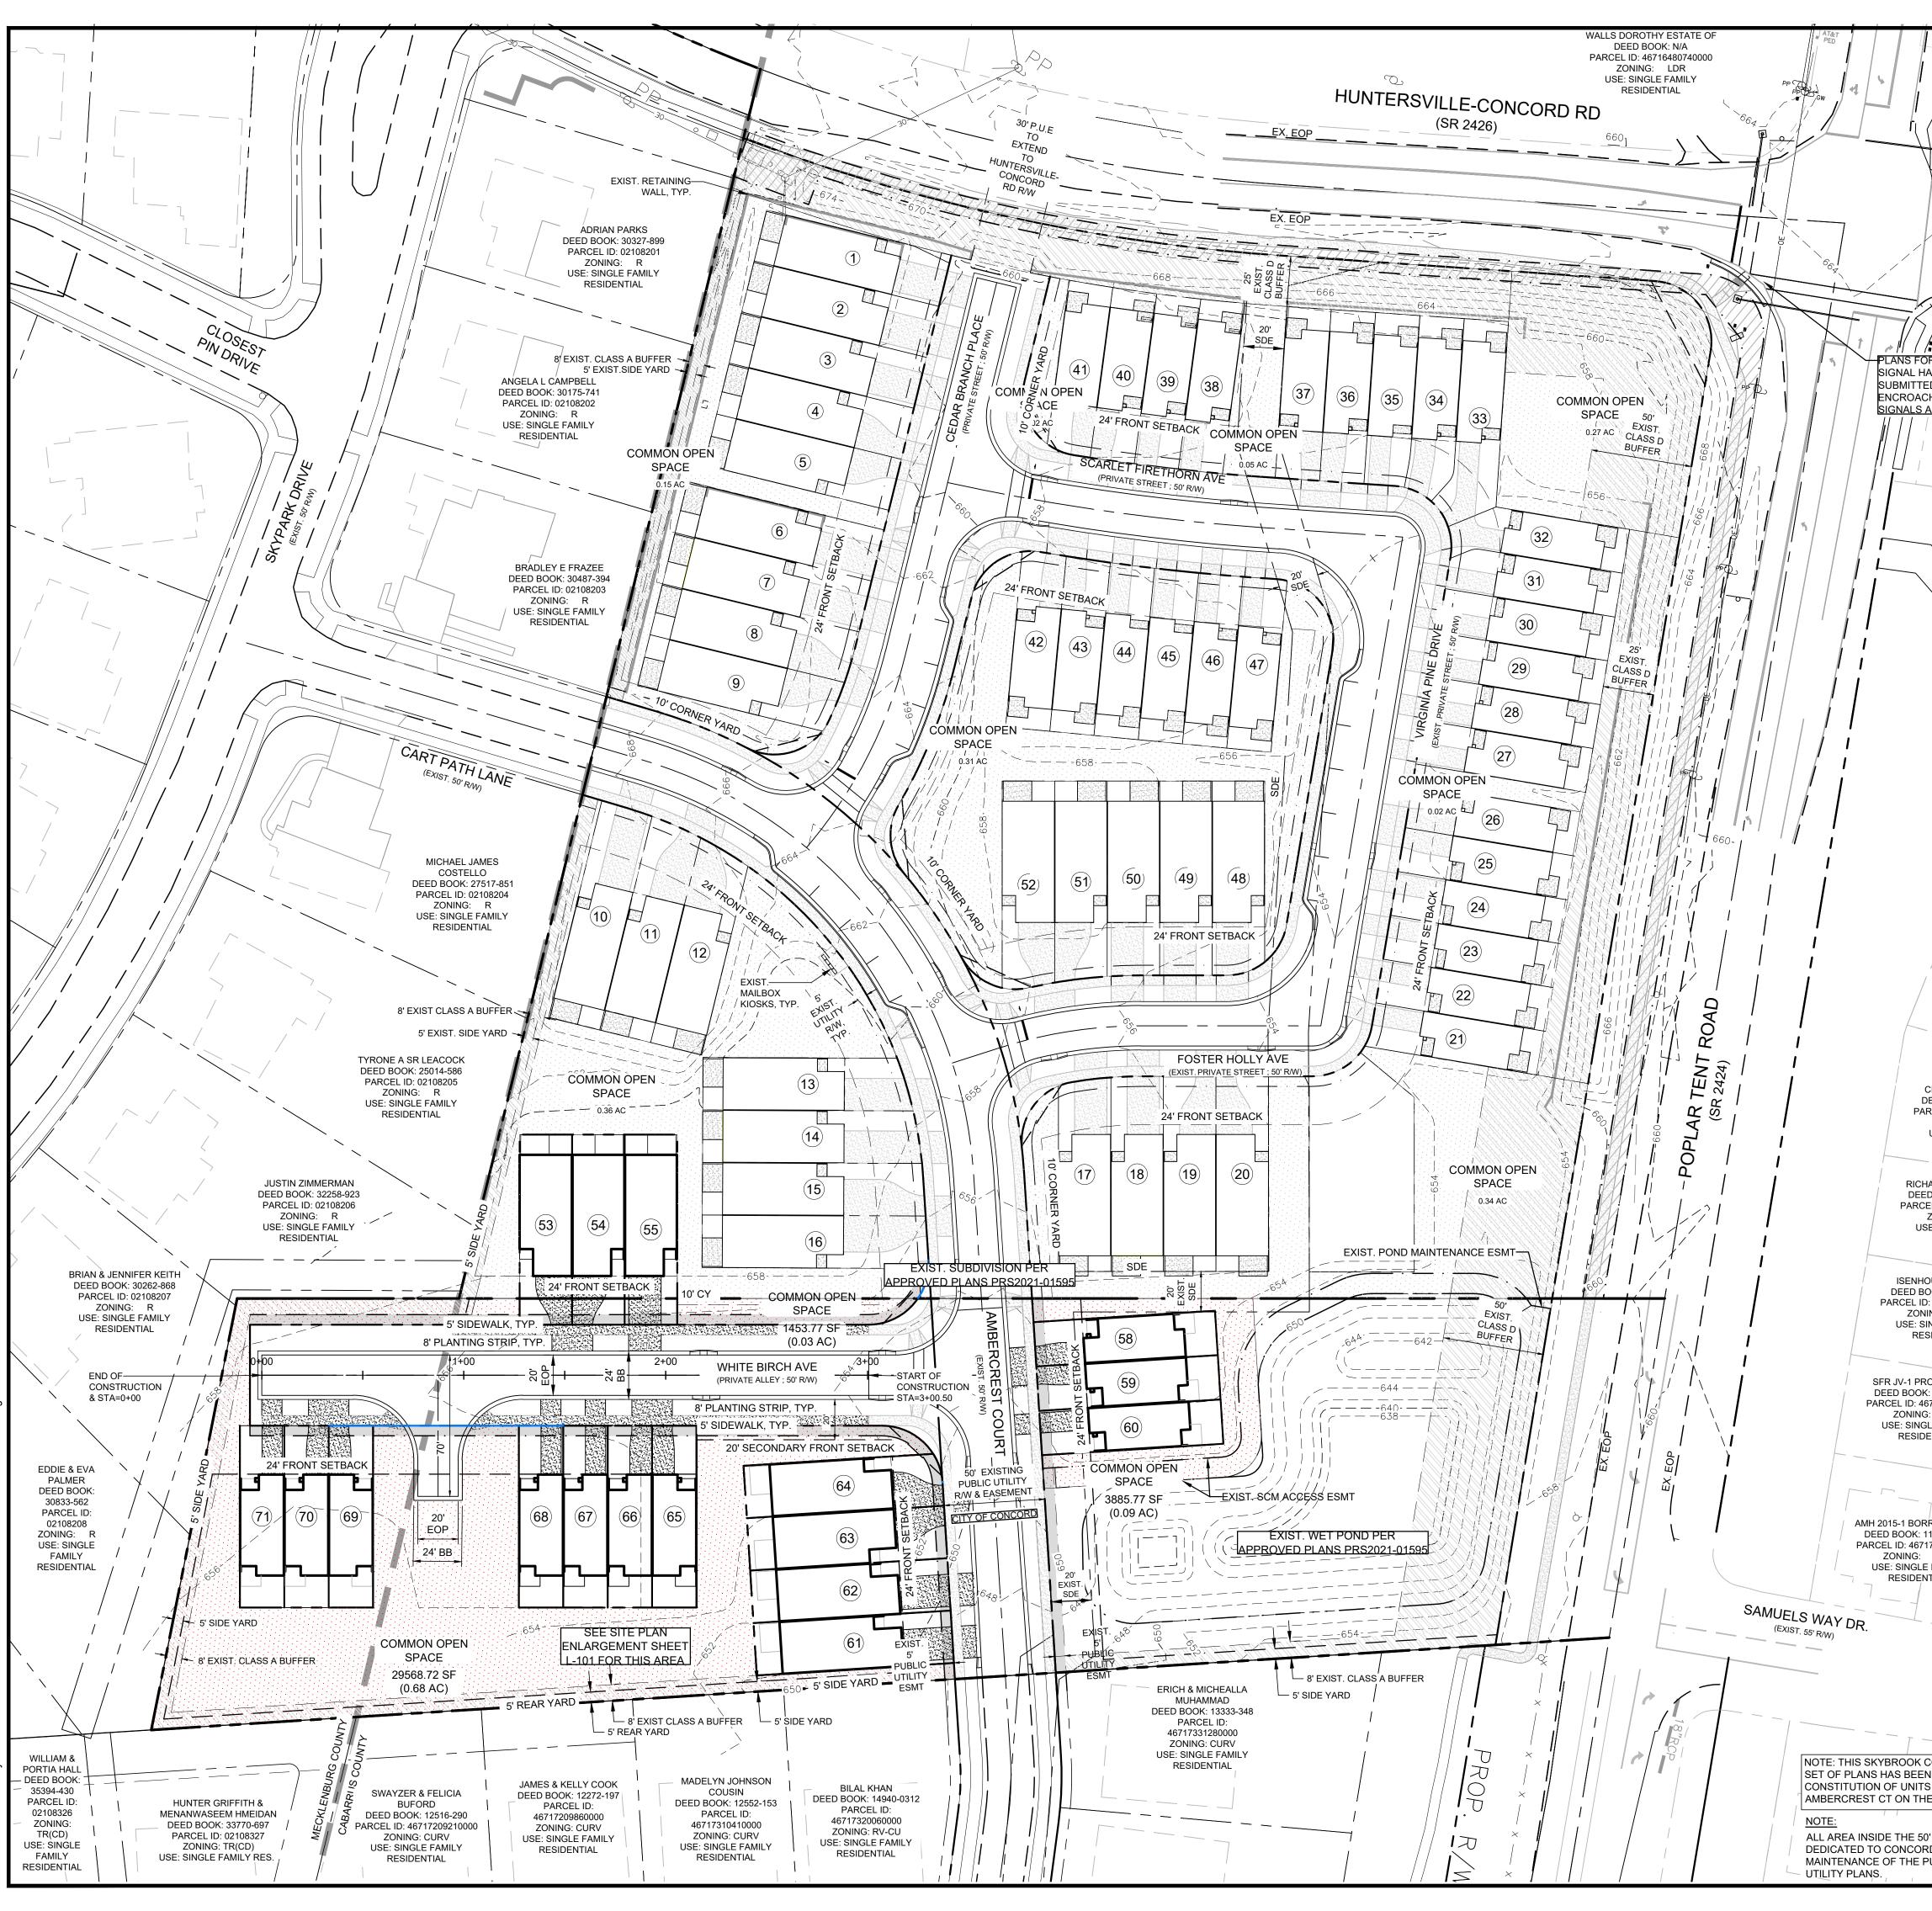

The adjacent Skybrook Corners has completed all construction related activities and we have completely sold out 52 of the approved 52 townhomes from September 2023 through May 2024. Our price points range from the \$430k's to \$500k's which has provided a window for our younger middle-income families to join our vibrant community. This type of demand and sales activity clearly shows the need and how underserved this housing product remains in our market. Finally, these are the last 19 of the total 807 lots which comprise of all the Skybrook North communities. The granting of sewer allocation for these lots will allow us to finish up construction activities including the conversion of the existing storm water basin, which will be welcomed by all the neighboring residents and will allow us to close out the last phase of the Skybrook community.

We are very thankful for all the time and effort that staff and city council has provided during our reviews. We look forward to completing this project and respectively request that you grant sewer capacity for the final 19 units. If you have any questions or need additional information, please call me at 704.995.2507 or email me at scott@bpropnc.com.

Sincerely,

Scott Moore Project Manager Skybrook Subdivision

The Weddington Road Villas is a proposed affordable townhome development, consisting of 82 for-sale homes. THIS DEVELOPMENT IS NOT ASSOCIATED WITH THE WAYFORD RENTAL COMMUNITY. The purpose of this project is to replace the existing mobile home park and create a small community exclusively focused on selling homes to lower income families. My understanding is that this project was previously under different ownership last year and had a very different use than what I am intending. Not only would I like to clarify that difference, but also as a follow up if any additional information is needed.

The Intrepid Companies exclusively develops for low-income residents in underutilized parcels to provide better economic development for the community at large. As a local land developer for the past 20 years, I have come to understand and balance the needs of low-income housing without sacrificing the aesthetic of the neighborhood. This is achieved because The Intrepid Companies is not a publicly traded builder, nor a large high profit seeking conglomerate. We are a small, local outfit personally investing where we live.

The Weddington Road Villas is the perfect project for what we specialize in: identifying a small assemblage of land that currently houses dilapidated rentals and trailers in a local market where it's low-income residents cannot afford to both work and live. The Intrepid Companies specializes in bridging that gap by employing local site contractors, local trade builders, local material sourcing and using private local funding that keeps overhead low without greedily pushing profit margins. We only take on 1 or 2 projects at a time, to ensure efficiency at the highest quality.

The 82 townhomes will be constructed of half brick and hardieboard façade with one or two car garages, ranging from 1800sqft to 2600sqft. The community will have sidewalks for connectivity and walkability, as well as a dog park and amenity. The Weddington Road Villas were successfully rezoned and granted preliminary plat approval in 2021. Aside from sewer capacity, the project is fully permitted and fully funded to begin upon sewer approval. We plan on delivering the first townhomes to lower income families as early as Spring 2025.

Please don't hesitate to reach out if you have any questions or wish to discuss in further detail.

Kindest regards,

Mallie M. Colavita The Intrepid Companies Managing Partner 856-296-4407 THE INTREPID COMPANIES

**RE: Sewer Allocation Request** 

Narrative for Sherwood Hills Subdivision infill project (28 Residential Units)

Our firm purchased the land from the Hawfield family of owners with a contract started on February 22, 2019. It culminated with a close on March 10, 2021, in anticipation of developing the previously approved platted subdivision of residential lots back in 1944. This old subdivision map was divided originally into 3 blocks of 310 lots total. The total recorded lots we own far exceed the requested 28 residential units we are petitioning for at this time. Below are bullet points we believe support our proposal:

- Our previous application was denied in December 2023 (84 Units). Subsequently, we were denied sewer on July 22, 2024 (35 Units).
- Our current request is 28 Townhome units a 67% reduction in our original sewer request.
- The project has current sewer infrastructure running through the project.
- Our approved lots of record lie within the Residential Village (RV) zoning district, by-right allowance for single-family attached homes.
- Each townhome is served by a single-family garage and a parking space in the driveway to meet parking needs.
- This site is within the city limits of Concord, just 2.1 miles west, northwest of downtown Concord. Walking distance to Lowes (0.25 miles) and Harris Teeter (0.9 miles).

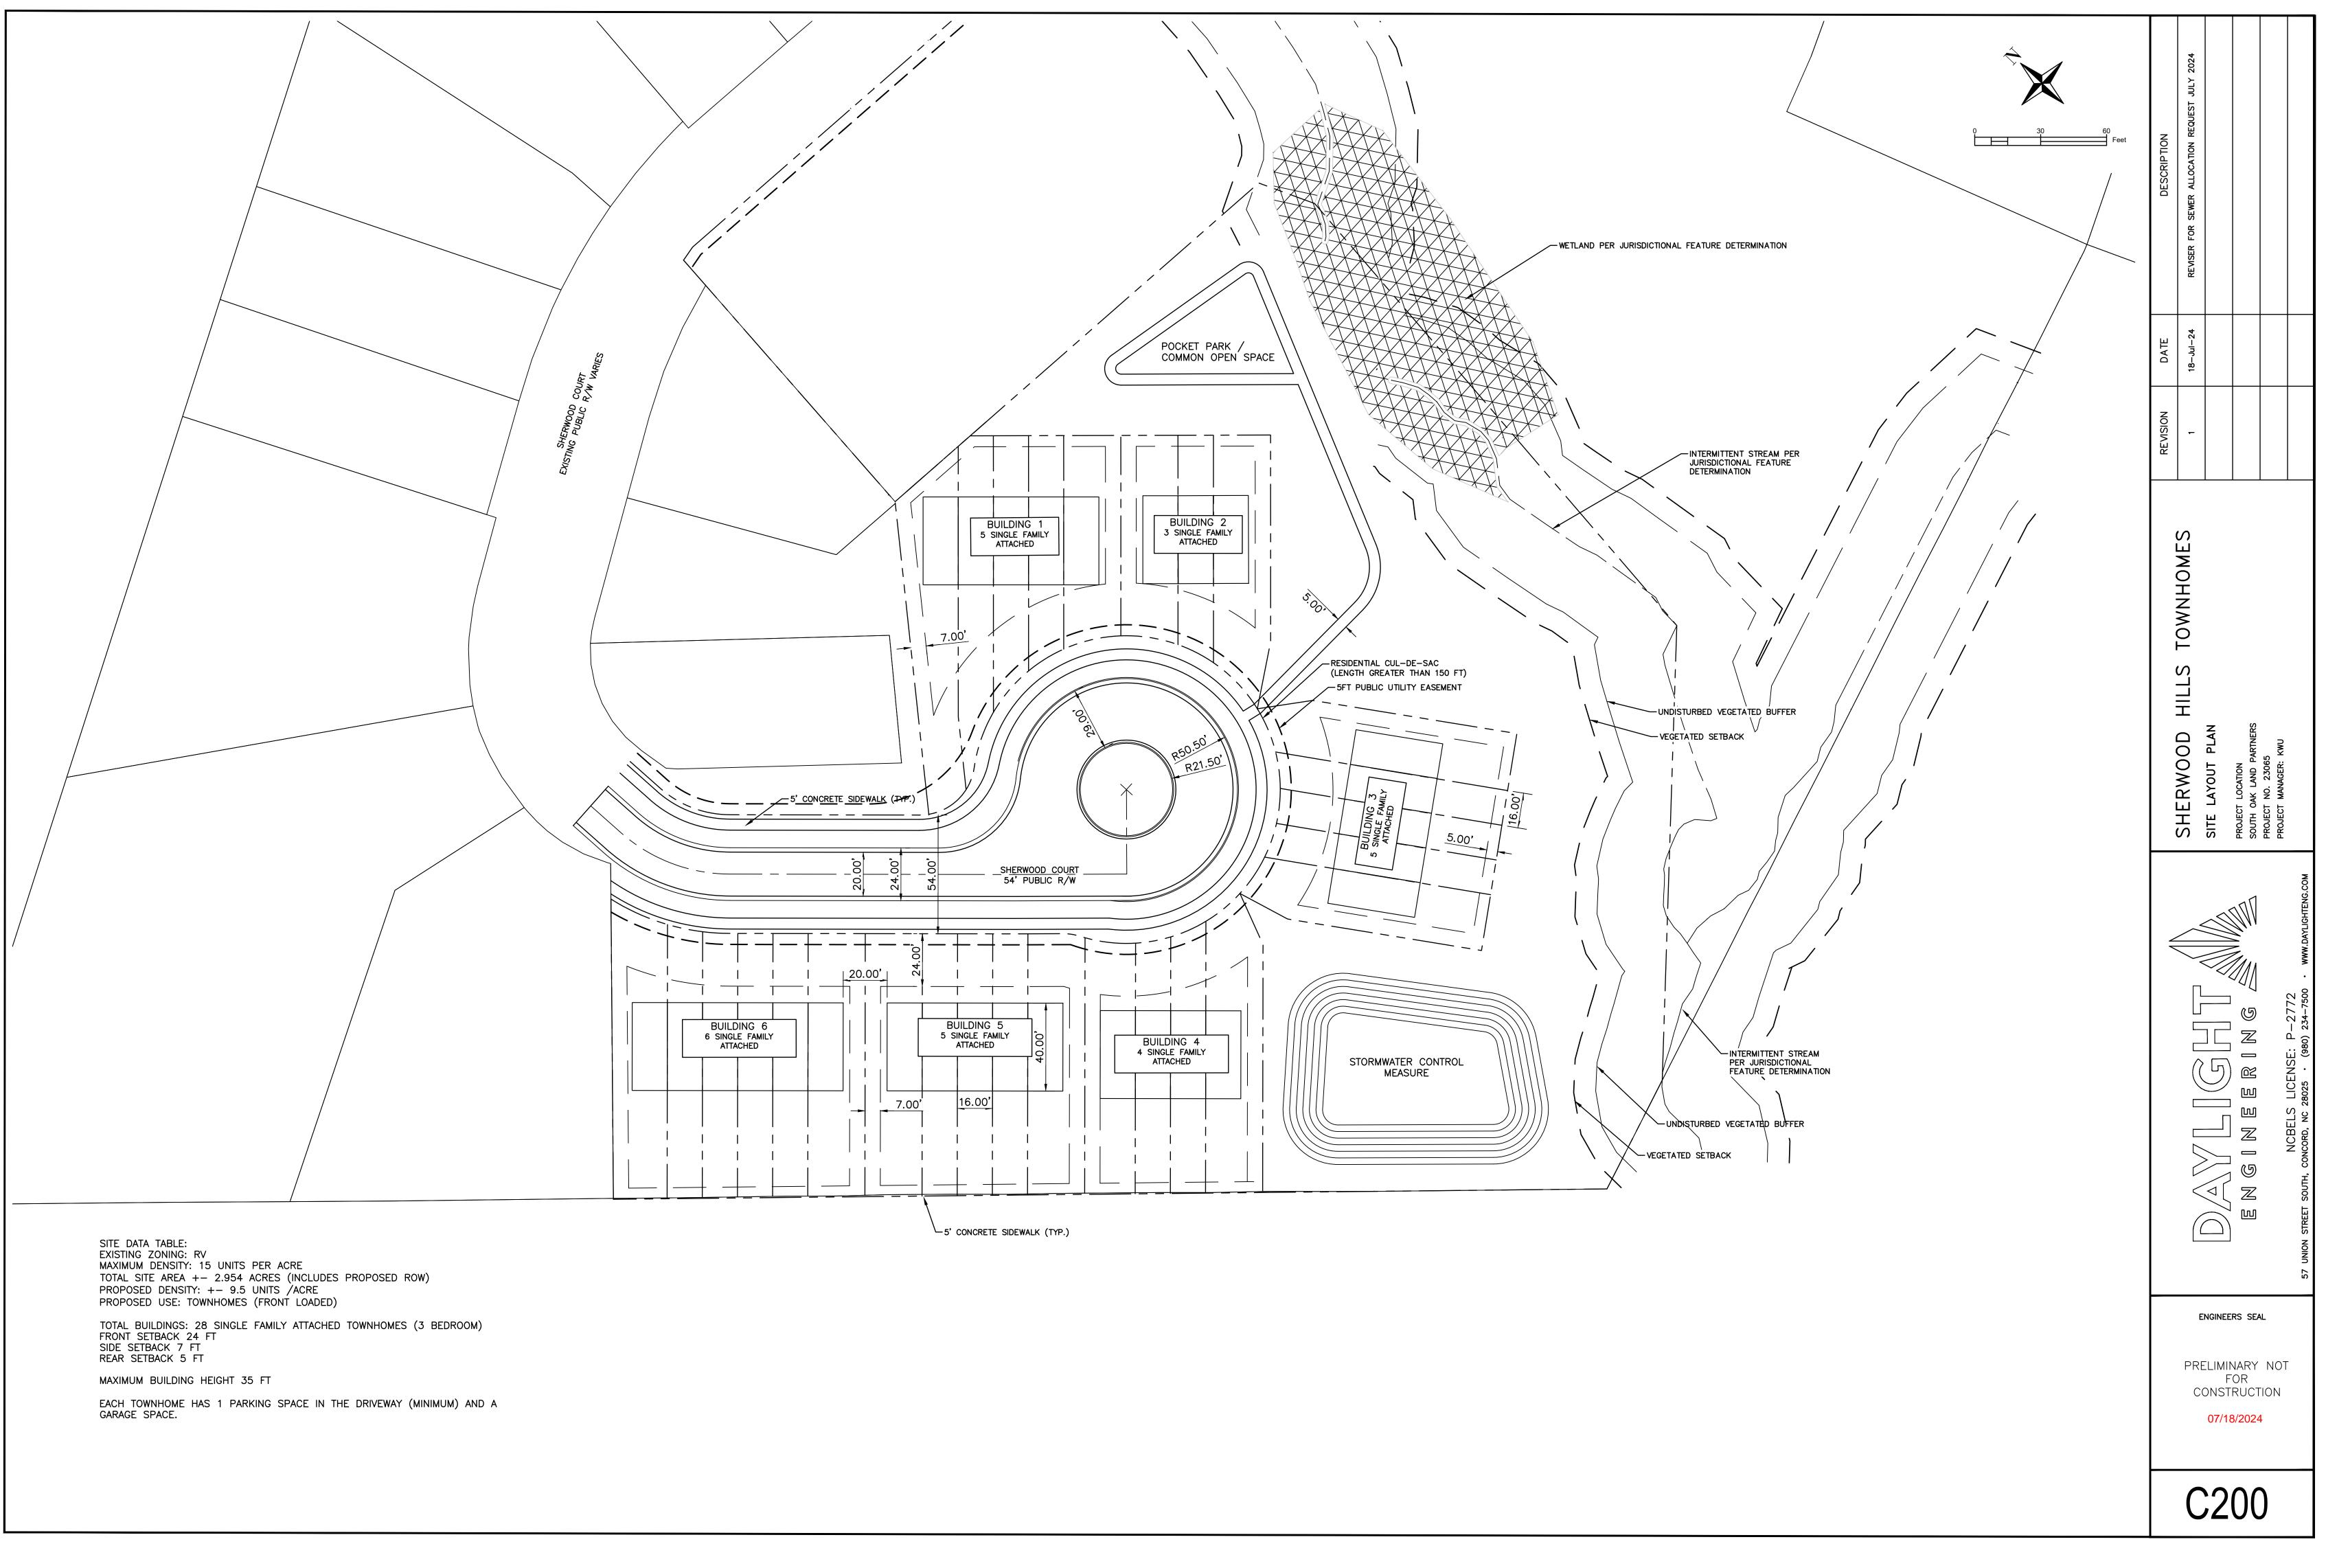

While several new homes in this area range from \$450K up to \$850K within ½ mile from this property, we hope that this project can create smaller, affordable units to the marketplace. We aim to serve as many working families as possible in the market with relatively affordable units. We anticipate a price point for the new townhomes to begin in the mid 300's.

Sincerely,

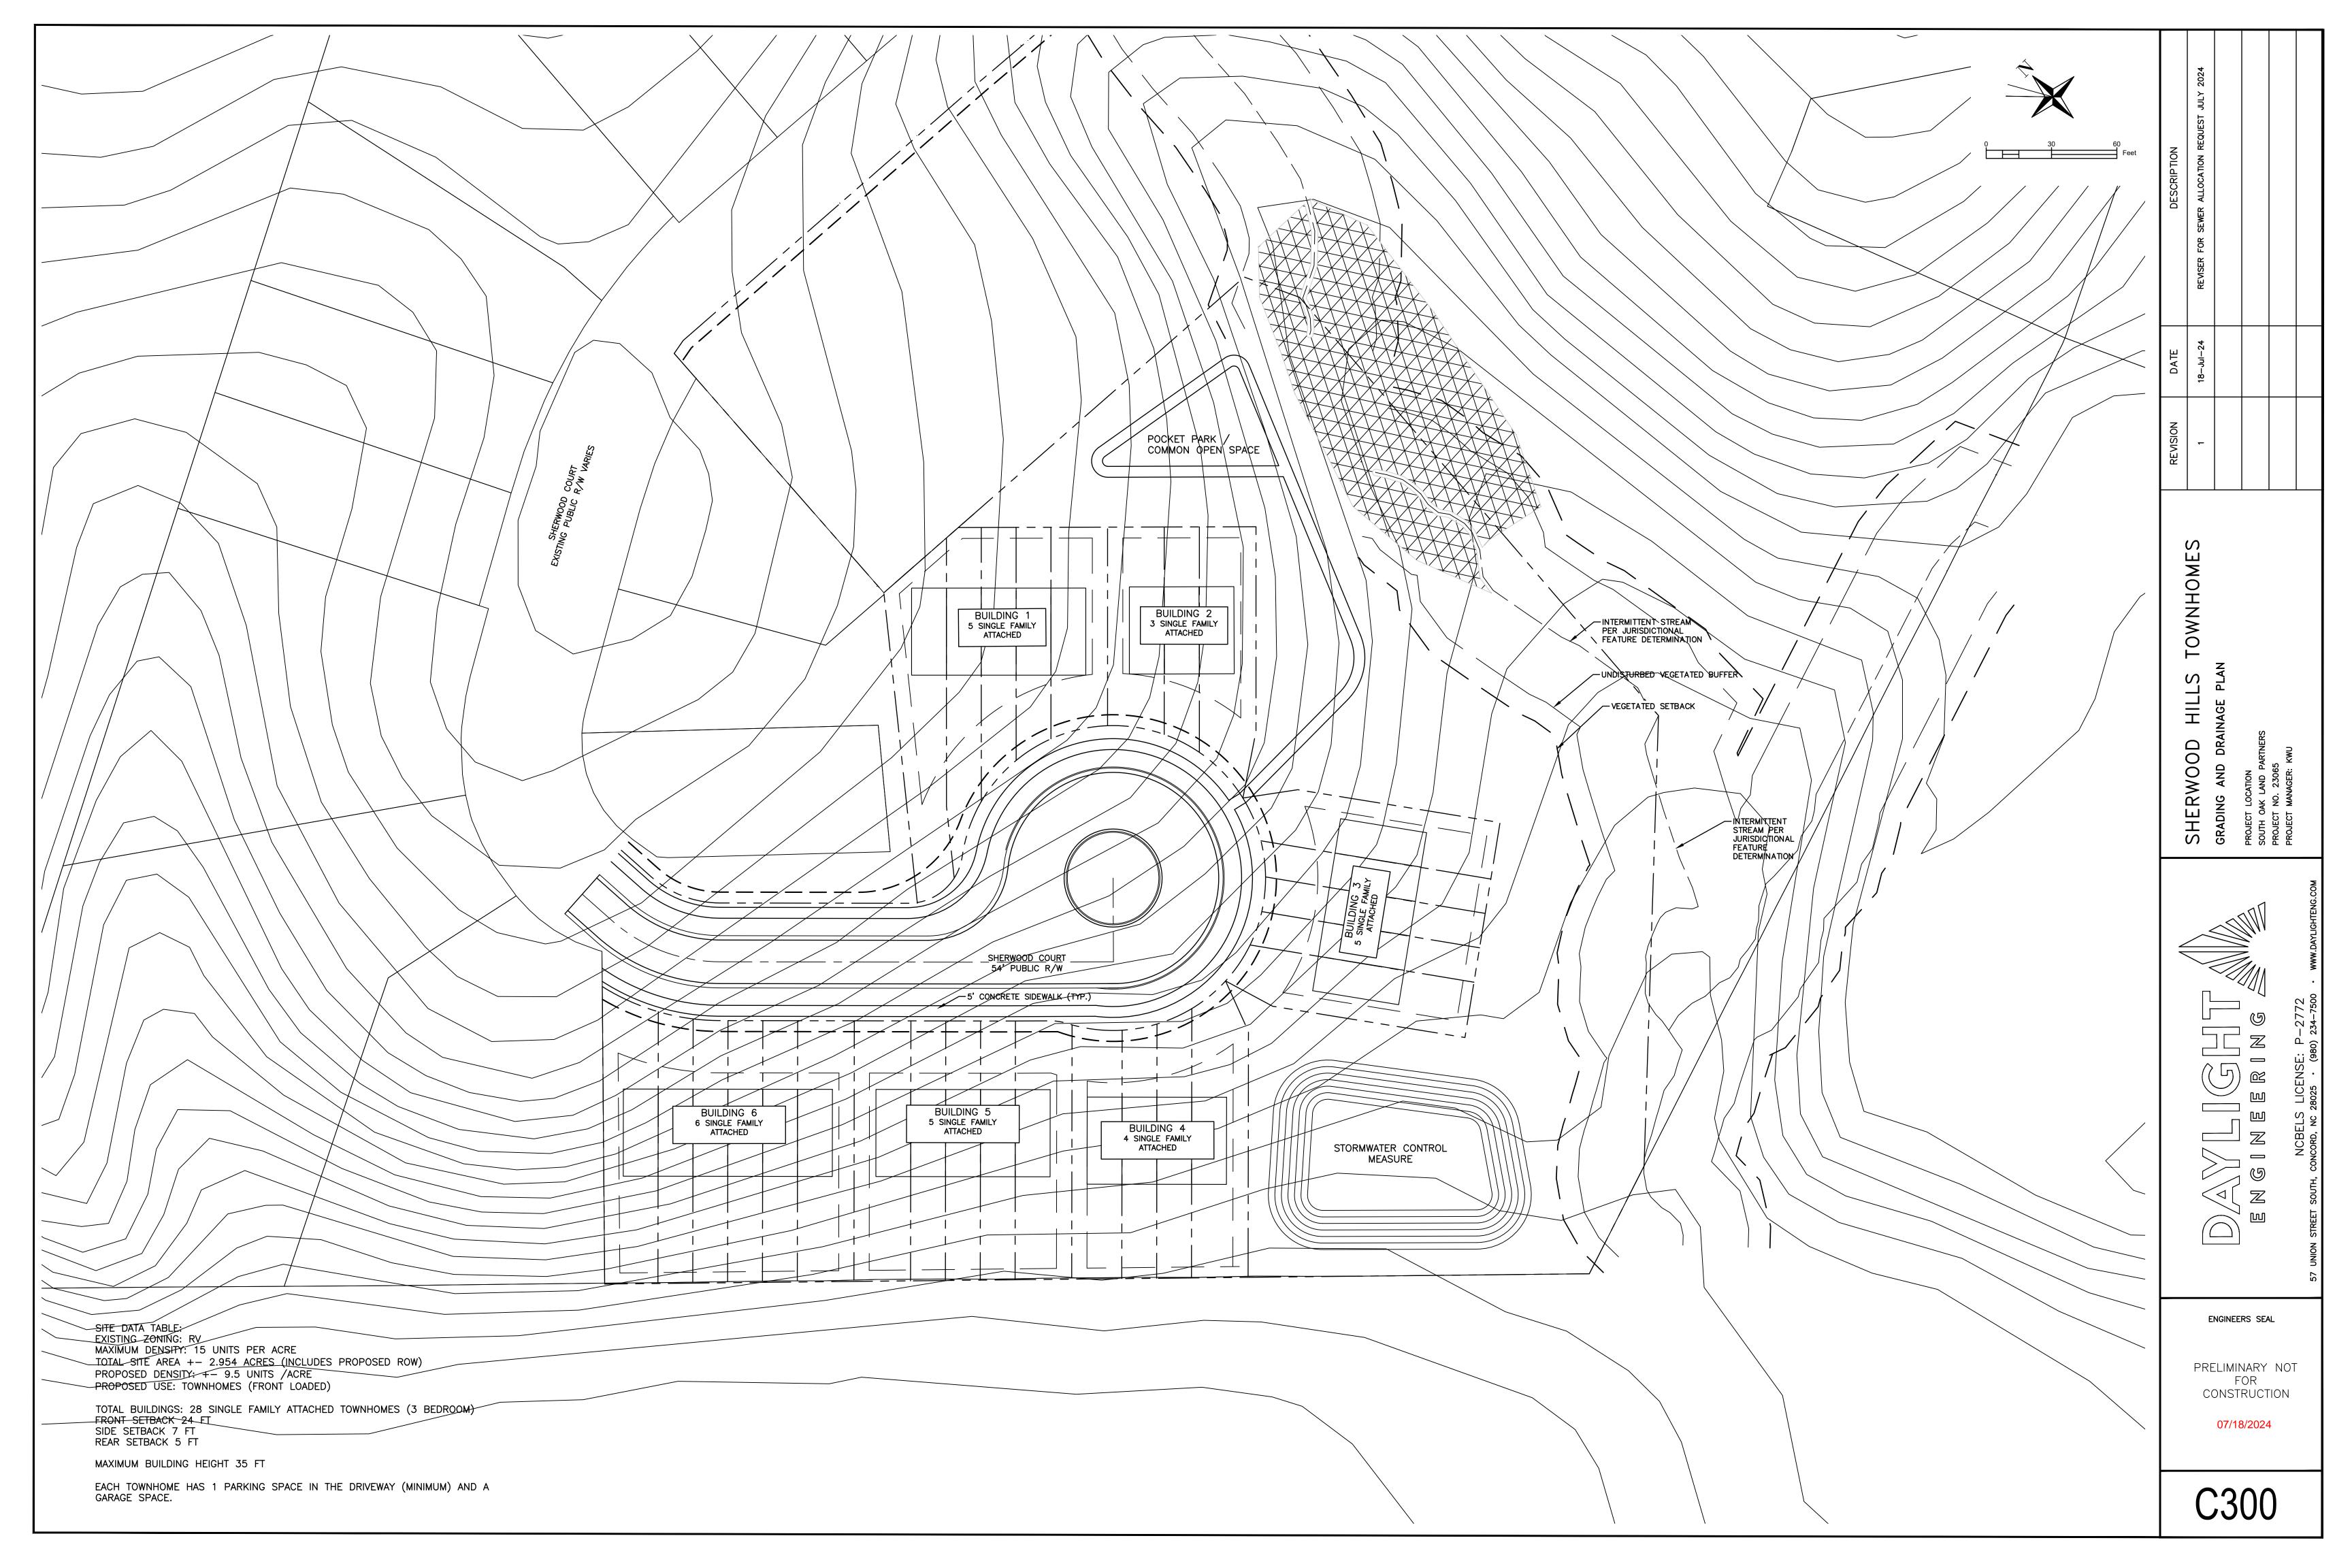

Prothet

David E. Tibbals, Manager

Dear Mr. Mayor, City Council and Staff,

Dream Finders Homes (formally H+H Homes) is requesting sewer allocation for Sunview, an integrated housing development of single family residential homes and townhomes. This development is tucked in behind the long-established neighborhood of Collingswood Dr off of Central, in the heart of Concord. In support of this request, please note the following considerations:

- 1. The developer is committed to Concord, and has owned the property since January 2021 (Saphire Straight LLC).
- 2. Preliminary Plat approval for a 140 unit townhome development was issued February 4<sup>th</sup>, 2022, as the sewer restrictions were coming into place.
- 3. Sewer allocation has been *requested at every opportunity*, including:

Project Design	City Council Meeting	City Council Results
140 Apartment Townhomes	July 2022	Not Allocated
72 Single Family Residential	September 2022	Not Allocated
72 Single Family Residential	December 2022	Not Allocated
72 Single Family Residential	February 2023	Not Allocated
Horizontal Mixed Use (24 Single Family Residential and 95 Townhomes)	December 2023	Not Allocated
Horizontal Mixed Use (24 Single Family Residential and 95 Townhomes)	March 2023	To Be Determined

- 4. The site is located less than 2.5 miles from City Hall, nearby to downtown.
- 5. There is existing sewer running through the development, and water available at the connection points with city streets.
- 6. Proposed site amenities include a nature trail that traverses the site. Of the 53 acres on-site, *approximately 33 acres are proposed to remain natural/undeveloped.*
- 7. This site is designated as Urban Neighborhood in the Future Land Use Plan. This site meets the intent of the Future Land Use Plan, section 5.2 bullet 4, which specifies that "infill is most desirable within identified Mixed-Use Activity Centers, Village Centers, and Urban Neighborhoods"
- 8. This proposal also meets the *Future Land Use Plan Objective 1.6 which guides us to "provide a diverse mix and range of housing options"* through the guidance of providing mixed-density housing through integrated housing types. This project meets the policy and guidance of the Future Land Use Plan through the proposed mixed single family and single family attached horizontal mixed-use approach.

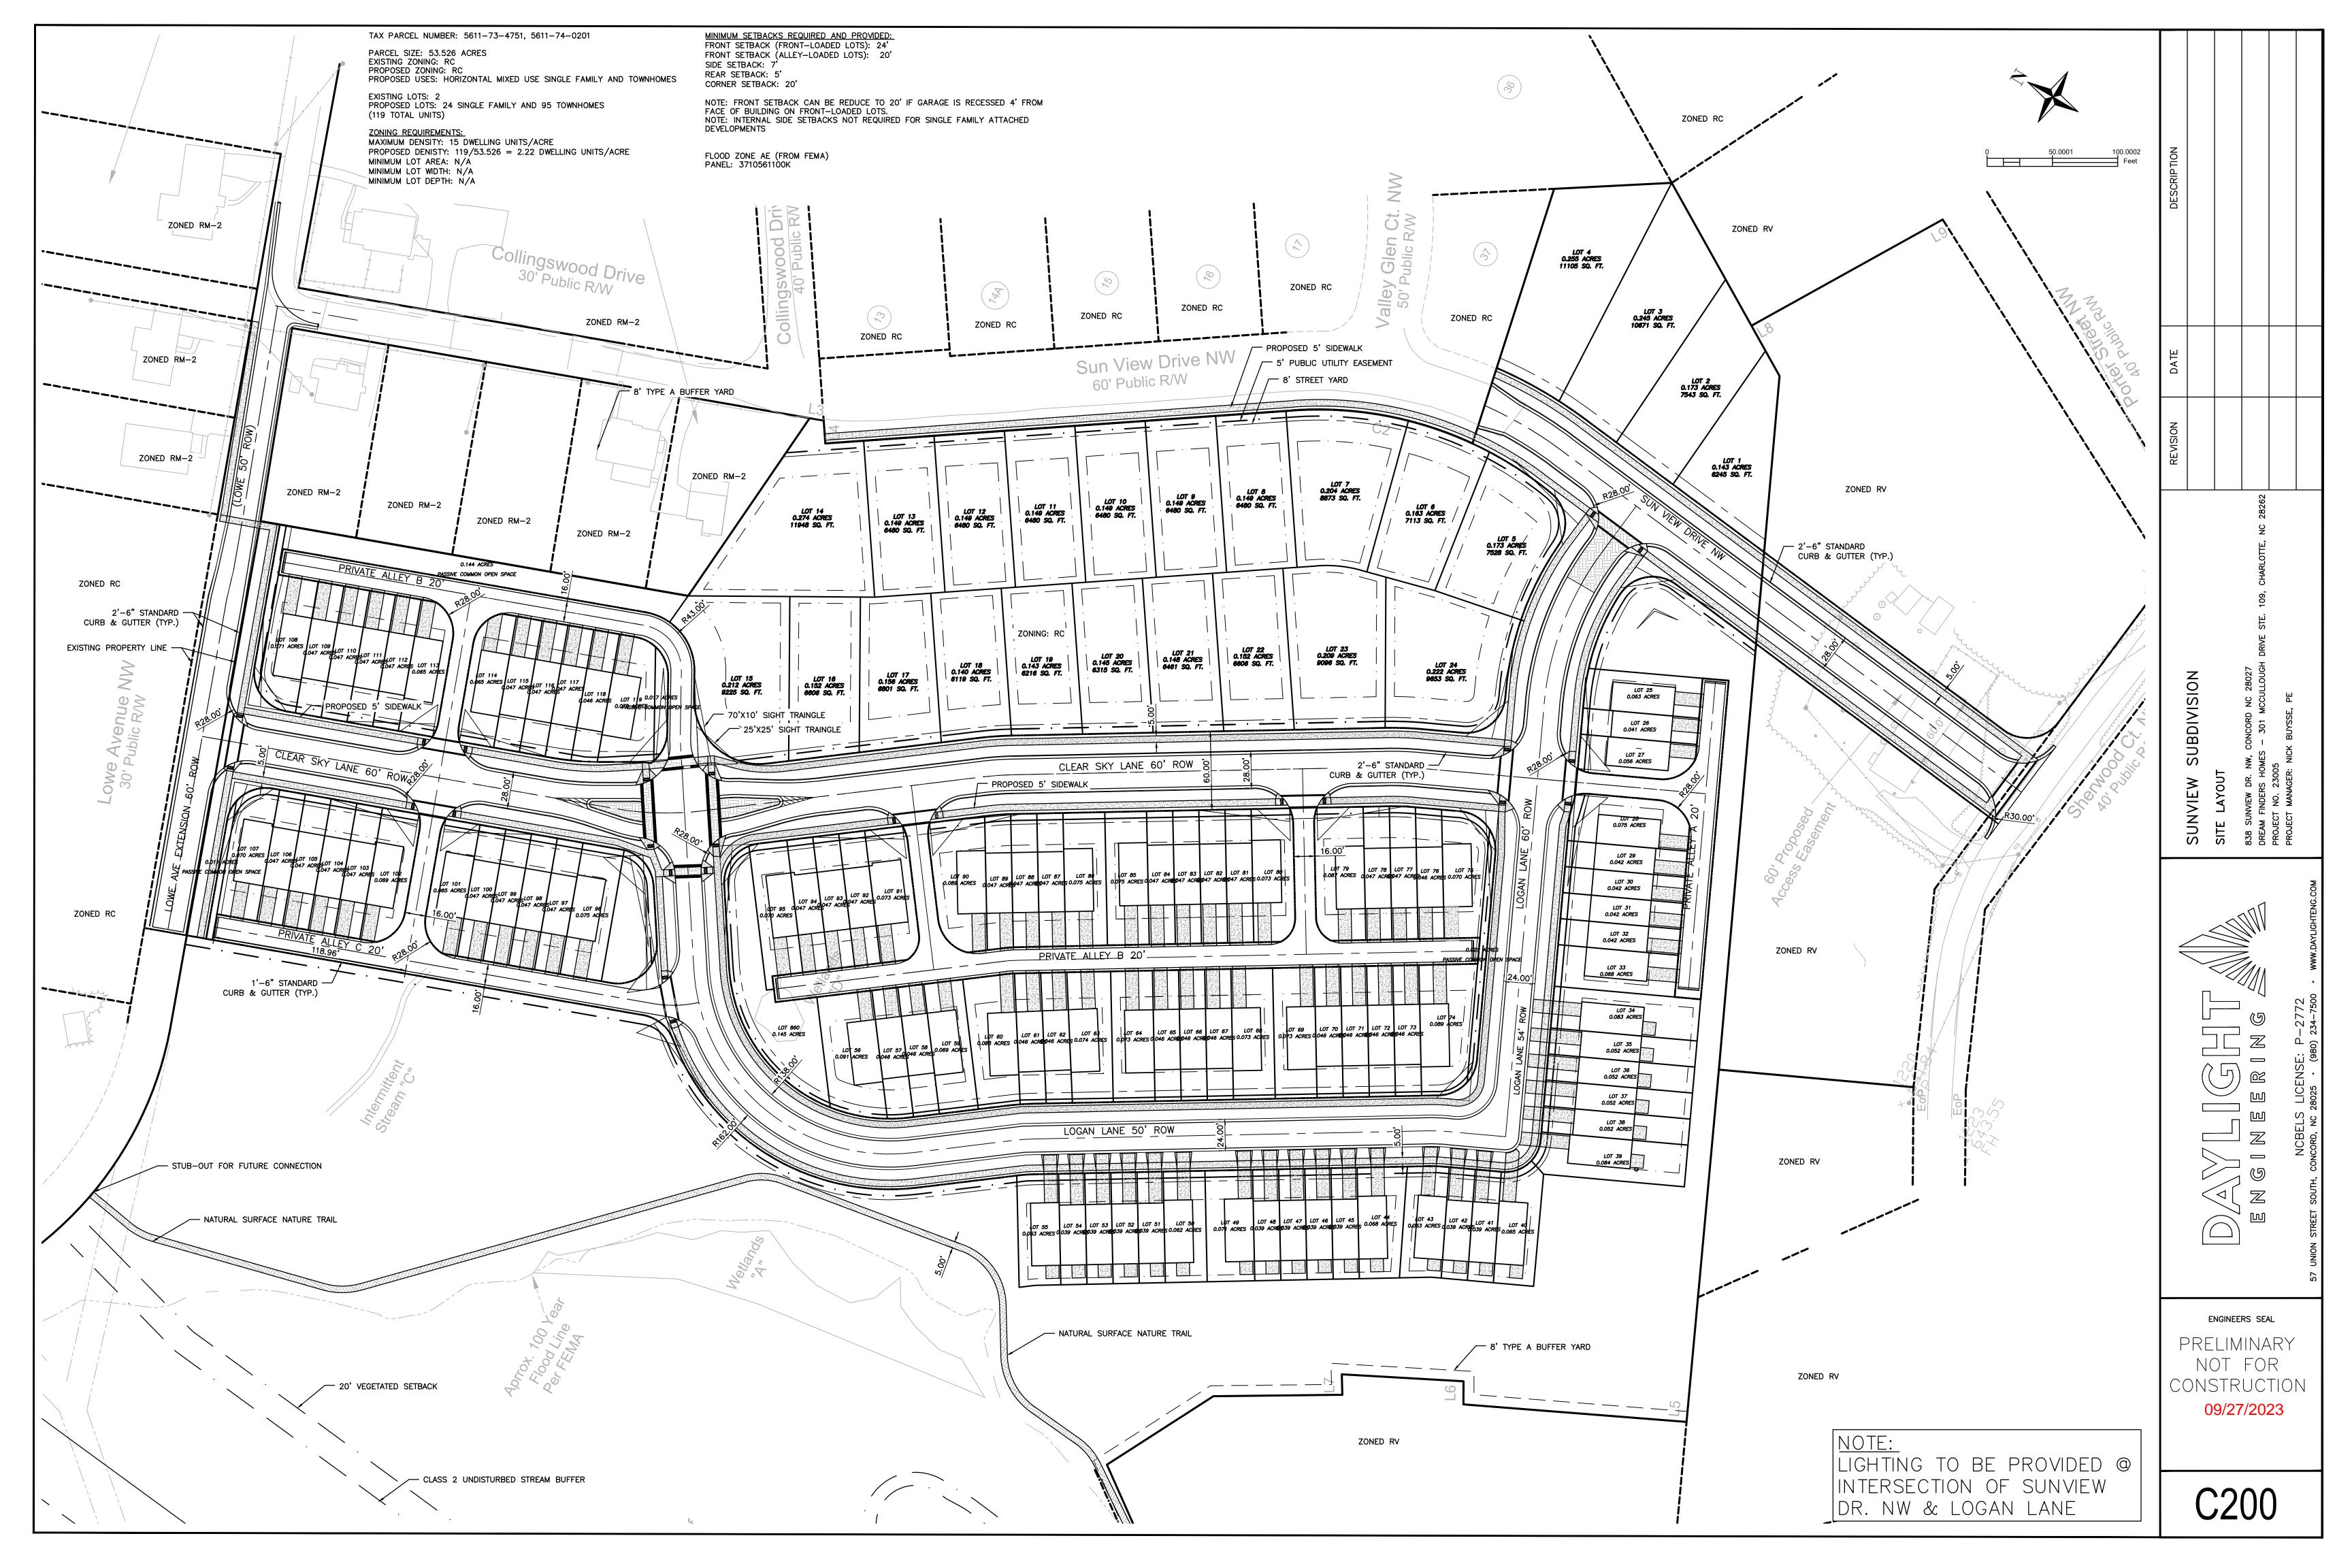

While Dream Finders Homes appreciates the challenges that restricted sewer availability has caused for Cabarrus County and the City of Concord, we would like to respectfully request your consideration and approval of this project in the heart of Concord.

Respectfully,

01/15/2024

The Manager shall ensure that the words "Company", "Co.", "Limited Liability Company" or "LLC" appears after the name of the Company in all Company stationery, checks, business cards, invoices, advertisements and other media containing the name of the Company and likely to be read, seen or heard by third parties. The Manager shall ensure:

- (1) That the books and accounts of the Company are maintained separately from those of any Member or Manager;
- (2) That there is no commingling of the assets of the Company with those of any Member or Manager; and

6.7.2 Except as otherwise provided herein, the Manager shall not be liable to the Company or the Members or other Interest Holders for any act or omission in connection with the business or affairs of the Company so long as the Manager against whom liability is asserted acted in good faith on behalf of the Company and in a manner reasonably believed by the Manager to be within the scope of authority under this Agreement and in the best interests of the Company, unless such act or omission constitutes gross negligence, intentional misconduct, fraud, or knowing violation of law;

6.7.3 To the extent not otherwise covered by liability insurance, the satisfaction of the indemnity obligations of the Company under Section 6.7 of this Agreement shall be from and limited to the assets of the Company, and no Member or other Interest Holder shall have any personal liability for satisfaction of such indemnity obligations, other than the separate personal guarantees made by one or more of the Members. In the event a final determination is made by a court or pursuant to the arbitration provisions of this Agreement that the Company is not obligated for any amounts previously paid to it or on behalf of any Manager, the Manager shall refund that amount within thirty (30) days of the final court determination;

However, this indemnification shall apply only if the Manager against whom a claim, action or demand is asserted has acted in good faith on behalf of the Company and in a manner reasonably believed by the Manager to be within the scope of authority under this Agreement and in the best interests of the Company, and only if the act or omission underlying the claim, action or demand did not constitute gross negligence, intentional misconduct, fraud, or a knowing violation of law.

## 6.8 Binding Authority.

The signature of the Manager shall be sufficient to bind the Company to any agreement or on any document or instrument. In the event there is more than one person serving as Manager, the signature of any one Manager shall be sufficient to bind the Company to any agreement or on any document or instrument. Each Member and other Interest holder agrees not to assert any claim to the effect that execution or performance of any such instrument or document breached this Agreement of the duties of the Manager, against any person dealing with the Manager in good faith and without actual notice of the asserted claim at the time of the delivery of the instrument or document; provided, however, that this Section 6.8 shall not be construed to limit any recourse by any Member against the Manager. Any person dealing with the Company may rely upon a certificate signed by the Manager or, in the event of multiple Managers, any of the Managers, as to (a) the identity of any Member, (b) any fact relevant to the Company and (c) the due authority of the person purporting to act on behalf of the Company.

insufficient time to allow the Manager to obtain the approval of the Members to such action and any delay would materially increase the risk to life or health or preservation of assets. The Manager shall notify the Members of each such action contemporaneously therewith or as soon as reasonably practicable thereafter. Such authority shall lapse and terminate upon reduction of such risk to life or health or preservation of assets or upon receipt by the Manager of telephone, telegraphic or written notice from any Member of such Member's disapproval of any or all of the proposed actions.

12.6.4 If the Partnership Representative, with the consent of the Manager(s), decides to have the Members file amended tax returns pursuant to Section 6225(c)(2), all Members shall timely file and include payment of any tax due with such amended returns.

12.6.5 The Company shall reimburse the Partnership Representative for all costs and expenses incurred by it in performing its duties as the Partnership Representative (including legal and accounting fees and expenses). Members will not be credited with interest on their capital accounts, and unless all of the other Members agree, Members, in their capacity as Members, shall not be entitled to salary for services rendered on behalf of the Company.

#### 14. DISTRIBUTIONS TO MEMBERS.

#### 14.1 Distributions.

Distributions may not be demanded by the Members. Instead, the Manager shall determine the amount of cash, if any, available for distribution at such times as the Manager deems advisable. The distribution shall be based upon all relevant factors, including, but not limited to, the operating expenses and debt service of the Company, sums expended by the Company for capital expenditures and a reasonable reserve for working capital.

## 14.2 Amount of Distributions.

No distribution shall be made if, after the distribution is made, the assets of the Company are less than all liabilities of the Company, except liabilities to Members on account of the contributions.

#### 14.3 Allocation of Distributions.

Distributions shall be made in proportion to the membership interest in the Company, as of the date of distribution, unless otherwise agreed by the unanimous vote of the Members. The Members, by such vote, may make distributions according to membership interests, may make payments according to services rendered by each Member, may make payments according to the economic realities of the transaction or according to such other plan of distribution voted upon by the Members.

#### 14.4 Monthly Distributions.

## 14.5 Suggested Distributions.

Except as provided in Sections 14.1 and 14.2 above, the Manager shall, as the Company is able and as soon as possible after the filing of the Company's tax return, distribute to each Member an amount equal to that Member's allocable share of net profits as shown on the tax return multiplied by the highest marginal income tax rate applicable to persons under the Code and reduced by any distributions received by the Member.

#### 14.6 Restrictions on Guardianship/Conservatorship Appointments.

In the event a court with certain and appropriate jurisdiction shall consider appointing a guardian or conservator over any member and/or manager of the Company it is the intent of the member(s) and/or manager(s) that such a fiduciary appointment be a family member or a professional appointed by the member

and/or manager's family instead of a court appointed third party. Any attempt by a court to ignore and/or alter the terms of this Section shall be grounds for an immediate appeal to a higher court for an appellate review and determination of the legality and appropriateness of any court appointed guardianship or conservatorship running contrary to the express wishes of the member(s) and or manager(s) herein.

#### 15. RESTRICTIONS ON TRANSFER OF A MEMBER'S INTEREST.

#### 15.1 Rights of First Refusal.

Except as specifically provided herein, no Transferring Member shall voluntarily or involuntarily sell, transfer, encumber, assign or otherwise dispose of all or any part of the Member's membership interest in the Company to any transferee without first offering to sell the membership interest to the Company. The Transferring Member shall send to the Company a proposed written offer executed by the potential transferee stating (1) the exact Interest to be purchased by the transferee, (2) the amount of the purchase price, (3) the terms for the purchase and (4) the qualifications of the transferee, if any are required, to own a membership interest in the Company.

Within thirty (30) days after receipt of the written offer by the Company, the Company may purchase the interest of the Transferring Member on the terms set forth in the offer by the transferee. The exercise of the option by the Company shall be determined by the vote of the Manager.

Within five (5) days of the Company's failure to exercise any right of first refusal described in this Section 15, the Manager of the Company shall forward to each of the other Members of the Company a copy of the transferee's written offer together with a statement that the Company has elected not to exercise its right of first refusal. The other Members shall then have the right to purchase the transferee's written offer. Any Member desiring to acquire part or all of the membership interest shall deliver to the Manager of the Company a written election to purchase the membership interest or a specified portion of such membership interest within thirty (30) days of the date of the Company's notice. If the Company receives notice from a Member electing to purchase in the aggregate more than the Transferring Member's interest, each purchasing Member shall have priority, up to the amount of the interest specified in his or her notice, to purchase such proportion of the interest as his or her Interest bears to the total membership interest of the Company held by Members electing to purchase.

If any Member elects to purchase as specified above, the Manager of the Company shall notify each purchasing Member of the Transferring Member's interest as to which his or her election was effective within fourteen (14) days of the expiration of the option period provided to Members described herein. Such Members shall meet the terms and conditions of the purchase within twenty-one (21) days after receipt of the Manager's notification of the Transferring Member's interest as to which such Member's election was effective.

If the Company and the Members do not exercise the right of first refusal as to the entire interest of the Transferring Member described in the written offer, the Transferring Member may sell, transfer, assign, encumber or otherwise dispose of the membership interest to the transferee specified in the notice on the exact terms specified in the notice. However, if the Transferring Member does not sell, transfer, assign, encumber or otherwise dispose of the membership interest to the transferee on those exact terms within sixty (60) days after expiration of the time for the Company and Members to exercise the right of first refusal, the Transferring Member must, before disposing of the membership interest, re-offer the membership interest to the Company and the Members in the manner as set forth in this Section 15. If all of the Members of the Company, other than the Transferring Member, do not approve of the proposed sale, transfer, assignment, or encumbrance by unanimous written consent, the transferee of the Company or to become a Member. The transferee, unless unanimous written consent is obtained, is only entitled to receive the share of profits or other compensation by way of income, and the return of contributions to which the Transferring Member would otherwise be entitled.

No Transferring Member or any transferee may exercise any voting rights of a Member except upon admittance by the non-transferring Members of the transferee as a Substitute Member. No Transferring Member may sell, transfer, assign, encumber or otherwise dispose of less than all of such Member's interest.

#### 15.2 Rights of Transferee.

In the event the sale, transfer, assignment or encumbrance is approved by unanimous written consent of the remaining Members, the transferee shall be admitted to all the rights and powers of a Member, and be subject to all the restrictions and liabilities of the Transferring Member. If not approved by all remaining Members the transferee shall have no right to participate in the management of the business. However, the Transferring Member shall not be released from liability to the Company.

#### 15.3 Conditions to Transfer.

Notwithstanding the provisions of Sections 15.1 and 15.2 above and subject to Section 8.4, no Member shall have the right, voluntarily or involuntarily, to sell, assign, pledge, mortgage, encumber or grant any security interest in or otherwise transfer all or any portion of any membership interest, and no such purported transfer need be recognized by the Company, unless all of the following requirements are satisfied:

15.3.1 The transfer shall not of itself cause the Company to be in default under any indebtedness of the Company;

15.3.2 The Transferring Member shall deliver to the Company at the Company's request an opinion in form and substance and from legal counsel reasonably acceptable to the Manger stating that such transfer does not violate any federal or state securities law, and the transferee shall deliver such additional document respecting the transferee's investor suitability and other legal or investment matters as the Manager may reasonably require; and provided further that the Company shall have no duty to participate in, cause or pay for any registration or qualification procedures under federal or state securities laws;

15.3.3 The Transferring Member shall deliver to the Company a fully executed written agreement of assignment that sets forth the name, address and taxpayer identification number of the transferee, and the terms of such transfer, provided such terms shall not conflict with any provision of this Agreement;

15.3.4 The Transferring Member shall deliver to the Company a statement signed by the Transferor and Transferee as to which party shall be primarily liable and which party shall be secondarily liable to the Company for any short fall arising under section 12.5 herein.

If any Member is a closely held corporation, or is an unincorporated association or partnership, or limited liability company, the transfer, assignment or hypothecation of any stock or other interest in such corporation, association, partnership or company in the aggregate in excess of fifty percent (50%) shall be deemed an assignment or transfer within the meaning of this Agreement, except as provided in Section 15.5.

#### 15.4 Admission of Substitute Members.

Notwithstanding the provisions of Sections 15.1 and 15.2 above, no transferee shall become a Substitute Member unless the following additional conditions are met:

15.4.1 The transferee executes, acknowledges and delivers to the Company a written agreement stating that such transferee agrees to be bound by the provisions of this Agreement and executes such other instruments as the Manager deems necessary or appropriate for admission as a Substitute Member;

15.4.2 Each transferee reimburses the Company for all reasonable accounting, legal and other expenses incurred by the Company regarding the transfer and such admission.

#### 15.5 Permitted Transfers.

Any Member, notwithstanding Section 15.1 but subject to the requirements of Section 15.3.4, may transfer all or part of the Member's interest in the Company:

15.5.1 To the Company upon terms acceptable to all Members;

15.5.2 To any other existing Member upon terms acceptable to the Transferring Member and the acquiring Member, subject to the approval of the Manager and approval by unanimous written consent of the remaining Members; or

15.5.3 To a revocable living trust for the benefit of the Member and/or the Member's spouse or family members, to the extent allowed by local law. The Trustee shall hold such Member's membership interest subject to the provisions of this Agreement.

15.5.4 To the successor Trustee of a Member's revocable living trust for the benefit of the Member and/or the Member's spouse or family members, to the extent allowable by local law. The successor trustee shall hold such Member's membership interest subject to the provisions of this Agreement.

#### 15.6 Transfer Upon Death of Member.

In the event the Members are spouses the surviving spouse shall accede to the deceased Member's interest, unless otherwise provided for in a will, revocable or other trust. In the event the Members are not subject to a will, revocable or other trust directive, within a period beginning with the death of any Member and ending one hundred eighty (180) days following the qualification of the decedent's executor or administrator, the remaining Member(s) shall have the option to purchase all or any portion of the decedent's membership interest in the Company at the price and on the terms provided in this Agreement. If less than all the remaining members wish to purchase, the interests shall be allocated according to each participant's member's pro rata ownership in the Company. Any surviving Member shall exercise the option hereunder, if at all, by a writing delivered to the personal representative of the deceased Member within the time period set forth in this Section 15.6, subject to the approval of the Manager and approval by unanimous written consent of the remaining Members.

#### 15.7 Triggering Events - Involuntary Transfer.

If any of the triggering events listed below occur as to any Member, the Company or the other Members may purchase all of the interest owned by the Member. This may be triggered if any of the following events occur:

15.7.1 A Member is adjudicated as bankrupt, either voluntary or involuntary;

15.7.2 A Member makes an assignment for the benefit of creditors;

15.7.3 A Member's interest is subject to a charging order. Pursuant to state law a charging order may be a remedy available to any judgment creditor of a Member with respect to the income, assets, property or other rights the Member may have in the Company. It shall be in the Manager's sole discretion as to how any such charging order shall be dealt with, unless otherwise directed by law; however, in no event shall either the charging order or the Manager's determination as to the disposition of the handling of such charging order afford the judgment creditor any rights beyond the rights as an assignee of the applicable Member's membership interest; or

15.7.4 The execution of any property settlement agreement between any Member and the Member's spouse, or the entry of any decree of divorce or separate maintenance by a court of competent jurisdiction, wherein the spouse is awarded any membership interest or a trust is imposed on said membership interest for the benefit of said spouse, then to the extent said Interest is transferred, or to the extent said interest is subject to the imposition of any such trust or lien, there shall be deemed a triggering event as to the interest so affected.

When a triggering event occurs, the Company shall give written notice to the Member or his or her representative of its option to purchase the interest and the terms as set forth in this Section 15.

#### 15.8 Valuation.

The purchase price for any membership interest to be purchased under Sections 15.6 and 15.7 of this Agreement shall be as agreed between or among the Members and the selling Member or the personal representative of any deceased Member. In the event the parties do not agree within thirty (30) days of the later of (a) the date giving rise to the option to purchase, or (b) the date of timely exercise of such option, the parties shall select a business appraiser, business broker or independent CPA ("Appraiser") mutually satisfactory to each of them, whose determination of value (determined net of ordinary and reasonable costs of sale and with consideration of reasonable discounts for minority interest or lack of control) shall constitute the value of the membership interest. In the event the parties cannot mutually agree on the selection of a single Appraiser within ten (10) days of expiration of the thirty-(30) day period described above, each party, within ten (10) days thereafter, shall select an Appraiser, and the Appraisers so selected shall mutually select a third. The three Appraisers shall then value the membership interest net of ordinary and reasonable costs of sale. The value of the membership interest shall equal the average of the appraisals. The parties shall separately bear the costs of the Appraisers which they select, respectively, and shall share equally the cost of the independent Appraiser, if applicable.

#### 15.9 Payment.

The consideration for any membership interest transferred under this Agreement shall be paid to the Transferring Member or the Transferring Member's personal representative or successor, as the case may be.

If the event leading to the purchase is the death of any Member, the decedent's personal representative shall apply for and obtain any necessary court approval or confirmation of the sale of the decedent's membership interest and the Company or the surviving Members shall file the necessary proofs of death and collect the proceeds of any outstanding policies of insurance on the life of the decedent owned by the Company or such Member. If the purchase price is fully funded by proceeds of any such insurance policies, the purchaser shall pay the purchase price. If the purchase price is not fully funded by insurance on the life of the decedent Member, each purchaser shall pay the purchase price in cash up to the full amount of the proceeds of any such insurance policies of which that Member is the policy owner, and shall pay any remaining portion of the purchase price in accordance with the terms of the following subparagraph.

The terms for payment of the purchase price of a membership interest (other than amounts by life insurance proceeds as provided in the preceding paragraph) shall be paid pursuant to the terms of a Promissory Note (herein the "Note") to be executed by the Company or by the Member or Members, as the case may be. The Note shall provide for sixty (60) equal monthly payments of principal and interest accruing against the balance of the Purchase Price at the Federal Reserve's Kansas City prime interest rate plus one percent (1%) from the date of the Note. The Note shall be dated as of the date the purchase is made. The Note shall provide that the maker may prepay all or any portion of the unpaid principal balance and accrued interest at any time, without penalty. The Note shall include the provision that the entire unpaid principal balance and all accrued interest shall become immediately due and payable upon the happening of any of the following conditions:

15.9.1 Adjudication of bankruptcy of the maker of the Note;

15.9.2 Voluntary or involuntary petition by or on behalf of the maker of the Note for arrangement or reorganization, or for the protection of creditors and the debtor, under the Bankruptcy Act;

15.9.3 Upon default in payment of any of the terms by the maker of amounts required to be paid under the Note;

15.9.4 In the event the sale is to a Member, upon the sale of all, or substantially all, of the membership interest in the Company by the Member;

15.9.5 If the sale is to the Company, upon the sale of the Company or all or substantially all of the assets of the Company.

#### 15.10 Governmental Approvals.

The Company agrees to apply for and use its best efforts to obtain all governmental and administrative approvals required, if any, in connection with the purchase and sale of membership interest under this Agreement. The Members agree to cooperate in obtaining the approvals and to execute any and all documents that may be required to be executed by them in connection with the approvals. The Company shall pay all costs and filing fees in connection with obtaining the approvals.

### 15.11 Specific Enforcement.

In view of the inadequacy of money damages, if any Member or other person shall fail to comply with the provisions of this Section, the Company and any other Member shall be entitled, to the extent permitted by applicable law, to injunctive relief in the case of the violation, or attempted or threatened violation, by any such Member or other person of any of the provisions of this Section, or to a decree compelling specific performance by such Member or other person of any of such provisions, or to any other remedy legally allowed to them.

## 15.12 Later Tax Obligation.

In the event a previous Member shall owe taxes pursuant to Sections 12.5 through 12.7 herein, the Manager(s), in their sole discretion, shall have the authority to pursue collection actions against such previous Members for any tax obligations advanced by the Company on their behalf.

#### 15.13 Restrictions on Guardianship/Conservatorship Appointments.

In the event a court with certain and appropriate jurisdiction shall consider appointing a guardian or conservator over any member and/or manager of the Company it is the intent of the member(s) and/or manager(s) that such a fiduciary appointment be a family member or a professional appointed by the member and/or manager's family instead of a court appointed third party. Any attempt by a court to ignore and/or alter the terms of this Section shall be grounds for an immediate appeal to a higher court for an appellate review and determination of the legality and appropriateness of any court appointed guardianship or conservatorship running contrary to the express wishes of the member(s) and or manager(s) herein.

The construction plans and Architectural plans were already developed prior to the Pre Application process began..

Each townhome is two stories will be approximately 1600 sf. The townhomes estimated cost will be approximately \$250,000-\$275,000 and this project will increase the City tax base by between \$2,750,000-\$3,025,000. These would currently be considered low income housing for purchase.

### Hamlet Concord – Concord Sewer Allocation Application Narrative (2<sup>nd</sup> request)

Middleburg Communities is excited to propose a 226-unit for-rent cottage, duplex, and townhome project to help meet the high demand for attainable housing in the Concord area created by Concord's exceptional population growth. The site is situated on 7 parcels totaling 36.9 acres and is within close proximity to the activity center near the Concord Parkway / I-85 interchange. The zoning designation is RC, allowing for up to 15 units/acre which is well above the proposed 6.50 units/acre. These primary components drive home three main benefits for the development of this site:

- 1) Is on an infill site with great access to neighborhood retail, I-85, and Winecoff Elementary limiting the potential traffic impact.
- 2) Fits nicely within the surrounding neighborhood.
- 3) The housing type and site plan create a very unique development that also effortlessly fits within the current zoning and future land use designation.

This is the second time this sewer application request is being made and in further recognition of the sewer constraints within Concord the unit count for the proposed project has been reduced. Additionally, the community will provide low flow fixtures.

Furthermore, the proposed community will be tied together with a walkable, low speed, tree lined street connecting Winecoff School Road to a developer constructed extension of Parkwood Drive, stitching this fragmented road network together. To foster the walkable nature of this street, all homes will be alley loaded or will utilize on street parking so driveways will not interfere with the sidewalk network.

The homes proposed are high quality, unique architecture that provide a variety of different options (cottage, townhome style, etc.) to accommodate a variety of housing choices. Apart from the unifying street, a series of community focused open spaces are provided throughout the development. These spaces become the center of activity and social engagement for the residents. These are not just left over areas of the plan, but intentional areas that units front on and have programmed uses that may include grill areas, game lawns, native pollinator gardens, and more.

Apart from the developed area of the community, significant natural features will remain undisturbed including the existing pond and large stands of forest. This not only helps blend the community into the fabric of the existing neighborhood, it protects natural areas for wildlife, a healthy ecosystem and a quality community that everyone can enjoy. To give access to these areas, the community will also provide walking trails that connect the natural areas to the improved open spaces and walkable streets for a truly unique, pedestrian focused lifestyle.

Beyond the aforementioned outdoor sustainable components of the community and low flow fixtures, the community will also provide car charging capabilities, energy star appliances, smart home technology, and low VOC paint.

Project Narrative for Winecoff School Rd PIN – 5611-67-0451, 5611-67-2464, 5611-67-2664 Zoned RC 2.619 acres

The project site is an undeveloped wooded parcel just south of Belvedere Dr NW. The project went before DRC in May of 2021. A traffic impact analysis was requested and performed. It is attached for your reference.

The project consists of developing 2 small apartments buildings, one is 3 story and one is 2 story along with 8 garages. Efforts are made to create a pleasant, small scale, affordable, apartment community. The developer's intent is to provide affordable apartment homes that are big enough for a family and to provide additional smaller units for single occupants or for the single parent.

Building 1, the 3 story structure, is situated towards Winecoff School Rd for a more commercial street presence. Building 2, the 2 story structure, is situated closer to Belvedere and is sensitive to scale of the existing neighborhood.

Garages are proposed as an added amenity, as well as an open air pavilion, and a dog park area.

#### Transportation Technical Memorandum Winecoff Apartment Development September 14, 2021

The proposed Winecoff Apartment Development is to be located on the southeast quadrant of the intersection of Winecoff School Road at Belvedere Drive in Concord, NC. The proposed Winecoff Apartment Development is planned to consist of 39 apartment units. Based on the site plan, the proposed development will have one (1) access point on Belvedere Drive.

Winecoff School Road is a two-lane road and approximately 21 feet wide with a speed limit of 35 MPH. Belvedere Drive is a two-lane road and approximately 20 feet wide with a speed limit of 25 MPH. The predominant land uses in the study area are residential. The AADT on Winecoff School Road is 9,200 vehicles per day in 2019.

#### Vehicular Trip Generation

The trip generation potential of this site was projected based on the most recent edition (10<sup>th</sup> Edition) of the ITE *Trip Generation Manual.* Table 1 presents the results.

Table 1 – ITE Trip Generation						
Land Use	Intensity	Average Daily Traffic		ak Hour per day)	PM Pea (vehicles	ak Hour per day)
		(vehicles per day)	Enter	Exit	Enter	Exit
220 – Low Rise Multifamily Housing	39 Dwelling Units	254	4	15	16	10
Total T	rips	254	4	15	16	10

It is estimated that the distribution is a 50/50 split on Winecoff School Road.

#### Sight Distance

DAVENPORT carried out on-site field investigation of the proposed site access on Belvedere Drive. Looking west there is clear sight distance approximately 300 feet and to the east approximately 500 feet. Based on a design speed of 30 MPH on Belvedere Drive, this sight distance exceeds the NCDOT minimum requirement of 200 feet.

#### Turn Lane Determinations

Though traffic volumes were not collected for this project, it is estimated that 10% of the AADT (one way) represents the PM Peak Hour volumes. Therefore, the estimated PM peak hour volume is 460 vehicles on Winecoff School Road. The AADT on Belvedere Drive is unknown. Therefore, according to the City of Concord guidelines, a right turn lane and a left turn lane will be warranted on Winecoff School Road at Belvedere Drive based on the AADT being over 4,000 vehicles per day.

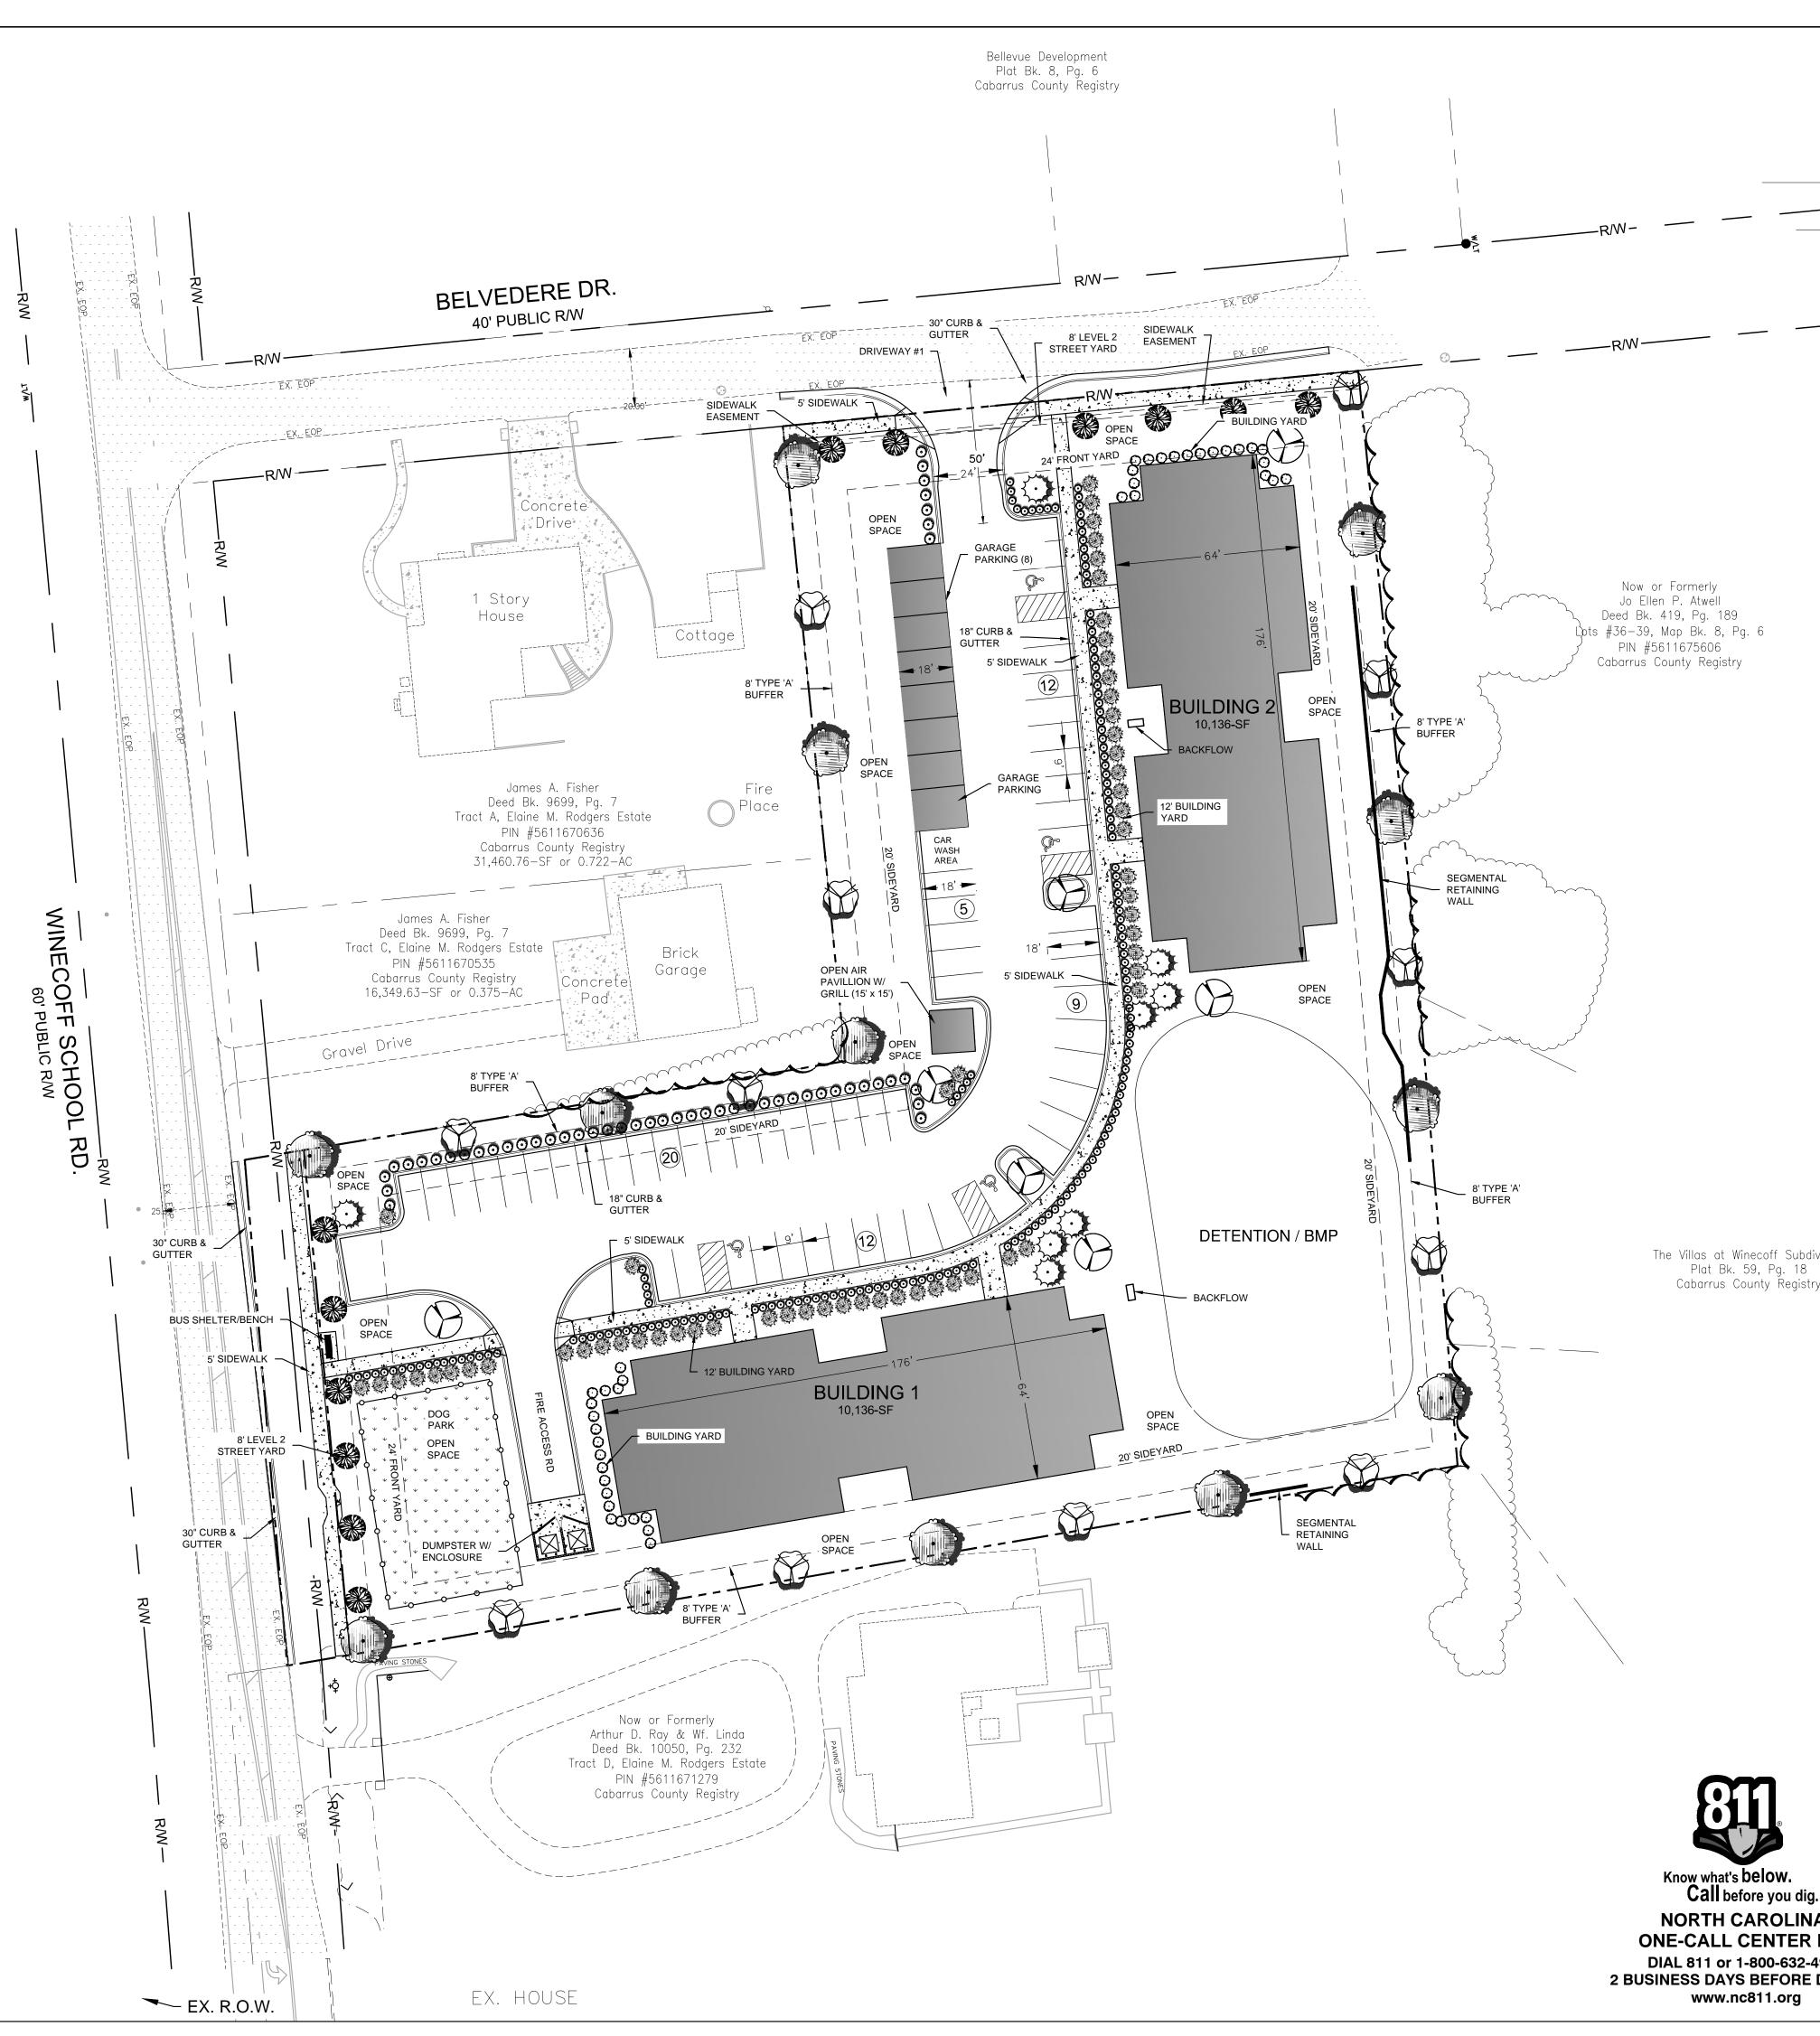

#### **Recommendations**

It is recommended to provide a northbound right turn lane of 100 feet of storage and southbound left turn lane of 100 feet of storage with appropriate tapers at the intersection of Winecoff School Road and Belvedere Drive. It is also recommended that the site access be designed and constructed to City of Concord and NCDOT design requirements.

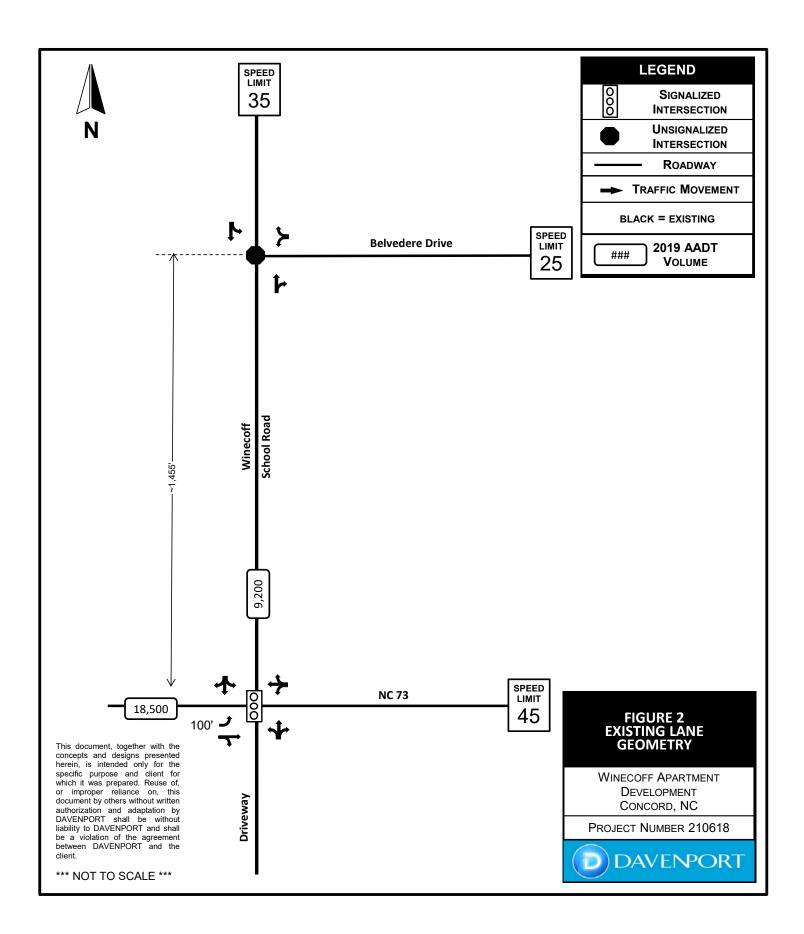

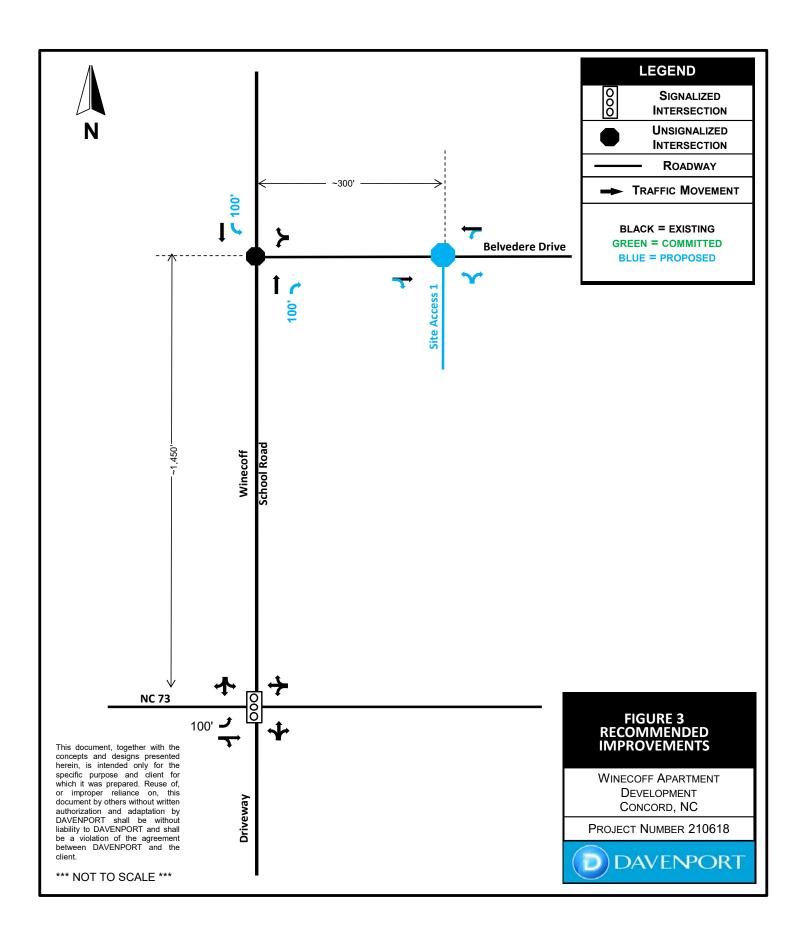

#### **Conclusion**

In conclusion, the analysis indicates this development is not expected to have a detrimental impact on traffic operations in the vicinity. Please note that the proposed access should be designed in accordance with City of Concord and NCDOT standards.

(e) The Director may determine that a disposal system shall not be deemed to be permitted in accordance with this Rule or other Permitted By Regulation rules in this Subchapter and require the disposal system to obtain an individual permit or a certificate of coverage under a general permit. This determination shall be made based on existing or projected environmental impacts, compliance with the provisions of this Rule or other Permitted By Regulation rules in this Subchapter, and the compliance history of the facility owner.

History Note: Authority G.S. 130A-300; 143-215.1(a)(1); 143-215.1(b)(4)(e); 143-215.3(a); Eff. September 1, 2006; Amended Eff. March 19, 2015; June 18, 2011; Readopted Eff. September 1, 2018.

#### 15A NCAC 02T .0114 WASTEWATER DESIGN FLOW RATES

(a) This Rule shall be used to determine wastewater flow rates for all systems governed by this Subchapter unless alternate criteria are provided by a program-specific rule or for flow used for the purposes of 15A NCAC 02H .0105. Higher flow rates shall be required where usage and occupancy are atypical, including those in Paragraph (e) of this Rule. Wastewater flow calculations shall take hours of operation and anticipated maximum occupancies and usage into account when calculating peak flows for design.

(b) In determining the volume of sewage from dwelling units, the flow rate shall be 120 gallons per day per bedroom. The minimum volume of sewage from each dwelling unit shall be 240 gallons per day and each additional bedroom above two bedrooms shall increase the volume by 120 gallons per day. Each bedroom or any other room or addition that can function as a bedroom shall be considered a bedroom for design purposes. When the occupancy of a dwelling unit exceeds two persons per bedroom, the volume of sewage shall be determined by the maximum occupancy at a rate of 60 gallons per person per day.

(c) The following table shall be used to determine the minimum allowable design daily flow of wastewater facilities. Design flow rates for establishments not identified below shall be determined using available flow data, water-using fixtures, occupancy or operation patterns, and other measured data.

(d) Design daily flow rates for proposed non-residential developments where the types of use and occupancy are not known shall be designed for a minimum of 880 gallons per acre, or the applicant shall specify an anticipated flow based upon anticipated or potential uses.

(e) Design daily flow rates for residential property on barrier islands and similar communities located south or east of the Atlantic Intracoastal Waterway and used as vacation rental as defined in G.S. 42A-4 shall be 120 gallons per day per habitable room. Habitable room shall mean a room or enclosed floor space used or intended to be used for living or sleeping, excluding kitchens and dining areas, bathrooms, shower rooms, water closet compartments, laundries, pantries, foyers, connecting corridors, closets, and storage spaces.

(f) An adjusted daily sewage flow design rate shall be granted for permitted but not yet tributary connections and future connections tributary to the system upon showing that the capacity of a sewage system is adequate to meet actual daily wastewater flows from a facility included in Paragraph (b) or (c) of this Rule without causing flow violations at the receiving wastewater treatment plant or capacity-related sanitary sewer overflows within the collection system as follows:

- (1) Documented, representative data from that facility or a comparable facility shall be submitted by an authorized signing official in accordance with Rule .0106 of this Section to the Division for all flow reduction requests, as follows:
  - (A) dates of flow meter calibrations during the time frame evaluated and indication if any adjustments were necessary;
  - (B) a breakdown of the type of connections (e.g. two bedroom units, three bedroom units) and number of customers for each month of submitted data as applicable. Identification of any non-residential connections including subdivision clubhouses and pools, restaurants, schools, churches and businesses. For each non-residential connection, information identified in Paragraph (c) of this Rule (e.g. 200 seat church, 40 seat restaurant, 35 person pool bathhouse);
  - (C) a letter of agreement from the owner or an official, meeting the criteria of Rule .0106 of this Section, of the receiving collection system or treatment works accepting the wastewater and agreeing with the adjusted design rate;
  - (D) age of the collection system;
  - (E) analysis of inflow and infiltration within the collection system or receiving treatment plant, as applicable;
  - (F) if a dedicated wastewater treatment plant serves the specific area and is representative of the residential wastewater usage, at least the 12 most recent consecutive monthly average wastewater flow readings and the daily total wastewater flow readings for the highest average wastewater flow month per customers, as reported to the Division;
  - (G) if daily data from a wastewater treatment plant cannot be used or is not representative of the project area: 12 months worth of monthly average wastewater flows from the receiving treatment plant shall be evaluated to determine the peak sewage month. City Council City of Concord 35 Cabarrus Ave W Concord, NC 28025

### Reference: Fairfield Inn/Towneplace Suites 7890 Commons Park Circle NW Concord, NC 28027

Dear City Council Members:

Concord Lodging, LLC is pleased to present the following request for wastewater capacity needed for the above reference project. This proposed dual brand hotel project is located on Parcel Identification Number 4599-04-6350-0000 and address 7890 Commons Park Circle NW in the City of Concord, Cabarrus County, North Carolina. This is a 2.817 acre parcel, zoned C-2, and is part of the previous Weddington Road Commons project developed in 2009. This proposed commercial hotel use is a by-right development in the C-2 zoning district and is consistent with the surrounding commercial businesses.

This proposed dual brand hotel project consists of a 5-story 166 room structure, pool, outdoor amenities patio, 166 parking spaces, and associated improvements. Access will be from the existing private drive named Commons Park Circle NW with no access to Weddington Road.

Water & Sewer services for this dual brand hotel will connect to existing service stub-outs previously installed in the private drive located on the north side of the site. These existing service stub-outs were installed in 2009 to serve this parcel and are part of the City of Concord public water and sewer system. Additionally, enclosed is a spreadsheet prepared by Concord Lodging, LLC showing the potential positive economic impacts this project will provide to the local community.

Concord Lodging, LLC respectfully requests that the Concord City Council approve this Preliminary Wastewater Flow Application based upon the information provided.

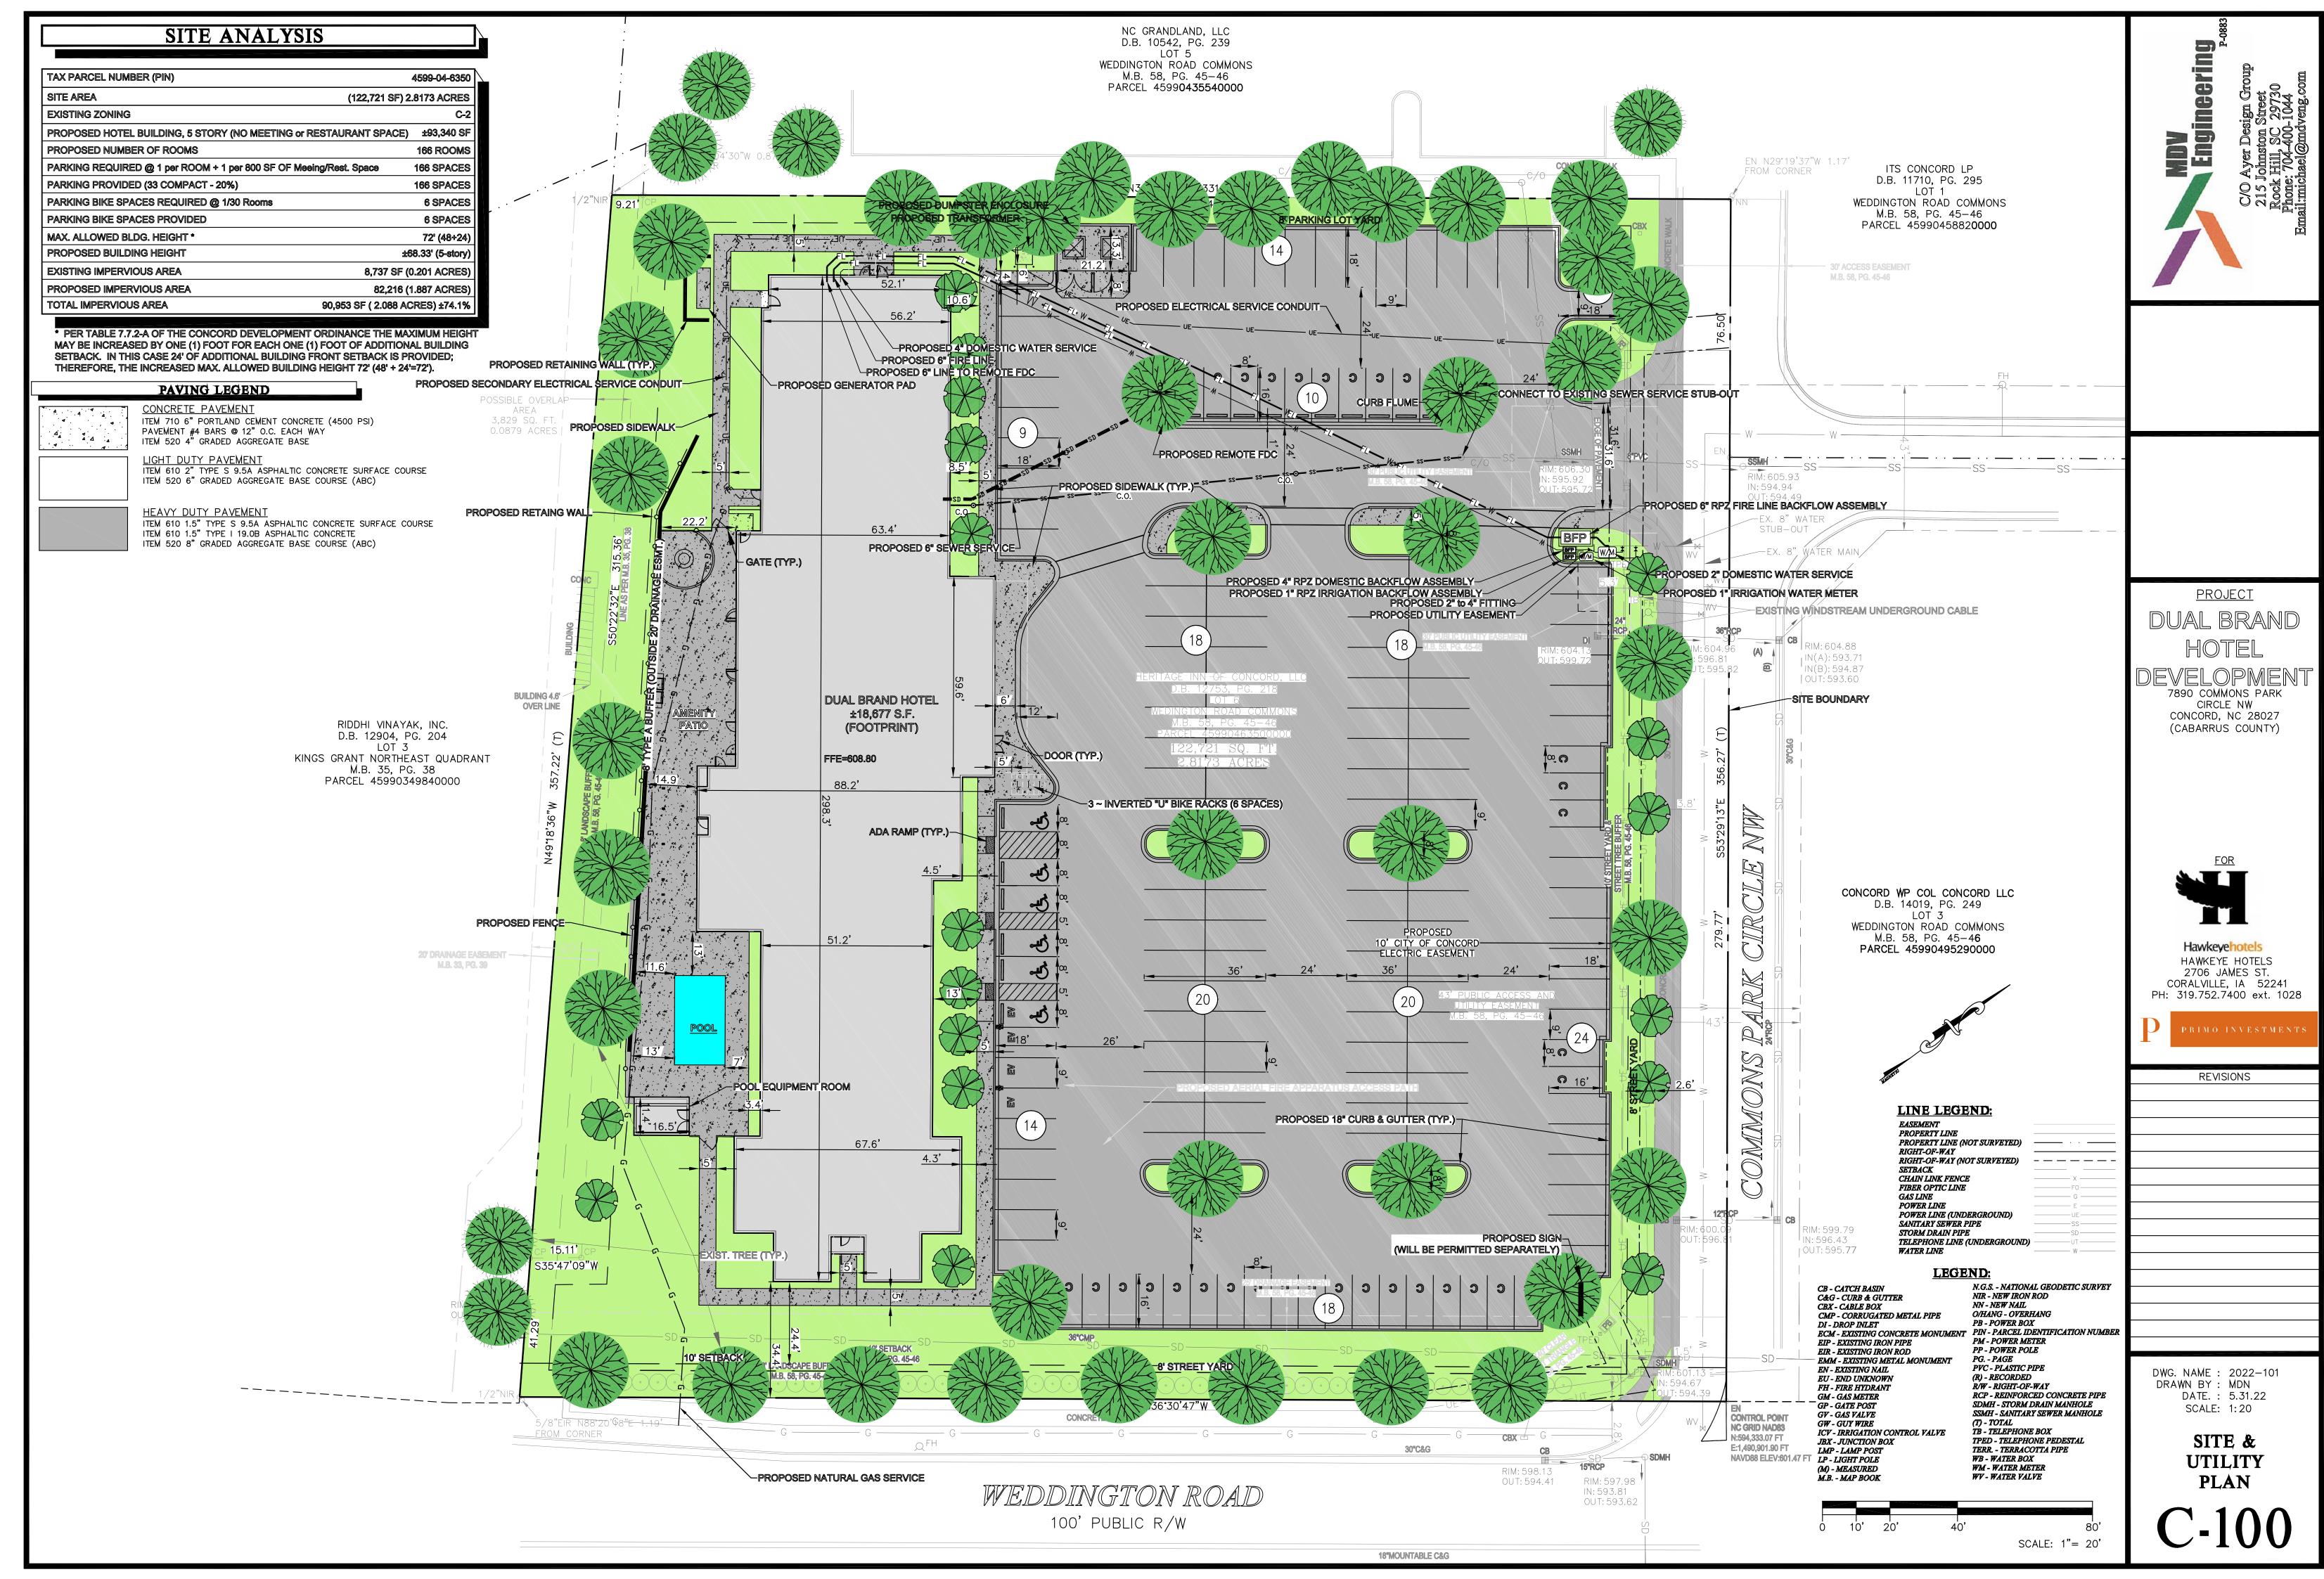

Respectfully Submitted,

Mich ~

Michael Newman, P.E.

The Garage For Life development project in Concord, NC is addressing the need and high demand for "toy" storage. Specifically, car storage, boat storage and RV storage. This demand is largely due to strict HOA policies. HOA's restrict owners from what can be seen on the exterior of their property. Additionally, garages tend to be smaller than those of the past. We seek to provide a storage space to meet these needs.

The business model is simple. Users drive up to their unit, drop off their prized possessions, lock them up safely and go. The amount of time a user spends in their storage space will vary depending on the user. Those with RV's and boats will take time to load their vehicles with supplies needed for their outing or trip before they go. When they return, they will take time to unload.

Car enthusiasts have a small collection of 2-4 cars and this is simply too many for the typical home garage. On weekends, these enthusiasts will likely drop off their daily driver and exchange it for a classic car and be off to the car show. The site design is about maximizing square footage to build the most storage square footage. No significant additional square footage will be used for "guest parking". This is not an event space to host parties and gatherings. Nor is it being designed as a flex space where users can run a business from. Garage for Life is storage for luxury toys.

We anticipate a maximum water usage to be calculated at one person @ 25 gallons daily. Given the previously outline use case, this would be on the high side. Many units will have zero usage for weeks and months at a time.

Re: 7-Eleven (Site #1056460) 8080 Poplar Tent Road Sewer Flow Allocation Request

Dear Members of the Concord City Council,

I am writing today to formally request sewer capacity allocation for a proposed 7-Eleven gas station. The parcel is located at 8080 Poplar Tent Road which is the NE quadrant of the corner of Poplar Tent Road and Odell School Road. This project entails the construction of a 4,775 SF convenience store with 6 multi-position gasoline dispensers. This proposed 7-Eleven will be similar in nature to a store built by the same developer in 2021 that is located at 310 Coddle Market Drive NW.

On May 15, 2007 this parcel was annexed into the City and designated a zoning classification of Conditional Use Light Industrial. This conditional use designation specifically allowed a Convenience Store as a permitted use. Since that time the parcel has sat undeveloped while the surrounding area has experienced significant growth. If granted sanitary sewer capacity by City Council we feel that the proposed 7-Eleven will not only provide essential services to residents but will also contribute positively to the local economy by creating job opportunities and generating tax revenue.

Unfortunately, we were not allocated sewer capacity at the meeting in June but since then we have worked with the State and City to closer evaluate our sewer need and we were able to reduce our allocation need by almost 1,200 gallons per day. Per North Carolina State Code 15A NCAC 2T.0114, this project will contribute 2,865 gallons per day of sewer flow. However, based on actual water usage data for similar stores in the region the average daily sewer flow is expected to be approximately 840 gallons per day.

We respectfully request that the City Council approve our request for 2,865 gallons per day of sewer flow for this proposed 7-Eleven project. Thank you for your attention to this request. We look forward to a favorable response and the opportunity to contribute to the continued progress and prosperity of the community.

Should you have any questions, or if I can provide any further information, please feel free to reach me either by phone or email. We appreciate your time in reviewing this material.

Sincerely,

Corey S Baker Sr. Vice President

Giving back and leading through service has always been a part of our company's DNA. Through volunteer initiatives, charitable donations and in-store fundraising campaigns to support important causes, we're helping build thriving communities for years to come.

## **TCARES**

During National Volunteer Month in April, we hosted our annual **7Cares Day volunteer event** through both the Enon and Irving Store Support Centers. This collective day of service allowed employees to choose a special volunteer opportunity at one of 19 local non-profit organizations and see firsthand the important work these charities do in our communities.

# Thanks + Giving

In November, Store Support Center employees supported hunger relief efforts through Second Harvest Food Bank and Dayton Foodbank in Central Ohio and Minnie's Food Pantry and North Texas Food Bank in North Texas. In total, 300 volunteers assembled more than 3,900 boxes of food. When combined with a 7-Eleven Cares Foundation donation of \$140,000 and the generosity of Store Support Center employees – who donated an additional 2,000 lbs. of food and more than \$2,000 in online gifts – we provided close to 590,000 meals for our neighbors in need at Thanksgiving.

The support I received from Second Harvest Food Bank during a challenging time in my life not only enabled me to surmount my difficulties but also paved the way for my current success as a thriving small business leader, coach and mentor. Texas

## Teaming Up with the American Red Cross to Support Disaster Relief Efforts

In association with the American Red Cross, the 7-Eleven global family of brands (comprising more than 84,000 stores across 20 countries and regions), corporate and customer donations totaled nearly **\$400,000 to help the people of Maui**. These donations provided critical support after deadly wildfires (the worst in U.S. history) raged across the historic landscape in August 2023.

7-Eleven, Inc. also demonstrated its commitment to the cause with a 7-Eleven Cares Foundation donation of \$25,000 and employee donations of \$7,250, all specifically allocated toward the American Red Cross Hawaii Wildlife Relief Fund. And 7-Eleven International LLC also made a corporate donation of \$25,000 to the Hawai'i Community Foundation Maui Strong Fund.

In addition, 7-Eleven Cares Foundation is a proud supporter of the American Red Cross Disaster Responder Program and donated **\$25,000 to the American Red Cross Hurricane Idalia Disaster Relief Fund** and **nearly \$5,300 in product donations**, to help provide food, shelter and comfort for people facing the heartbreaking devastation left behind by the historic storm.

## Building Thriving Communities One Slurpee<sup>®</sup> Drink at a Time

Founded in Philadelphia 28 years ago, 7-Eleven's Operation Chill program helps foster positive relationships between law enforcement agencies and the communities they serve. It's simple — when officers see young people doing good, like bike riding with a helmet or helping a neighbor, they reward kids with a free small Slurpee drink coupon. These small gestures go a long way toward creating meaningful connections.

The Operation Chill program also provides opportunities for 7-Eleven<sup>®</sup> stores and their Asset Protection teams to support local law enforcement and the public. Over the summer, Southern California store operators participated in National Night Out, an annual campaign that helps build police-community partnerships and neighborhood camaraderie. Stores donated food, water and Operation Chill coupons and attended events in cities across Southern California.

Collaborations like these demonstrate the potential for beneficial outcomes when businesses and law enforcement agencies come together to create safe, thriving communities.

## **Children's Miracle Network Hospitals**®

Through a combination of customer donations and the Annual Miracle Tournament and Celebration Dinner, 7-Eleven, Inc. has **raised nearly \$190 million for Children's Miracle Network Hospitals** since 1991. In 2023, the 7-Eleven family of brands raised more than \$18 million through customer donations to support 106 member children's hospitals across America.

Approximately 1,000 supporters, including 7-Eleven Franchise Owners, suppliers, vendors and employees, rallied together at the Annual Miracle Tournament and Celebration Dinner to raise funds and celebrate the children who directly benefit from Children's Miracle Network Hospitals. This year, 52 children and their families — each representing their local member hospital — were on hand to meet and interact with the participants, share their personal stories and, most importantly, have fun! ## HOPE'S HERO WEARS A BOW TIE Spotlight on Children's Miracle Network Hostpitals® Champion, Kahmari

"LEGOS!" laughs 14-year-old Kahmari, when asked what he'd rather be doing than being interviewed. (As a 2023 Children's Miracle Network Hospitals

National Champion, he gets interviewed a lot.) "I like the kits," he says, then adds perkily, "I'm also a pretty good free-former. Just give me a pile, and I'll come up with something!"

Every year, Children's Miracle Network Hospitals identifies 10 "Champions" from across the U.S. to represent 170 member hospitals and their patients. These ambassadors spend their year advocating for the charitable needs of member hospitals.

Quite often, that means sharing their personal stories and testifying to the vital need for continued funding.

Born with gastroschisis, a hole in the abdominal wall that doesn't properly secure a baby's intestines in the body, Kahmari's condition led to short bowel syndrome, which causes malnutrition and weight loss. He also has chronic ulcers and slow gastrointestinal bleeds that require monthly infusions of intravenous medications, along with iron or blood transfusions. When he was just 3 years old, his parents Alyssa and Jamie were told to expect the worst.

Rejecting that advice, they sought help instead from UVA Health Children's Hospital in Charlottesville, Virginia. And thanks to the support and care of their pediatric gastroenterology team — "my second family," Kahmari calls them he's now a high school freshman, busily cranking out LEGO<sup>®</sup> creations, singing in his school choir and entertaining his siblings with his energetic dance moves.

The dapper Kahmari, who often sports a colorful bow tie, is remarkably cool about being a celeb. He laughs whenever he goes into his local 7-Eleven<sup>®</sup> store for his favorite snacks and sees his face on the in-store fundraising posters. "It's so weird to see myself on those posters," he says, rolling his eyes in the typical time-honored teenage tradition.

And for a kid who's endured 60 surgeries related to his lifelong condition, he's surprisingly enthusiastic about food, especially his mom's "world-famous" chicken tacos, and calls "lunch" his favorite class in school. And don't even get

him started on burgers. His favorite: the Gus Burger at Charlottesville's "The White Spot," which features a thick, juicy patty topped with a fried egg. Judging it "absolutely delicious," he good-naturedly pronounces himself in need of one. Stat.

There's certainly no shortage of brothers (three), as well as sisters (three) in Kahmari's home. Slotting smack-dab in the middle of the crew, Kahmari admits he prefers being a big brother to the younger ones. He's also often seen as a big brother to fellow patients. "They can get scared," he states matter-of-factly. "I can relate to what they're going through. I tell them that there's always hope. Just remember that it's going to be okay, and your parents and doctors are going to help you get through it."

#### "It's really a miracle seeing the support that Children's Miracle Network Hospitals provides,"

affirms his mom, Alyssa.

"Our family talks with other families about what that support means. Funds raised through Children's Miracle Network Hospitals make it possible for member hospitals to provide families with a hot meal, clothing, a place to stay, programs that keep their minds occupied, as well as state-ofthe-art medical equipment and on and on ... it's just a miracle. As is Kahmari," she adds, beaming at her cheerful child. "He's our family's blessing!" ALL GUTS

## Helping Hometown Kids Be Kids

In his role as Market Leader for 7-Eleven, Bill Marra covers a lot of ground. The Sacramento native watches over two markets and more than 270 stores from Northern California to Nevada. And there's strength in those numbers.

For the company-wide in-store fundraising campaign supporting Children's Miracle Network Hospitals<sup>®</sup>, Marra and his team paired that strength with in-store posters featuring Children's Miracle Network Hospitals National Champions for their first-ever "Go For It" days. Throughout the campaign, Marra's team identified select days for store associates to make an extra push for customer donations. The plan was quickly adopted and implemented across the 7-Eleven family of brands, resulting in "Go For It" day totals averaging \$66,000.

"From corporate support on down the line, everyone was fully on board with our plan, " he says. "We chose certain days to tie selected products with donation opportunities. We even brought in local Children's Miracle Network Hospital staff members to personalize our in-store promotions! That really added to the camaraderie and the sense that this was a local campaign directly benefiting children from each store's own community."

For Marra and his team, community focus is personal. Earlier in 2023, he and other Market Leaders toured their local member hospitals so they could see the importance of the donations first-hand. Calling the tours "critical turning points," he discovered two big takeaways.

"Children's Miracle Network Hospitals help these kids be kids. They make sure that kids have activities, like art and music programs, to help them relax, despite their medical situation. We even visited an in-house recording studio where teenagers were creating their own music! That was amazing and so positive."

His other takeaway was seeing how customer donations provided tangible support. "We happened to be there when Life Flight nurses received new helicopter helmets that came directly from Children's Miracle Network Hospitals donations. These people do incredible work and their appreciation for this new gear gave me a real 'aha' moment."

Marra also credits each and every store associates for their incredible work in making the round-up campaign successful.

"What a great job the store associates do every day," he shared. "They can personalize the ask, say to the customer that their donation is going to, for example, UC Davis down the street. And customers know that hospital, or maybe even know someone who was treated there. That personal connection made the campaign successful, no doubt about it.

"We're all a part of the communities we serve, and that's a responsibility every one of us takes to heart. We feel great to be able to help our communities and all these wonderful kids."

#### 2023 DE+I HIGHLIGHTS

### **Building Bridges**

The 2023 National Association of Convenience Stores (NACS) show in Atlanta brought together Larry Hughes (7-Eleven, Inc. Vice President, Corporate Human Resources and DE&I) and Kent Montgomery (Senior Vice President, Industry Relations & Multicultural Development at PepsiCo) to discuss "Building a Culture of Diversity and Inclusion Among Customers and the Workforce."

Montgomery and Hughes engaged in a lively and enlightening exchange about the latest DE+I trends and data and what they mean for the convenience retail industry. The session also shed light on how PepsiCo and 7-Eleven continue to evolve their DE+I agendas and what the convenience industry can do to take its DE+I efforts to the next level.

## NACSSHOW2023

OF THE BRICK-AND-MORTAR RETAIL UNIVERSE IN THE UNITED STATES

## Protecting the Environment

7-Eleven's parent company, Seven and i Holdings Co., Ltd. (7&i), operates a diverse portfolio of companies across the globe to meet the daily needs of customers through a vast network of stores. In 2019, 7&i launched Green Challenge 2050 — a four-pronged strategy to reduce its environmental footprint across the entire store network and supply chain.

At 7-Eleven, Inc., we take our role in contributing to the <u>Green Challenge 2050</u> seriously – pursuing its strategic pillars toward specific goals for 2030 and 2050, which are aligned with and help drive progress toward the United Nation's Sustainable Development Goals. In support of this, we seek to achieve a sustainable future through our targeted "Planet" priorities, including increased access to alternative fuels, an overall reduction in  $CO_2e$  emissions, continued investment in renewable energy and the pursuit of sustainable packaging.

PLANET

## Innovating for a Sustainable Future

7-Eleven, Inc. continues to make progress toward reducing our environmental impact and to move ahead by strategically investing in alternative energy (wind and solar) and environmental initiatives that increase efficiency while reducing waste and resource consumption.

## **Increasing Access to Alternative Fuels**

7-Eleven, Inc. has always focused on innovations to improve the customer experience, and that includes offering alternative fuel options — specifically, electric vehicle charging stations. Through 7Charge<sup>™</sup>, the company's electric vehicle fast charging network and app, 7-Eleven is focused on providing electric vehicle drivers access to a seamless charging and payment experience across the 7Charge network. By providing a reliable and fast charging option for electric vehicles at stores along select highway corridors and in metropolitan areas, 7Charge is once again redefining convenience.

In 2023, customers purchased **1.2** million kWh through our network of electric vehicle fast charging stations. That equates to

**3.6 million e-miles charged** 

The 7Charge<sup>™</sup> app is currently available for download across Apple and Android devices.

## **Reducing CO<sub>2</sub>e Emissions**

Our parent company, Seven & i Holdings Co., Ltd., is committed to reducing energy consumption worldwide and improving efficiency. As part of its Green Challenge 2050, Seven & i Holdings Co., Ltd. set a goal to reduce carbon dioxide equivalent  $(CO_2e)$  emissions from stores by 50 percent by 2030, compared with FY2013 levels.

## For it's part, 7-Eleven, Inc. has so far reduced CO<sub>2</sub>e emissions from its U.S. and Canadian stores by 38 percent from FY2013 levels. This

is equivalent to greenhouse gas emissions from

approximately 117,000 passenger vehicles for one year. Along with concerted efforts to continuously improve operational energy efficiency practices in stores, we made important progress in three major categories:

#### **EQUIPMENT INSTALLATIONS\***

LED Lighting • New High-Efficiency HVAC • Energy Management Systems

#### **ENERGY EFFICIENT STORE DESIGN ELEMENTS\***

Low E Windows • Occupancy Sensors • Photocells/Daylight Harvesting • Structural Insulated Panels (SIP)

#### **RENEWABLE ENERGY MEASURES\***

Wind • Solar • Renewable Energy Contracts + Certificates

\* implemented in some 7-Eleven® store locations

### **Investing in Renewable Energy**

Energy conservation projects are just one part of the bigger picture we're also expanding our renewable energy initiative. Case in point: About 26 percent of all the electricity consumed by 7-Eleven, Inc. stores in both the U.S. and Canada during FY2022 came from renewable sources, including wind and solar.

#### **RECENT HIGHLIGHTS:\***

- With more than 13,000 wind turbines in the state, Texas ranks first in the U.S. for both installed and under-construction wind capacity and is home to four of the largest wind farms in the nation. In 2017, 7-Eleven signed an agreement with TXU Energy to purchase wind energy for all 7-Eleven, Inc. Texas stores in competitive energy markets. In FY2022, 7-Eleven purchased over 334,000 MWh renewable energy from TXU Energy, providing power to more than 900 stores. This program accounted for an estimated 40 percent of all FY2022 renewable energy consumed by 7-Eleven<sup>®</sup> stores.
- Since FY2020, 7-Eleven has subscribed to a program to procure renewable energy for its Florida stores by using large-scale solar power generation facilities. This program accounted for of approximately 84,600 MWh, or 10 percent, of all FY2022 renewable energy consumed by 7-Eleven, Inc.
- In FY2021, the company began operating under agreements for over 60,000 MWh of off-site wind energy for its Illinois stores, and community solar projects in Oregon that are expected to provide an additional 2,500 MWh of renewable energy once fully operational. In FY2022, the Illinois and Oregon agreements contributed approximately 63,000 MWh and 500 MWh of renewable energy, respectively.

- ► In FY2022, 7-Eleven, Inc. announced a 20-year clean energy commitment in Michigan through Detroit-based DTE Energy's innovative MIGreenPower program. Once the projects are complete, the shared goal is to achieve 100 percent clean energy for all 160 southeast Michigan locations, in an effort to avoid more than 15,000 tons of CO<sub>2</sub>e emissions annually. That's equivalent to removing approximately 3,000 gas-powered cars from the road each year. This agreement is a great example of how 7-Eleven, Inc. is working with both the private and public sectors to reduce its carbon footprint.
- In FY2022, the company subscribed to a program for over 37,000 MWh annually for off-site wind and solar energy in Nevada. This program delivered an estimated 19,500 MWh of renewable energy in FY2022.

### **Sustainable Packaging**

Sustainable food packaging refers to packaging materials and practices that minimize environmental impact through their lifecycle, from production and use to disposal. 7-Eleven and our family of brands is continually looking for ways to improve product packaging by using sustainable materials (e.g., those composed wholly or in-part from postconsumer recycled content (PCR)), reducing resource consumption, waste generation and pollution associated with food packaging, while keeping our offerings at the peak of freshness.

#### EXAMPLES OF OUR RECENT INITIATIVES IN THIS SPACE INCLUDE:

► There's a lot of appeal to a freshly made deli sandwich, especially when it's wrapped with care to retain its goodness. To ensure our customers can feel good about their lunch, 7-Eleven, Inc. uses PCR for its sandwich wedge packaging. During 2023, through our "Recycled Content Inclusion" program, we redesigned the sandwich wedge to include 20 percent PCR, helping to avoid an estimated 71,500 pounds of virgin plastic use on an annual basis — proof that convenience, fresh food and a cleaner environment are compatible goals.

► Nachos are arguably one of the most crave-worthy culinary inventions ever. Keeping the ingredients fresh, delicious and ready-to-go, however, is a challenge. Polystyrene is traditionally used in packaging for its thermal insulation properties. But most single-use polystyrene food containers end up as landfill trash or litter as they are difficult to recycle.

Among commercial plastics on the market today, polypropylene is considered one of the safest, and it is generally more recyclable compared to polystyrene. It's FDA approved for food contact, and its high heat tolerance makes it ideal for foods that can be heated in a microwave, like nachos. Our redesigned polypropylene-packaged Nacho Kit has removed more than 225,000 pounds of polystyrene annually. So whether it's at home or on the go, you can feel good about chipping and dipping to your heart's content.

## **Promoting Responsible Consumption**

Our priority is to provide customers with the highest quality products while also delivering great value. That includes the types of products we offer, how they're made and how they make it onto store shelves. As the industry leader in convenience, we have a responsibility to source responsibly — whether from our vendors or when developing our own awesome proprietary products.

## Showcasing sustainability, innovation and opportunity

Brands W/

eou

Designed to give emerging brands the chance to see their products on national store shelves, 7-Eleven's "Brands with Heart™" program is winning hearts — and tastebuds — while making a meaningful impact on communities across America.

"We believe our role as a leading retailer goes beyond providing innovative products to our customers — it's about making a lasting difference in the

communities we serve," said Marissa Jarratt, 7-Eleven, Inc. Executive Vice President, Chief Marketing & Sustainability Officer. "This year, for the first time ever, every one of our 'Brands with Heart' participants demonstrates a purpose-driven element, bringing us one step closer to achieving this goal.

Take 2023 "Brands with Heart" participant, Equitea Co., for example. Founded in 2020 by Quentin Vennie and his wife, Erin, Equitea's mission is to expand pathways to wellness by making better-for-you products more accessible and equitable for consumers.

"At 7-Eleven, we're proud to be a platform for new and innovative brands to introduce their products to the world," adds Nikki Boyers, Vice President of Private Brands and Emerging Brands at 7-Eleven, Inc. "Not only do these products taste great, they also have positive impacts and benefits with environmental & social principles. We can't wait for our customers to see them on shelves across the country."

## **Higher quality, lower prices, greater sustainability** – Say hello to 7-Eleven Private Brands

## Talking Sustainability with Nikki Boyers

As Vice President of Private Brands and Emerging Brands, Nikki Boyers brings a lifetime of commitment and experience to delivering awesome products that exceed customer expectations and value.

"We've recently enhanced how we're pursuing sustainability by establishing even more ambitious and product-specific criteria," Boyers said. "We're looking at ingredients, packaging and production facility certifications. We're exploring how to improve supply chains and logistics, as well as how to better reduce waste and improve recycling. And we're factoring in the welfare of our employees and the farmers and growers from whom we buy."

➤ Skýra<sup>™</sup> Icelandic Spring Water — This 7-Eleven, Inc. exclusive, superpremium water comes from an Icelandic spring in a protected nature preserve. "The water comes from a self-replenishing source," says Boyers. "The supplier's plant is LEED-certified. Plus, through our supplier relationship, 100,000 trees have been planted so far to help replenish the surrounding protective forest, with a goal of a million trees by 2030."

► Seven Select Cold-Pressed Juices — The company's exclusive, certified fair-trade juices come from top-quality USDA-certified, non-GMO Project verified organic fruits and vegetables.

**"Most juice companies can claim their products are either organic or cold-pressed, but not both. We can, because they are!"** says Boyers. "But we don't stop there. The juice processing plant is powered up to 80 percent with solar energy, which means we're able to deliver the highest quality product while simultaneously furthering our sustainability goals."

Seven Select Replenish<sup>™</sup> Sports Drink — Known as "isotonic" drinks, Seven Select Replenish<sup>™</sup> hydration beverages may help replace certain electrolytes and minerals lost during exercise or strenuous activity.

"By redesigning the bottle, we can pack and stack more effectively and lower the number of trucks needed to transport this product by more than 800 trucks this year," says Boyers. "Plus, we're transitioning from a black bottle cap to a clear one to improve recycling efficiency. **Considering that we sell more than 30 million bottles of Replenish a year, these small changes add up to make a big difference."**

## Award-Winning App: Too Good To Go (to Waste)

**Food waste:** It's an environmental concern of epic proportions. When perfectly good food is tossed away, so is all the energy and water it takes to grow, harvest, transport and package it. In Canada, for example, a whopping 35.5 million metric tons of food produced is lost or wasted every year and food waste accounts for 10 percent of greenhouse gas emissions in the world.<sup>\*</sup>

Wasting food is also a humanitarian concern. An estimated 6.9 million Canadians, including 1.8 million children, live in households struggling to afford food.\*\*

7-Eleven Canada's Director of Operations Jeff Monachello felt strongly that his team could make a difference, "Day-old bread, pastries, milk or sandwiches that are near their best-before dates are nutritious and perfectly safe to consume," he said. "Why waste it when someone can benefit from it, and we can help the environment, too?"

Monachello assembled a team that cooked up a novel solution to the issue by partnering with social impact company Too Good To Go. Their mission is to "Rescue unsold food at your favourite spots from an untimely fate."

In early 2023, Monachello's team leveraged Too Good To Go's mobile app in pilot stores in Vancouver and Toronto, to offer customers daily discount-priced "Surprise Bags" that included products nearing their best-by dates. Response was immediate, enthusiastic and a clear signal that customers wanted more. The program now in 445 stores across Canada.

"The Too Good To Go dashboard tells us that as of December 2023, the program has already helped save more than 130,000 meals," Monachello said.

The program is also bringing in first-time customers. "We've discovered that 31 percent of those picking up Surprise Bags have never been to a 7-Eleven! But when they come in, 29 percent of them make additional purchases. **So we're helping feed deserving families, protecting the environment and welcoming new customers. If that's not a win-win-win, I don't know what is.**"

\*Research by Second Harvest and Value Chain Management International \*\*Li T, Fafard St-Germain AA, Tarasuk V. (2023) Household food insecurity in Canada, 2022.

The Too Good To Go team is thrilled to support 7-Eleven's ambition of reducing food waste. Our engagement has already yielded positive results across Canada. Through relationships like the one with 7-Eleven, our ambition is to create a more sustainable future and inspire customers and businesses to reduce food waste every day.

#### RE: RaceTrac – Northeast Corner of Poplar Tent Road and I-85 6980 Poplar Tent Road

Dear City Council Members:

McAdams on behalf of RaceTrac is pleased to present the following request for sewer allocation for a proposed RaceTrac convenience store and fueling station. The site is located at 6980 Poplar Tent Road which is the northeast corner of Poplar Tent Road and I-85. The existing site has been utilized for intermittent outdoor storage and will be redeveloped with an 8,100 square foot convenience store and gasoline and diesel dispensers. The front of the convenience store will contain vehicle gasoline and diesel dispensers, while the rear of the convenience store will contain truck diesel and gasoline dispensers and a truck scale. The proposed facility is a Travel Center and not a Truck Stop as there will be no showers, truck repair services, and long term parking.

The proposed development requests a wastewater allocation of 4,860 gallons per day (GPD). This calculation is based on the North Carolina 2T flow rates for a "Convenience Store with Food Prep," applied to the convenience store size of 8,100 square feet.

We respectfully request that City Council approve our request of 4,860 gallons per day of sewer allocation for this proposed RaceTrac project. Approval of this sewer allocation request will facilitate the development of a new convenience store, generating new employment opportunities and supporting economic growth in the City of Concord. The facility will provide travel convenience and fueling for vehicles and trucks located adjacent to I-85. The project aligns with the City's economic development goals, enhancing the local economy through increased business activity and job creation.

Sincerely,

Eddie Moore, AICP McAdams

## 2021 IN NUMBERS

All of our RaceTrac locations offer guests an affordable one-stop shop featuring a wide selection of food, beverage, and competitively-priced fuel. In 2021, we sold:

• 26.9M roller grill items (lined up, these egg rolls, hot dogs and taquitos would be over 3.1K miles long – nearly the distance between Miami, FL and Seattle, WA)

- **26.2M cups** of Crazy Good Coffee (approximately enough coffee to give one cup to each resident of Georgia, North Carolina and Tennessee)
- 17.6M slices of pizza sold (enough pizza to cover nearly 41 football fields)

- **13.6M** fresh food items (enough sandwiches, salads and parfaits to share with each resident of Alabama, Kentucky and Louisiana)
- **2.4M** pieces of fresh fruit (i.e., we sell over 46K pieces of fresh fruit a week)
- **1.1M gallons** of milk
   (enough milk to fill over 26K average-sized bathtubs)

## **EFFICIENCY & SUSTAINABILITY**

In 2012, RaceTrac created a special team to further efficiency consciousness and sustainability. Since then, we've saved a lot of energy and water:

**LED Lighting** – 6,058 kWh/month **saved** per store (enough to power 3,685 single-family homes for a year)

**Energy Management Systems** – 3.5B kWh **saved** (enough to power 609 single-family homes for a year)

Smart Irrigation – \$2.1M and 406M gallons of water **saved** (enough water to fill 616 Olympic-sized swimming pools)

Water Usage & Leak Detection – \$1.2M and 149M gallons of water **saved** (enough water to fill 23 Ocean Voyager tanks at the Georgia Aquarium)

## **RACETRAC'S OPERATING DIVISIONS & SUBSIDIARIES**

**RaceWay** is RaceTrac's solely franchised brand.

**Metroplex Energy, Inc.** is a wholly owned subsidiary of RaceTrac, which purchases and secures its own supply of bulk fuel to supply RaceTrac and RaceWay stores. Metroplex transports all of its fuel products by rail, pipeline, truck and barge across 14 states (Alabama, Arkansas, Florida, Georgia, Louisiana, Maryland, Mississippi, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, Virginia).

**Energy Dispatch** is a RaceTrac-affiliated fuel transportation company that provides fuel transportation services for RaceTrac and RaceWay stores across 6 states in the southern U.S. (Alabama, Florida, Georgia, Louisiana, Tennessee, Texas).

## FAST FACTS

- Headquartered in Atlanta, Georgia, family-owned RaceTrac has been serving guests since 1934.

- Total RaceWay Stores: 207 (Alabama, Arkansas, Florida, Georgia,

RE: Project Narrative for Dogwood Classical Academy Charter School; Parcel ID: 4599-04-3554-0000

Dear Mayor Dusch & City Council Members,

We are pleased to present this project narrative regarding Dogwood Classical's request for sewer capacity within the City of Concord. They are a non-profit, tuition-free, public Charter School providing an American Classical Education with an emphasis on civic virtue. We plan to renovate the existing two story building last occupied by Strayer University in the Concord Mills area.

We are currently in design for an approximately 550 student school for grades K-8<sup>th,</sup> occupying the building in the summer of 2025 for the upcoming '25-'26 school year. We will be renovating an existing vacant building without altering the building footprint or exterior. We are adding restroom fixtures to meet the required counts for the new K-8 use. We believe bringing this new public-school option to the Concord Mills neighborhood will be of great benefit to the community at large. The mission at Dogwood Classical Academy is to "develop students in mind and character through a rigorous, classical, content-rich curriculum that emphasizes the principles of academic fundamentals, virtuous living, and civic responsibility."

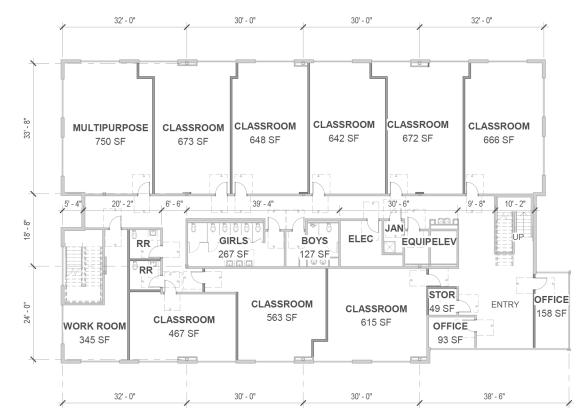

Thank you for your consideration in this matter, and please reference the map, building images and floor plans on the pages that follow.

Sincerely,

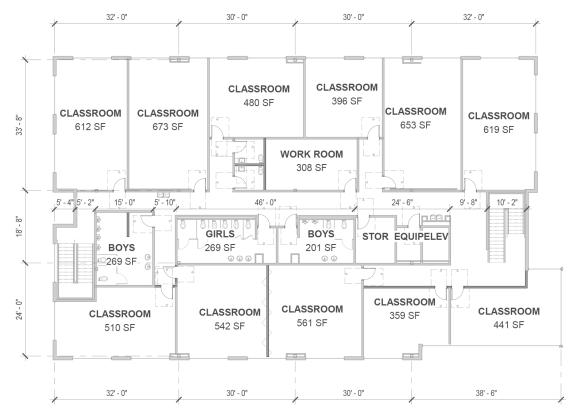

Mollie Greene Director Of Design Mussman Architects, PA

Concord City Council Members City of Concord, NC City Hall 35 Cabarrus Ave. W. Concord, NC 28025

# Reference:Preliminary Wastewater Flow Application & NarrativeProject Name:Mosaic Pediatric Therapy: Concord Clinic #330 Warren C. Coleman Blvd., Concord, NC

On behalf of the applicant, BP MacArthur LLC, and prospective tenant, <u>Mosaic</u> <u>Pediatric Therapy</u>, we are submitting this Preliminary Wastewater Flow Application for your review. Mosaic Pediatric Therapy is a leading provider of applied behavior analysis (ABA) therapy for individuals with autism spectrum disorder. Mosaic serves primarily children ranging between 3-18 years old. The Company's healthcare services are recognized as the most effective treatment available for individuals. ABA programs are individualized and target the development of a wide range of skills which in turn allows its patients to live more meaningful lives. Mosaic is already making a positive impact in Concord with two existing locations, and they are now seeking to open a third location in the heart of the city.

The building in question is located at 30 Warren C. Coleman Blvd. and formerly served as a Family Dollar. Mosaic intends to use approximately 9,000 SF of the 13,720 SF space as an ABA Therapy clinic, with the remaining +/- 4,000 SF slated for storage and potential future staff training space. A typical clinic is comprised of several rooms for one-on-one therapy sessions, a couple of natural environment teaching rooms for working on social skills, a large play area for developing motor skills, an art room, a breakroom, restrooms, and a staff workroom.

Based on Title 15A NCAC 2T, Mosaic falls under Business occupancy and would be calculated at 25 gallons/person, which puts Mosaic at approximately 2,250 GPD. Given that this is an existing building, there should have been some allocation already established for the previous tenant. With the approval of this request, Mosaic can continue their mission to provide children in the community with autism the services they need to thrive while also bringing new jobs into the city.

Thank you for your time and consideration. If there are any questions about this project, or if additional information is needed, please feel free to reach out to us at any time.

Sincerely,

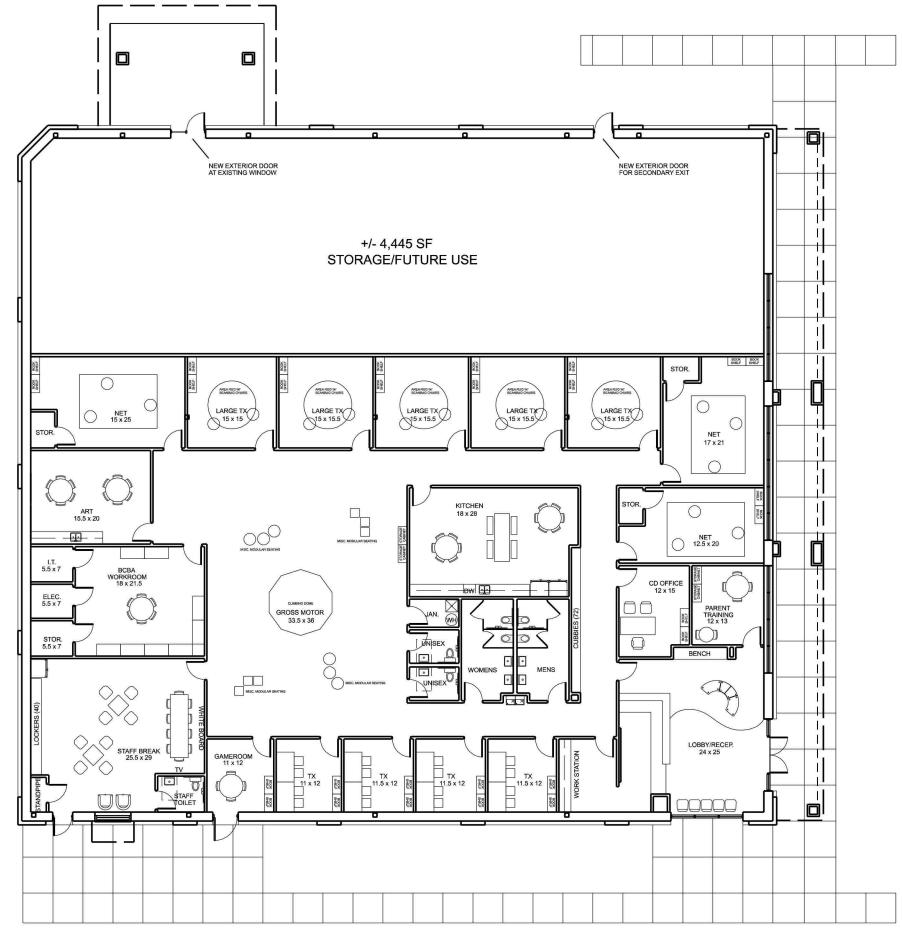

Fehren

# THE ORANGE GROUP LLC

#### Dear Concord City Council,

My name is Aakash Barodia and I am the managing member of The Orange Group LLC. We are requesting the City Council to grant us sewer allocation for a 122-room hotel on the corner of Vinehaven and Dickens PL off of Exit 60 on I-85. We have owned this tract of land since 2017.

The members of our company are permanent residents of Concord. My father-in-law, Ghanshyam Patel, purchased his first motel in Concord in 1986 that we still own today. My wife was born and raised in Concord, starting at the original Cabarrus Academy on Union Street to graduating from Concord High. We moved back in 2016 and have since built a house and have 3 and 5 year old boys born at the same hospital as my wife.

Our family is truly born and raised locally and we have no plans of moving anywhere in the future.

The hospitality business is what we are and what we do. We have multiple properties in Virginia and South Carolina but we want to build close to home. We understand you are in a tough position with limited sewer to allocate, but if there is sewer available we strongly feel it should be allocated to our project.

We will create 20+ full-time and part-time long term jobs to our area, hire local contractors during construction phases, and generate hundreds of thousands of dollars in tax revenue annually to Cabarrus County. We will go above and beyond to ensure our hotel is energy efficient and exceeds all standards. There will be pedestrian walkways on all sides of our building and it will aesthetically conform to existing structures in the area.

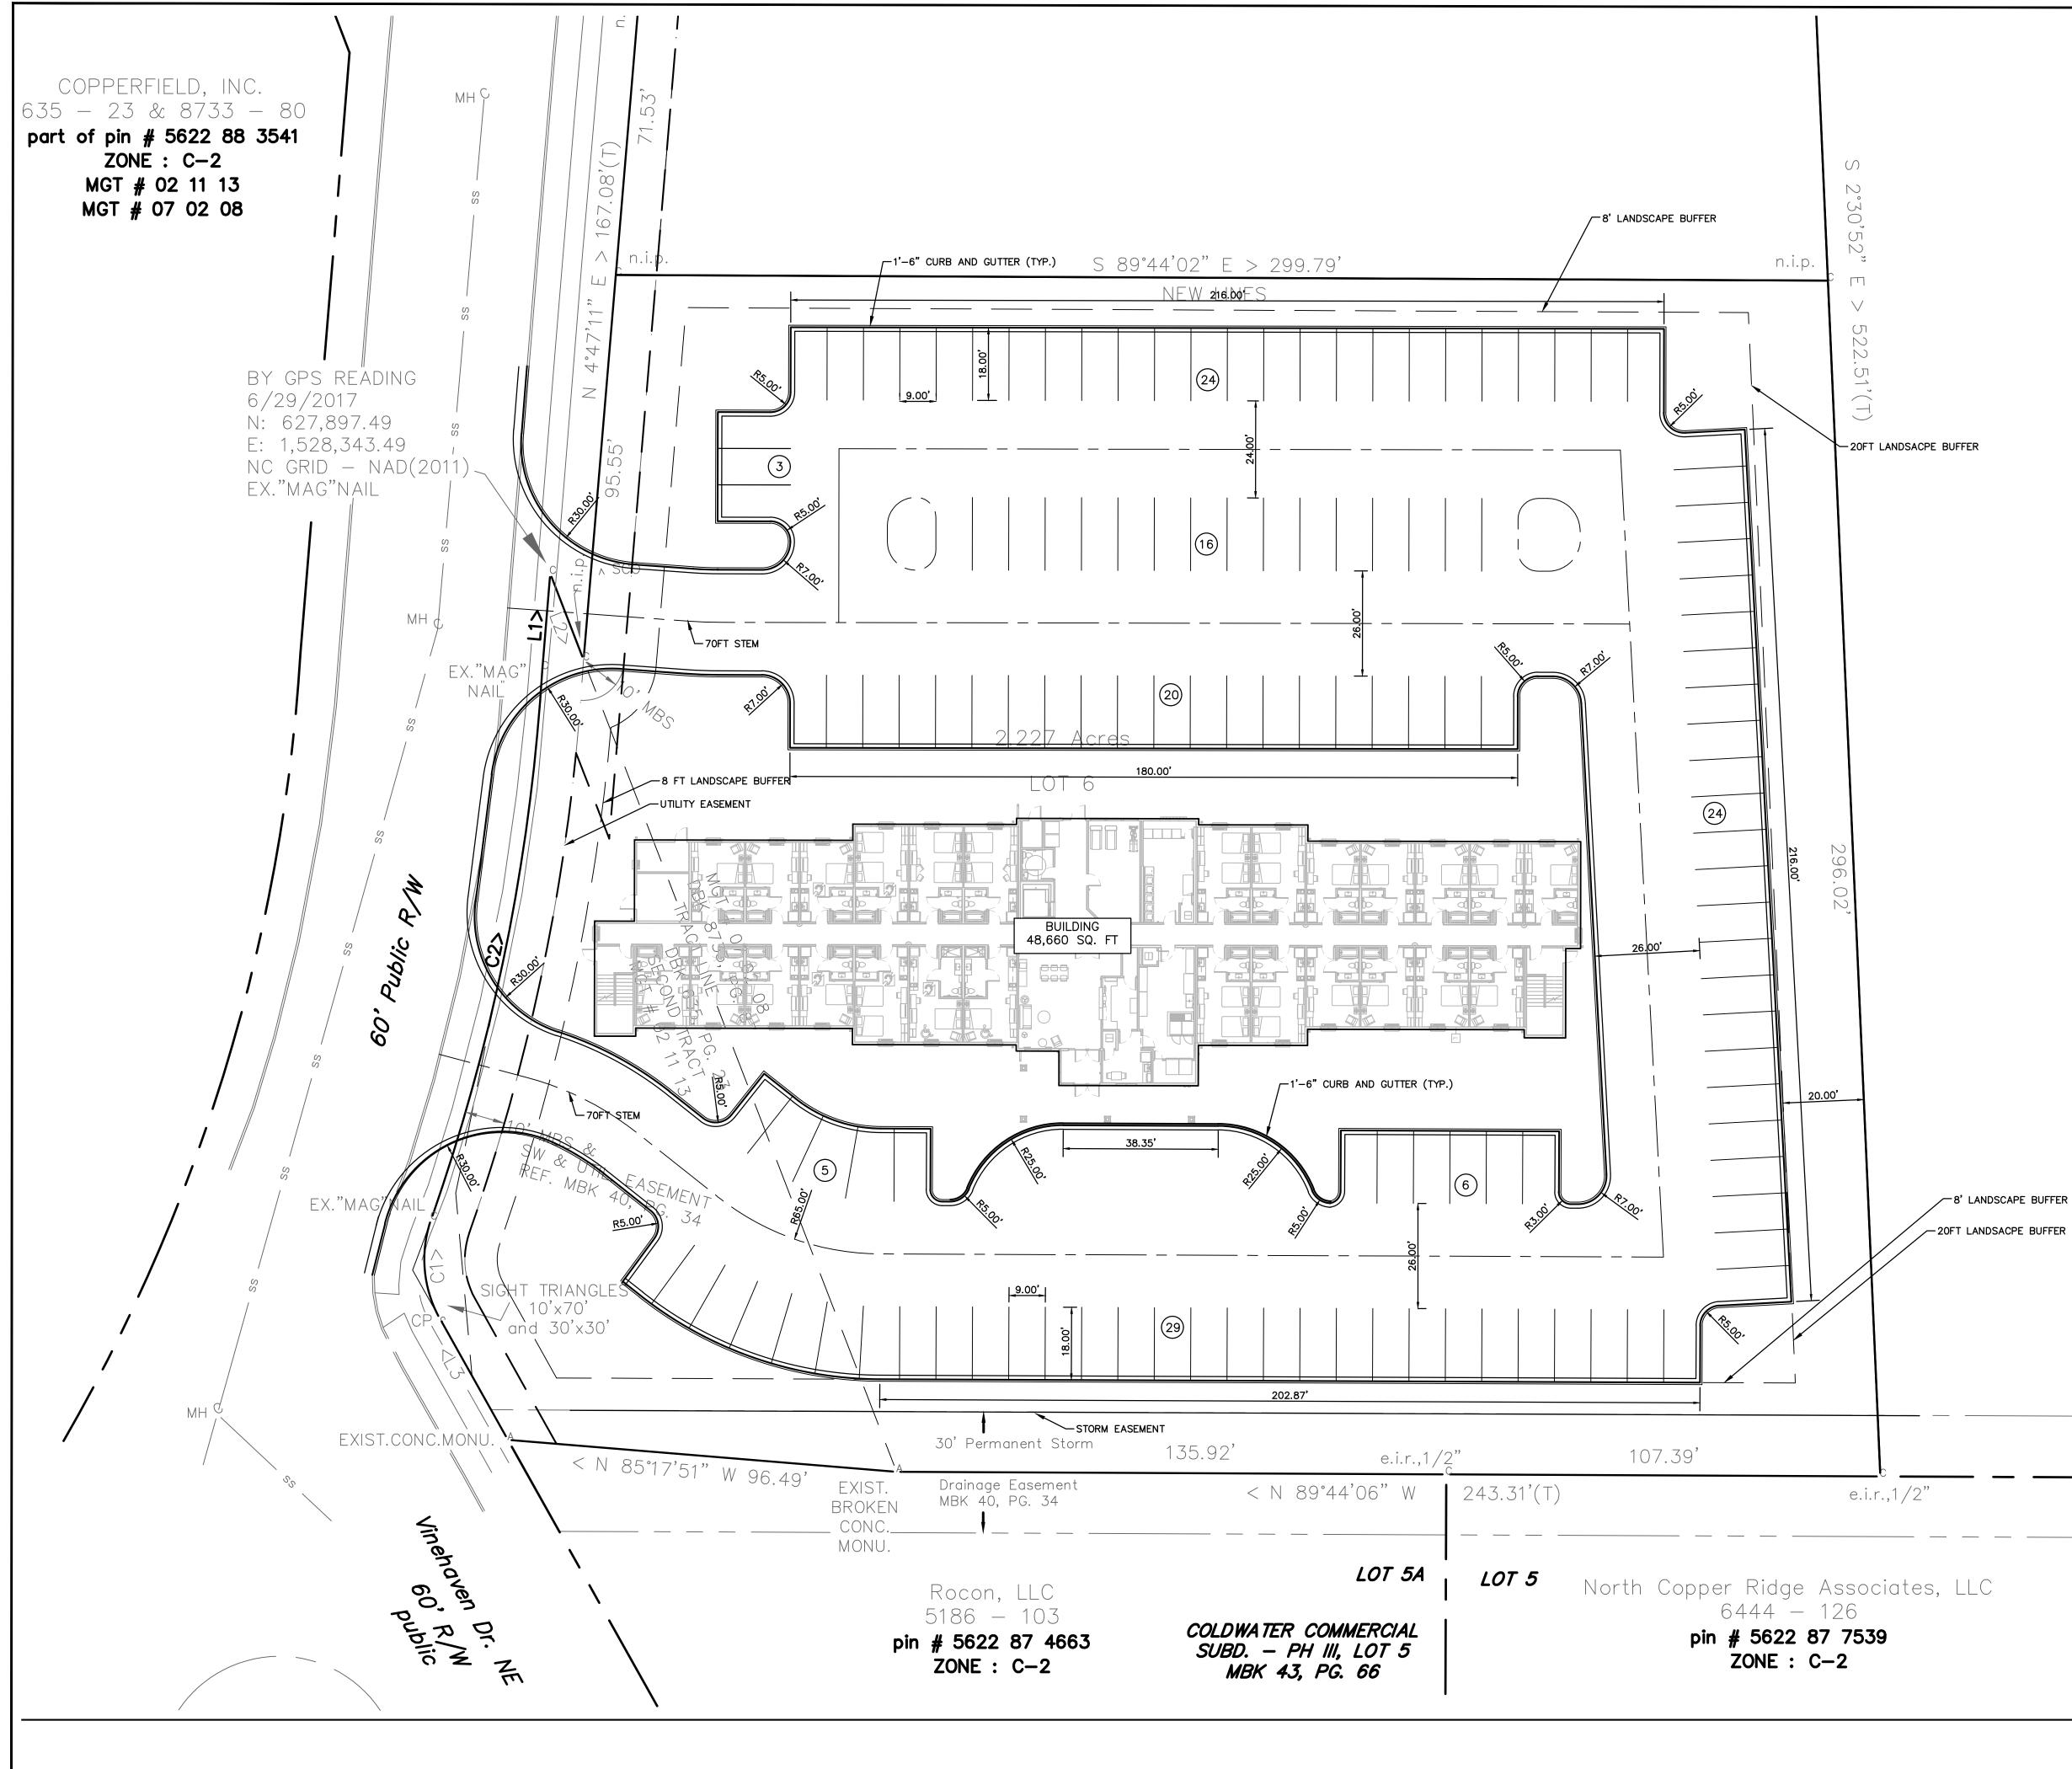

Our project will be beneficial to the City of Concord because there are no hotels that cater to the traveling nurses, young professionals, and short-term workers that need accommodations in the North Concord area. There is a high demand for this group of travelers and, although the majority of our business will be transient, we will have the facilities to cater to their short-term needs. There will be a ripple effect from all our guests that will flow to gas stations, restaurants, and attractions in the area and it starts with hotels like ours that give guests the comforts of home while being away.

Using current STR Report metrics specific to our local market we have further confirmed that our property is in high demand and will not affect similar properties in our area.

We hope this information will allow the Concord City Council to approve our wastewater flow application.

Sincerely yours,

Aakash Barodia

## COOPER

## CONTRACTING COMPANY, INC.

#### 1235 EAST BLVD. SUITE E #112 CHARLOTTE, NORTH CAROLINA 28203

July 22<sup>nd</sup>, 2024

Dear City Council,

Southern Industrial Partners, a subsidiary company of Cooper, is currently under contract to purchase a 2.06 acre zoned I-1 at 4525 Fortune Avenue located in the International Business Park. The property has 233LF of road frontage on Trade Street to the West and 335LF of road frontage on Fortune Avenue to the South.

Our intention with the lot is to build an industrial flex space consisting of office and warehouse space. The building will be 15,345 SF subdivided into three 5,115 SF units. Each unit will have 1,000 SF of office space with two bathrooms, kitchenette, and 4,115 SF of warehouse space with a single rollup door in the rear of the building. Cooper will occupy one unit and lease the other two units. The front of the building will be facing Trade Street with a 27-space parking lot and a gated entrance to the rear of the building on Fortune Avenue. A detention pond for stormwater management will be located in the SE corner of the property by the rear access road. Please see the civil and landscaping plans submitted with the application for further details of the project.

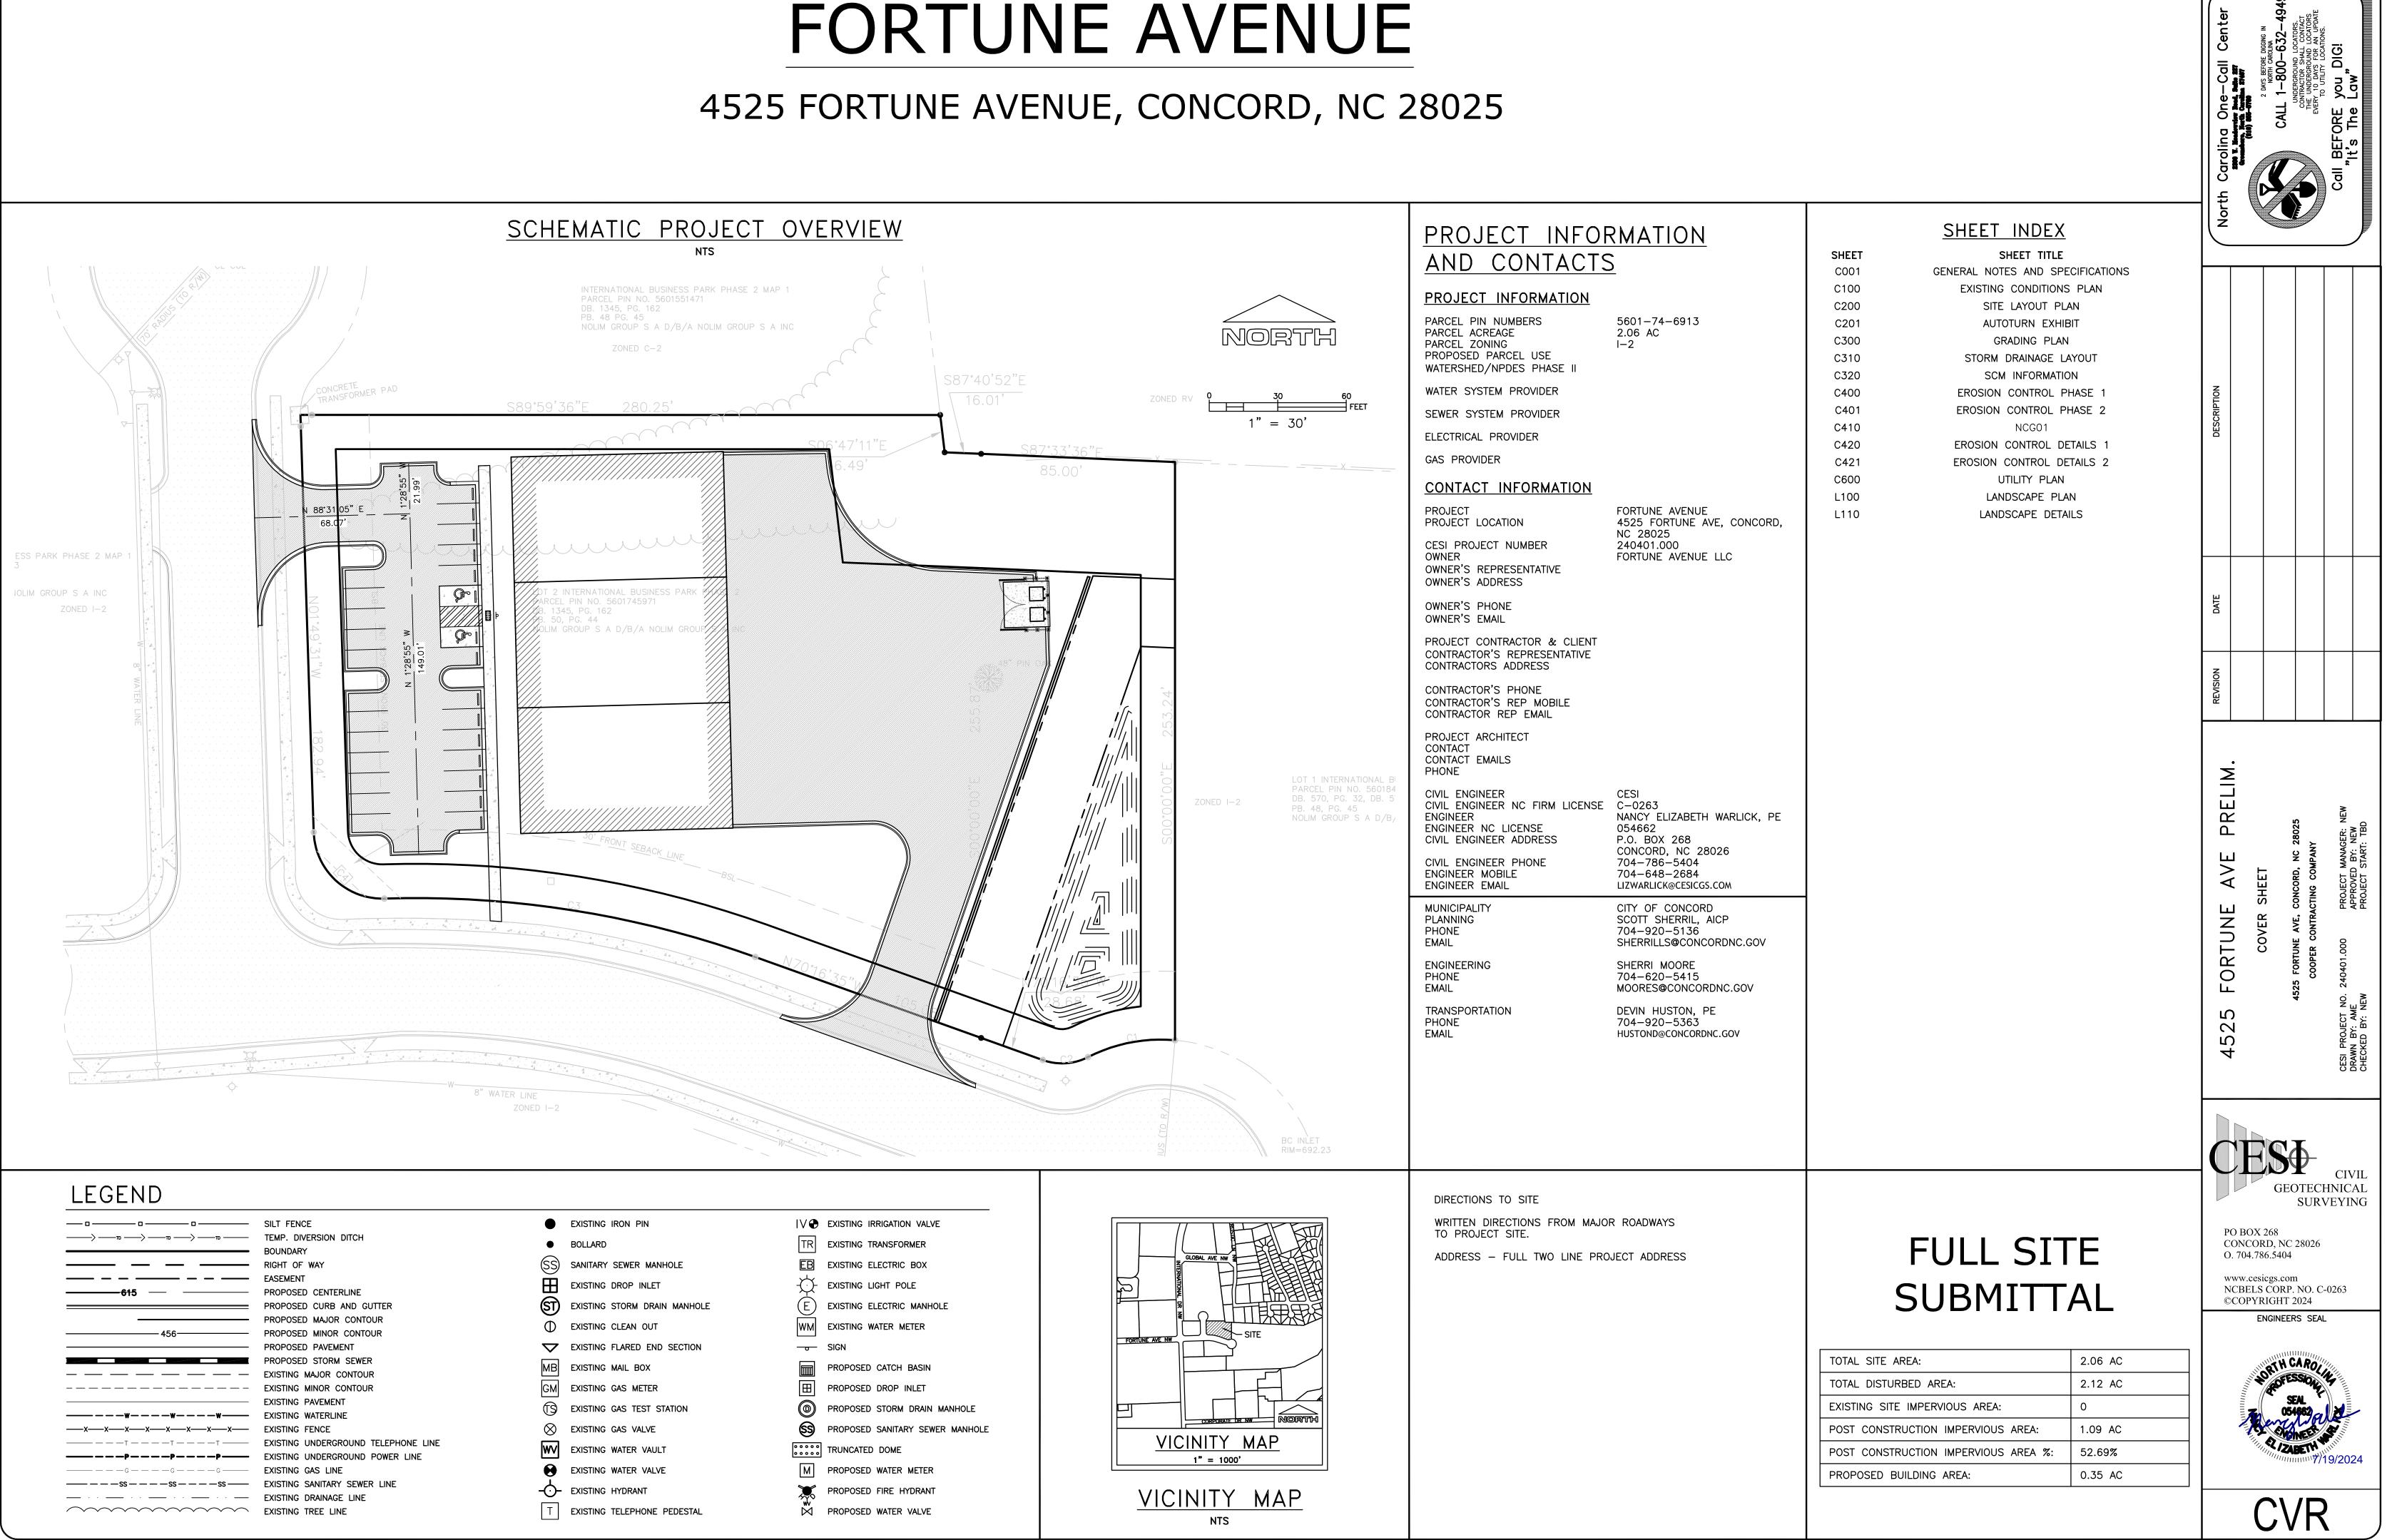

In our experience there is limited inventory in the greater Charlotte area for larger flex spaces offering sufficient office and warehouse space with rear exterior storage for equipment and/or materials. After considering the comps in the area we plan to set the rent at \$18 per SF totaling \$92,070 a year or \$7,672.50 a month per unit.

We greatly appreciate your consideration of our application and do not hesitate to reach out with any questions you may have regarding the project.

Thanks,

Forrest Shaw - Cooper

#### EARTHWORK NOTES

ENGINEER.

- GENERAL: EARTHWORK SHALL INCLUDE THE LOOSENING AND REMOVAL, TRANSPORTING, STORAGE, BACKFILLING, GRADING AND ALL HANDLING OF NATURAL SOIL, DEPOSITED SOILS, OR ROCK FOR CONSTRUCTION OF ALL WORK UNDER THIS CONTRACT
- STRIPPING AND STOCKPILING OF TOPSOIL: STRIP ALL TOPSOIL TO ITS ENTIRE DEPTH IN THE AREAS TO BE GRADED AND PILE IN APPROVED OR DESIGNATED AREAS BEFORE ANY GRADING OR FILLING IS BEGUN. SOIL SHALL BE FREE FROM CLAY, LARGE STONES AND DEBRIS. THIS TOPSOIL SHALL BE USED FOR FINAL FINISH GRADING.
- 3. EXCAVATION FOR STRUCTURES: CONFORM TO ELEVATIONS AND DIMENSIONS SHOWN WITHIN A TOLERANCE OF PLUS OR MINUS 0.10'. REMOVAL OF UNSATISFACTORY SOIL MATERIALS: EXCAVATE EXISTING FILL MATERIAL AND UNSATISFACTORY NATURAL SOIL
- MATERIALS ENCOUNTERED THAT EXTEND BELOW REQUIRED ELEVATIONS TO DEPTH DIRECTED BY THE SOILS ENGINEER. LATERAL DIMENSIONS, DEPTH AND VOLUME SHALL BE DETERMINED BY SOILS ENGINEER. PAYMENT SHALL NOT BE MADE FOR MATERIALS REMOVED IF THE SOILS ENGINEER IS NOT PRESENT AT THE TIME OF REMOVAL. 5. ROCK EXCAVATION: WHERE EXPLOSIVES ARE USED, WORK SHALL BE DONE BY EXPERIENCED POWDERMEN USING SMALL
- CHARGES IN STRICT ACCORDANCE WITH ALL REGULATIONS GOVERNING THIS WORK. BLASTING WILL NOT BE PERMITTED WITHOUT SPECIAL AUTHORIZATION OF THE OWNER, THE ENGINEER, AND LOCAL AUTHORITIES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE OR INJURY TO ANY PERSONS, PROPERTY, OR STRUCTURES AS A RESULT OF HIS BLASTING OPERATIONS. PAYMENT WILL BE MADE FOR ROCK EXCAVATION IN AN AMOUNT PER CUBIC YARD INDICATED ON THE BID FORM.
- PROOFROLLING: FOLLOWING THE STRIPPING AND NECESSARY UNDERCUTTING, THE EXPOSED SUBGRADE SHALL E PROOFROLLED UNDER THE OBSERVATION OF THE SOILS ENGINEER BEFORE NEW FILL IS PLACED OR AFTER CUTS ARE MADE TO EVALUATE THE SUBGRADE STABILITY. THE PROOFROLLING EVALUATION SHALL BE PERFORMED USING A HEAVILY LOADED DUMP TRUCK OR SIMILAR PNEUMATIC-TIRED VEHICLE WITH A MINIMUM LOADED WEIGHT OF 25 TONS. THE SOILS ENGINEER WILL PROVIDE RECOMMENDATIONS FOR TREATMENT IF UNSTABLE SOILS ARE OBSERVED DURING THE PROOFROLLING OPERATIONS.
- SUBGRADE MAINTENANCE: WATER FROM STORM RUNOFF SHALL BE CONTROLLED DURING EARTHWORK AND CONSTRUCTION ACTIVITIES BY INTERCEPTING AND DRAINING THE RUNOFF AWAY FROM THE SITE TO PREVENT WATER FROM PONDING ON OR SATURATING THE SOILS WITHIN THE EXCAVATIONS OR ON FINAL GRADES. 8. FILL MATERIAL: THE GENERAL CONTRACTOR SHALL FURNISH ALL FILL REQUIRED TO BRING THE GRADES TO LEVEL AS
- SHOWN ON THE DRAWINGS. FILL MATERIAL SHALL BE COMPACTED BY AN APPROVED METHOD TO THE REQUIREMENTS LISTED IN NOTE 6. IN NO CASE SHALL FILL CONTAIN TRASH, DEMOLITION DEBRIS, OVERSIZED MATERIAL (>3"), OR ORGANIC MATERIAL OF ANY KIND. IN ADDITION, HIGH PLASTICITY SILT AND CLAY (PLASTICITY INDEX>30) SHALL ONLY BE USED AS COMMON FILL. NO FILL SHALL BE PLACED UNTIL THE SOIL HAS BEEN CHECKED BY A LABORATORY AND APPROVED BY THE SOILS ENGINEER. THE MOISTURE IN THE SOIL SHALL NOT VARY MORE THAN 3% ABOVE OR 3% BELOW THE OPTIMUM WHEN IT IS BEING INSTALLED IN THE FILL. 9. INSTALLATION OF FILL: ALL FILL SHALL BE FORMED OF APPROVED MATERIAL PLACED IN SUCCESSIVE LAYERS OF NOT
- MORE THAN 8" IN DEPTH. EACH SUCCESSIVE LAYER SHALL BE THOROUGHLY COMPACTED WITH APPROVED MECHANICAL TAMPERS TO THE REQUIRED DENSITY AND TESTED AND APPROVED BY THE SOILS ENGINEER PRIOR TO PLACEMENT OF THE NEXT LAYER. ALL FILL SHALL BE AT OPTIMUM MOISTURE CONTENT WHEN COMPACTED AS FOLLOWS IN ACCORDANCE WITH ASTM D698:

STRUCTURE REMAINDER	TOP 12" 95%	100%	
COMMON	ALL DEPTH	92%	
DRIVES & PARKING	TOP 24" REMAINDER	9 <b>8%</b> 95%	

THE OWNER SHALL FURNISH AND PAY FOR ALL FILL TESTING.

ROCK DEFINITION

WE SUGGEST THAT "ROCK" BE DEFINED AS THE FOLLOWING:

A. GENERAL EXCAVATION: ANY MATERIAL WHICH CANNOT BE EXCAVATED WITH A SINGLE-TOOTH RIPPER DRAWN BY A CRAWLER TRACTOR HAVING A DRAW BAR PULL RATED AS NOT LESS THAN 65,000 POUNDS (CATERPILLAR D8K OR EQUIVALENT) OR EXCAVATED BY A FRONT-END LOADER WITH A MINIMUM BUCKET BREAKOUT FORCE OF 30,000 POUNDS (CATERPILLAR 973 OR EQUIVALENT). B TRENCH EXCAVATION ANY MATERIAL WHICH CANNOT BE EXCAVATED WITH A BACKHOE HAVING A BUCKET CURLING FORCE RATED AT NOT LESS THAN 42,000 POUNDS (CATERPILLAR 325BL OR EQUIVALENT).

IF THE CONTRACTOR ELECTS TO USE EQUIPMENT WITH POWER RATINGS THAT EXCEED THE MINIMUM POWER RATINGS DESCRIBED IN THE SPECIFICATION, THEN ROCK WILL BE DEFINED BASED ON THE ACTUAL EQUIPMENT USED.

# GRADING NOTES

- 1. THE UTILITIES AND THE LOCATIONS THEREOF, SHOWN ON THE PLANS, REPRESENT THE DESIGNER'S UNDERSTANDING OF EXISTING UTILITIES IN THE CONSTRUCTION AREA. THE CONTRACTOR SHALL VERIFY THE LOCATION, DEPTH, AND EXISTENCE OF ALL UTILITIES (ELECTRICAL, MECHANICAL, GAS, WATER, TELEPHONE. ETC.) WITHIN THE CONSTRUCTION AREA WITH THE OWNER AND/OR THE APPROPRIATE UTILITY COMPANY PRIOR TO BEGINNING ANY EXCAVATION. THE OMISSION OR THE INCLUSION OF UTILITY LOCATIONS ON THE PLANS IS NOT TO BE CONSIDERED AS THE NON-EXISTENCE OF OR A DEFINITE
- LOCATION OF EXISTING UNDERGROUND UTILITIES. ANY DAMAGE TO EXISTING UTILITIES SHALL BE REPAIRED AT THE CONTRACTOR'S EXPENSE. CONTACT N.C. ONE-CALL CENTER @ (800-632-4949) 2. CONTRACTOR SHALL PROVIDE ALL EROSION CONTROL MEASURES AS REQUIRED BY LOCAL AND STATE
- REGULATIONS. ALL MEASURES SHALL BE IN PLACE PRIOR TO STARTING ANY GRADING. 3. ALL CONSTRUCTION AND CONSTRUCTION MATERIALS SHALL CONFORM TO LOCAL CITY/COUNTY LAND

- ARE INSTALLED. 7. SLOPES SHALL BE GRADED NO STEEPER THAN 2:1 UNLESS OTHERWISE NOTED ON THE PLANS. IF DESIGN CALLS FOR SLOPE GREATER THAN 2:1 AND IS GREATER THAN TEN (10) FEET IN HEIGHT. SLOPE MUST BE MATTED OR BENCHED. FILL SLOPES GREATER THAN 10' REQUIRE ADEQUATE TERRACING.
- 8. GRADING MORE THAN ONE (1) ACRE WITHOUT AN APPROVED EROSION CONTROL PLAN IS A VIOLATION OF THE CITY/COUNTY EROSION CONTROL ORDINANCE AND IS SUBJECT TO FINES.
- 9. ANY GRADING BEYOND THE LIMITS OF DISTURBANCE SHOWN IS A VIOLATION OF THE CITY/COUNTY EROSION CONTROL ORDINANCE AND IS SUBJECT TO FINES. 10. APPROVAL OF THIS PLAN IS NOT AN AUTHORIZATION TO GRADE ADJACENT PROPERTIES. WHEN FIELD
- CONDITIONS WARRANT OFF-SITE GRADING, PERMISSION SHALL BE OBTAINED FROM THE AFFECTED PROPERTY OWNER(S). 11. ANY LAND DISTURBING ACTIVITY GREATER THAN FIVE (5) ACRES REQUIRES COMPLIANCE WITH ALL
- CONDITIONS OF THE GENERAL PERMIT TO DISCHARGE STORM WATER UNDER THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (PERMIT NO. NCG010000). PURPOSE: A SKIMMER MUST DEWATER THE BASIN FROM THE TOP OF THE WATER SURFACE. THE RATE OF DEWATERING MUST BE CONTROLLED. A DEWATERING TIME OF 24 TO 72 HOURS IS REQUIRED.

#### MAINTENANCE:

INSPECT SKIMMER SEDIMENT BASINS AT LEAST WEEKLY AND AFTER EACH SIGNIFICANT (0.5" OR GREATER) RAINFALL EVENT AND REPAIR IMMEDIATELY. REMOVE SEDIMENT AND RESTORE THE BASIN TO ITS ORIGINAL DIMENSIONS WHEN SEDIMENT ACCUMULATES TO ONE-HALF THE HEIGHT OF THE FIRST BAFFLE. PULL THE SKIMMER TO ONE SIDE SO THAT THE SEDIMENT UNDERNEATH IT CAN BE EXCAVATED. EXCAVATE THE SEDIMENT FROM THE ENTIRE BASIN, NOT JUST AROUND THE SKIMMER OR THE FIRST CELL. MAKE SURE THE VEGETATION GROWING IN THE BOTTOM OF THE BASIN DOES NOT HOLD DOWN THE SKIMMER.

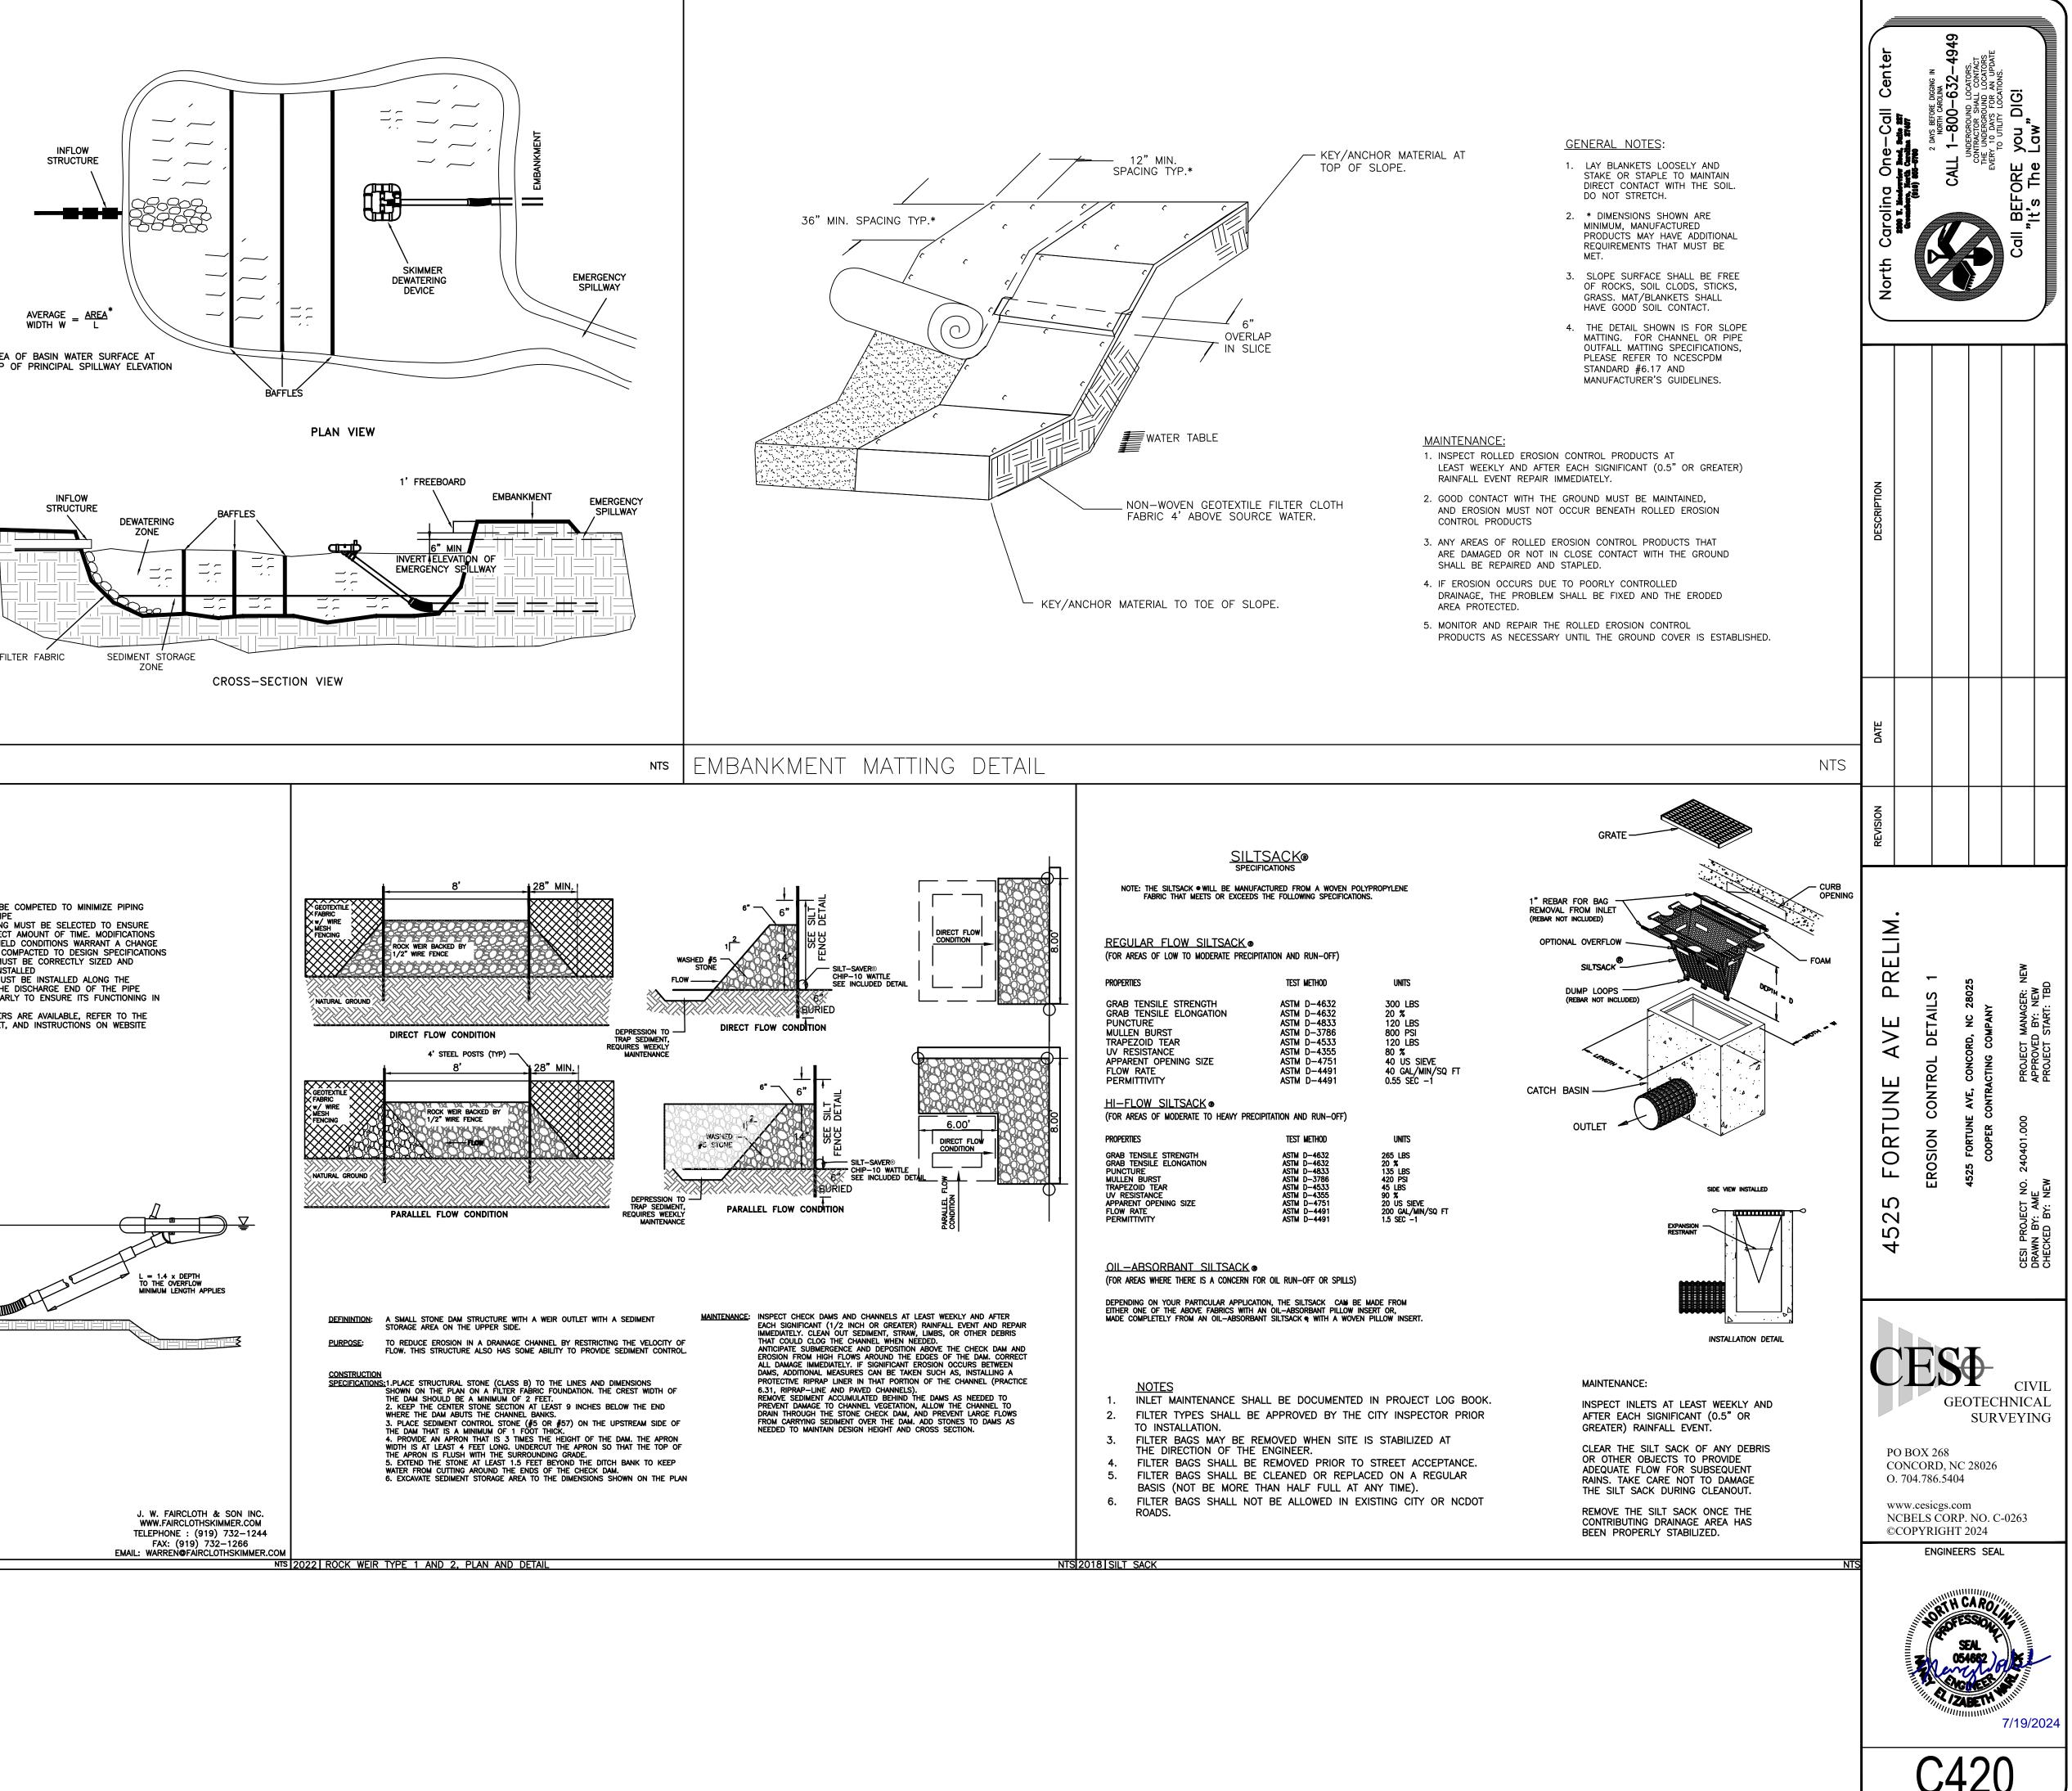

REPAIR THE BAFFLES IF THEY ARE DAMAGED. RE-ANCHOR THE BAFFLES IF WATER IS FLOWING UNDERNEATH OR AROUND THEM.

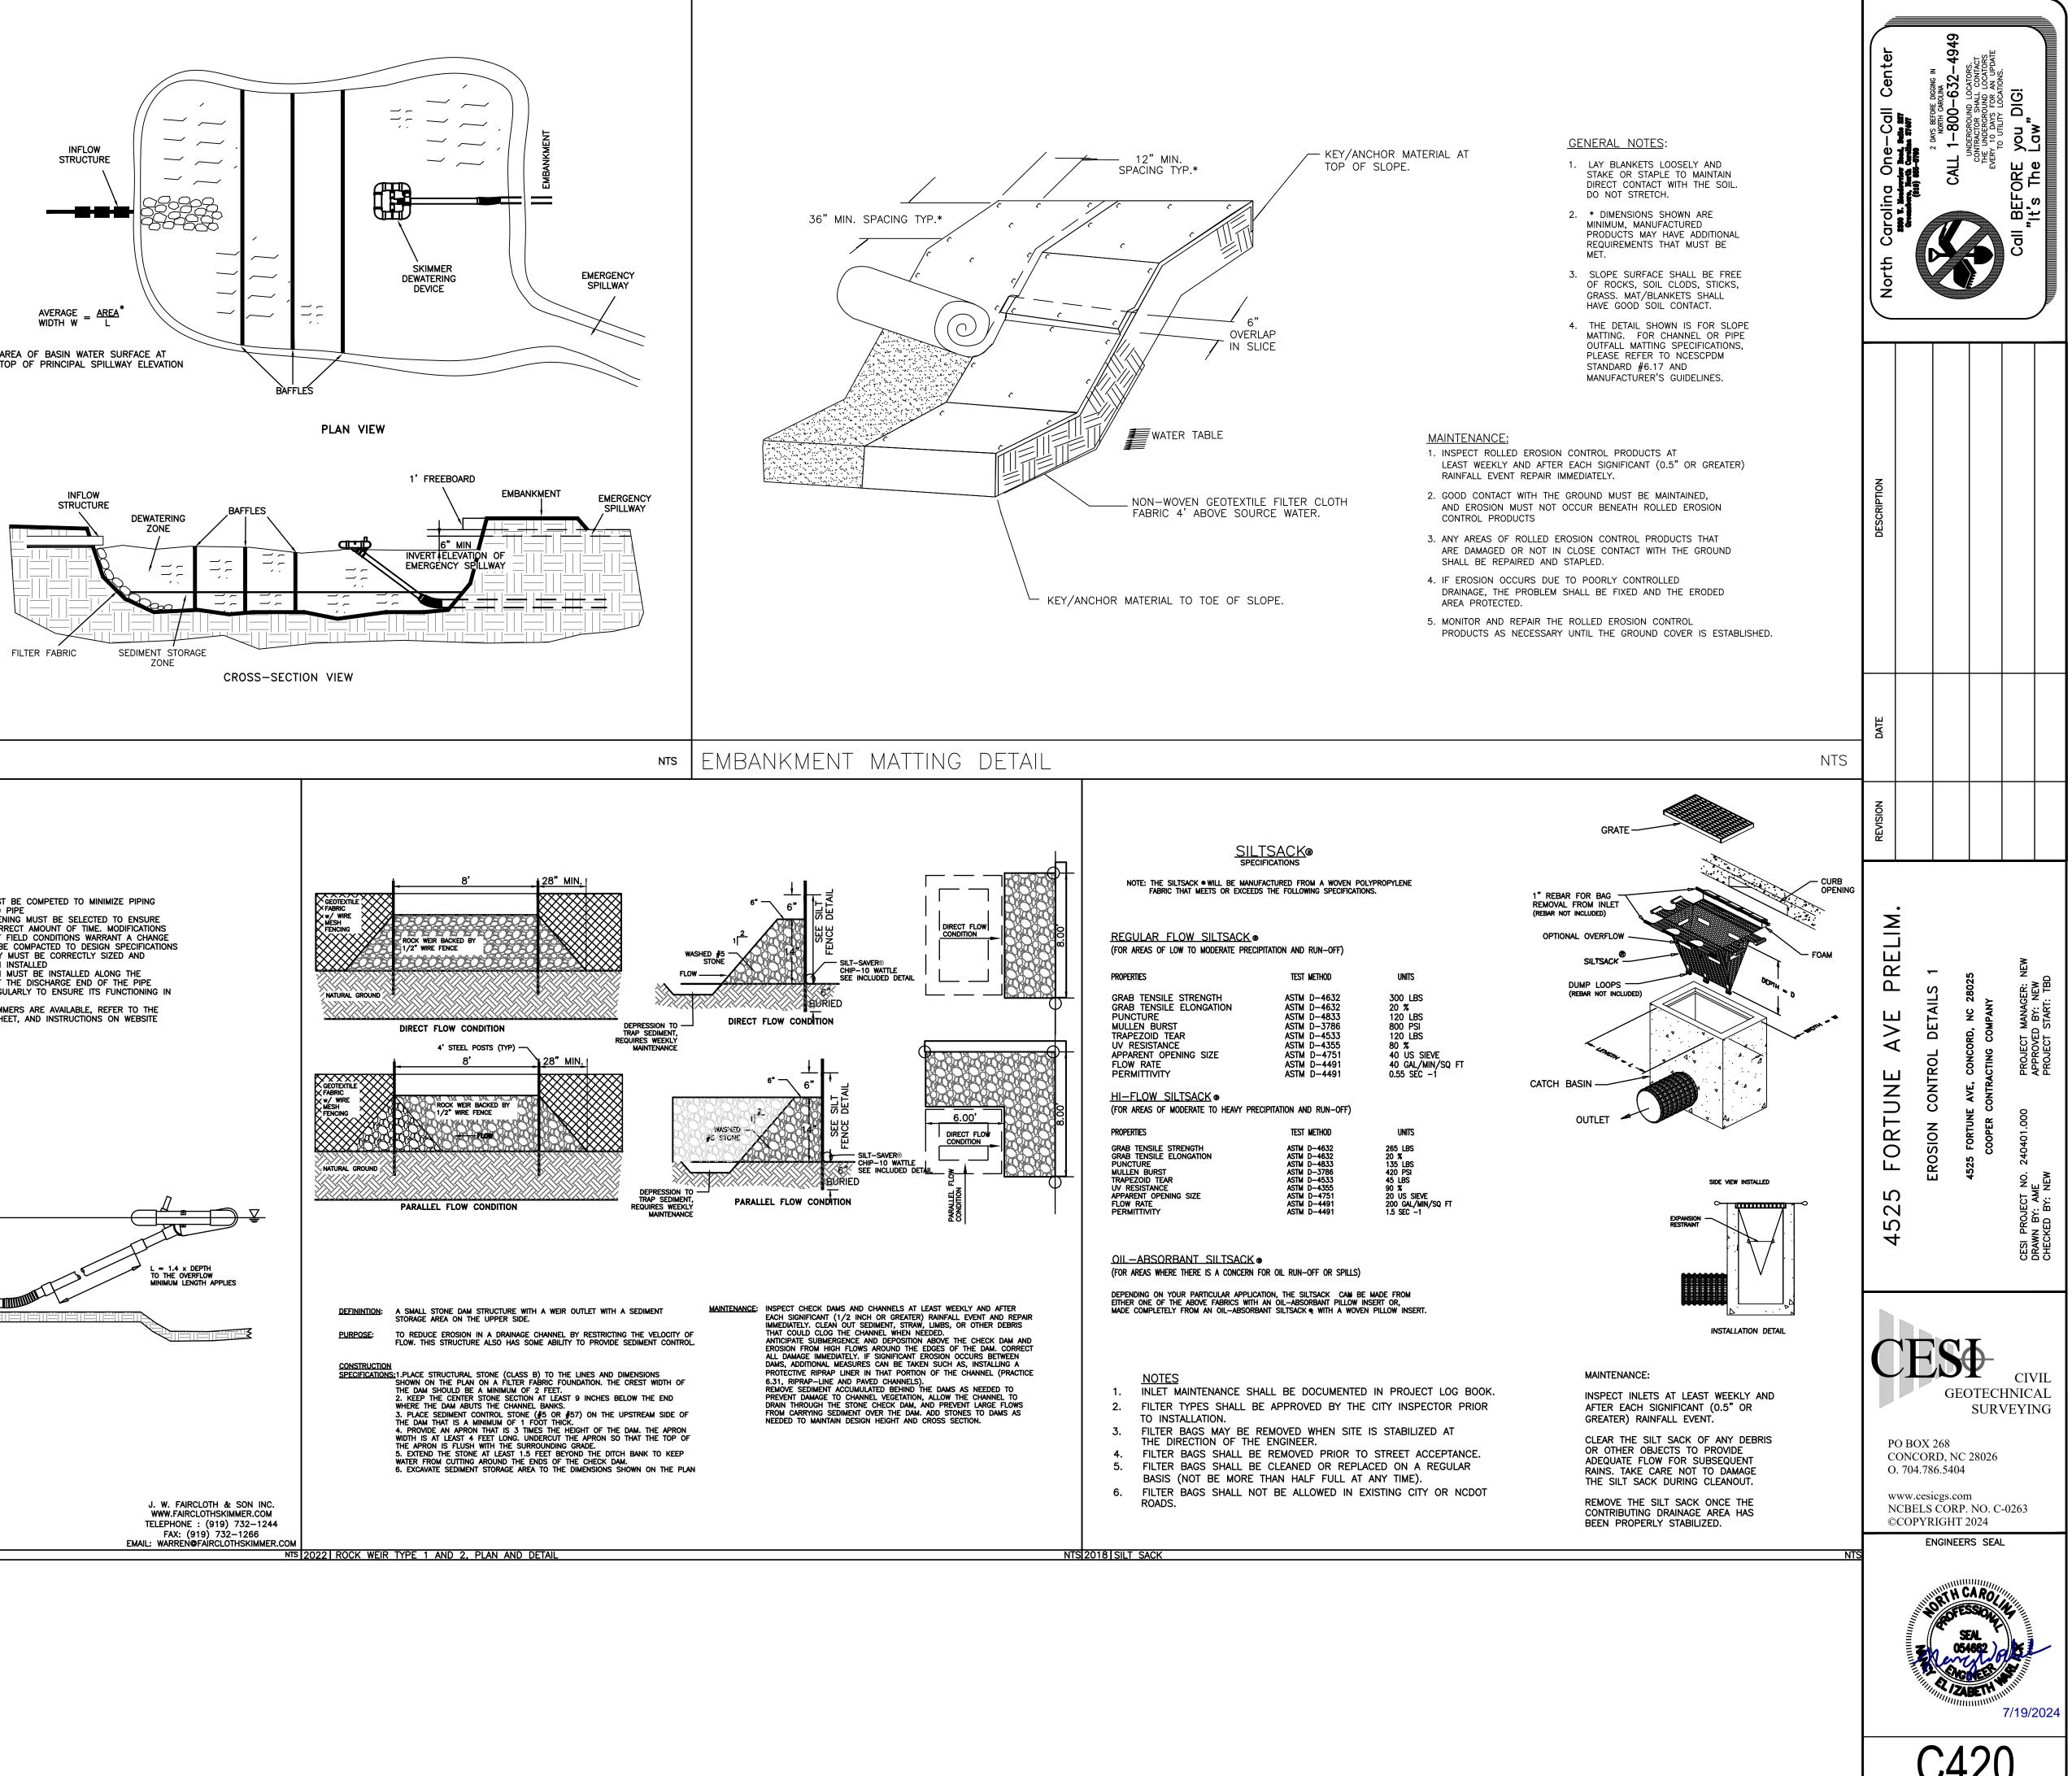

IF THE SKIMMER IS CLOGGED WITH TRASH AND THERE IS WATER IN THE BASIN, USUALLY JERKING ON THE ROPE WILL MAKE THE SKIMMER BOB UP AND DOWN AND DISLODGE THE DEBRIS AND RESTORE FLOW. IF THIS DOES NOT WORK, PULL THE SKIMMER OVER TO THE SIDE OF THE BASIN AND REMOVE THE DEBRIS. ALSO CHECK THE ORIFICE INSIDE THE SKIMMER TO SEE IF IT IS CLOGGED; IF SO REMOVE THE DEBRIS.

IF THE SKIMMER AR OR BARREL PIPE IS CLOGGED, THE ORIFICE CAN BE REMOVED AND THE OBSTRUCTION CLEARED WITH A PLUMBER'S SNAKE OR BY FLUSHING WITH WATER. BE SURE AND REPLACE THE ORIFICE BEFORE REPOSITIONING THE SKIMMER.

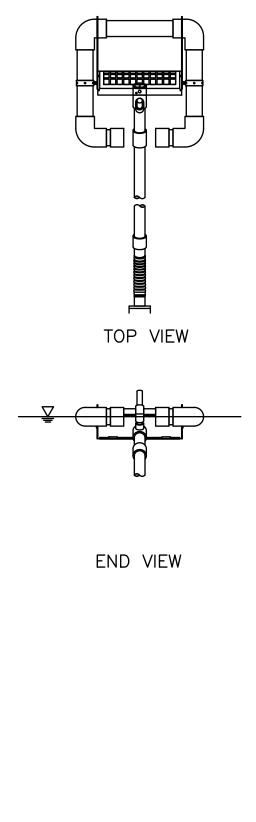

CHECK THE FABRIC LINED SPILLWAY FOR DAMAGE AND MAKE ANY REQUIRED REPAIRS WITH FABRIC THAT SPANS THE FULL WIDTH OF THE SPILLWAY. CHECK THE EMBANKMENT FOR PIPING AND SETTLEMENT. MAKE ALL NECESSARY REPAIRS IMMEDIATELY. REMOVE ALL TRASH AND OTHER DEBRIS FROM THE SKIMMER AND POOL AREAS.

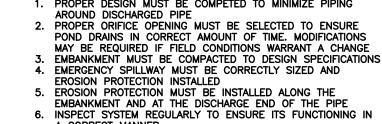

FREEZING WEATHER CAN RESULT IN ICE FORMING IN THE BASIN. SOME SPECIAL PRECAUTIONS SHOULD BE TAKEN IN THE WINTER TO PREVENT THE SKIMMER FROM PLUGGING WITH ICE.

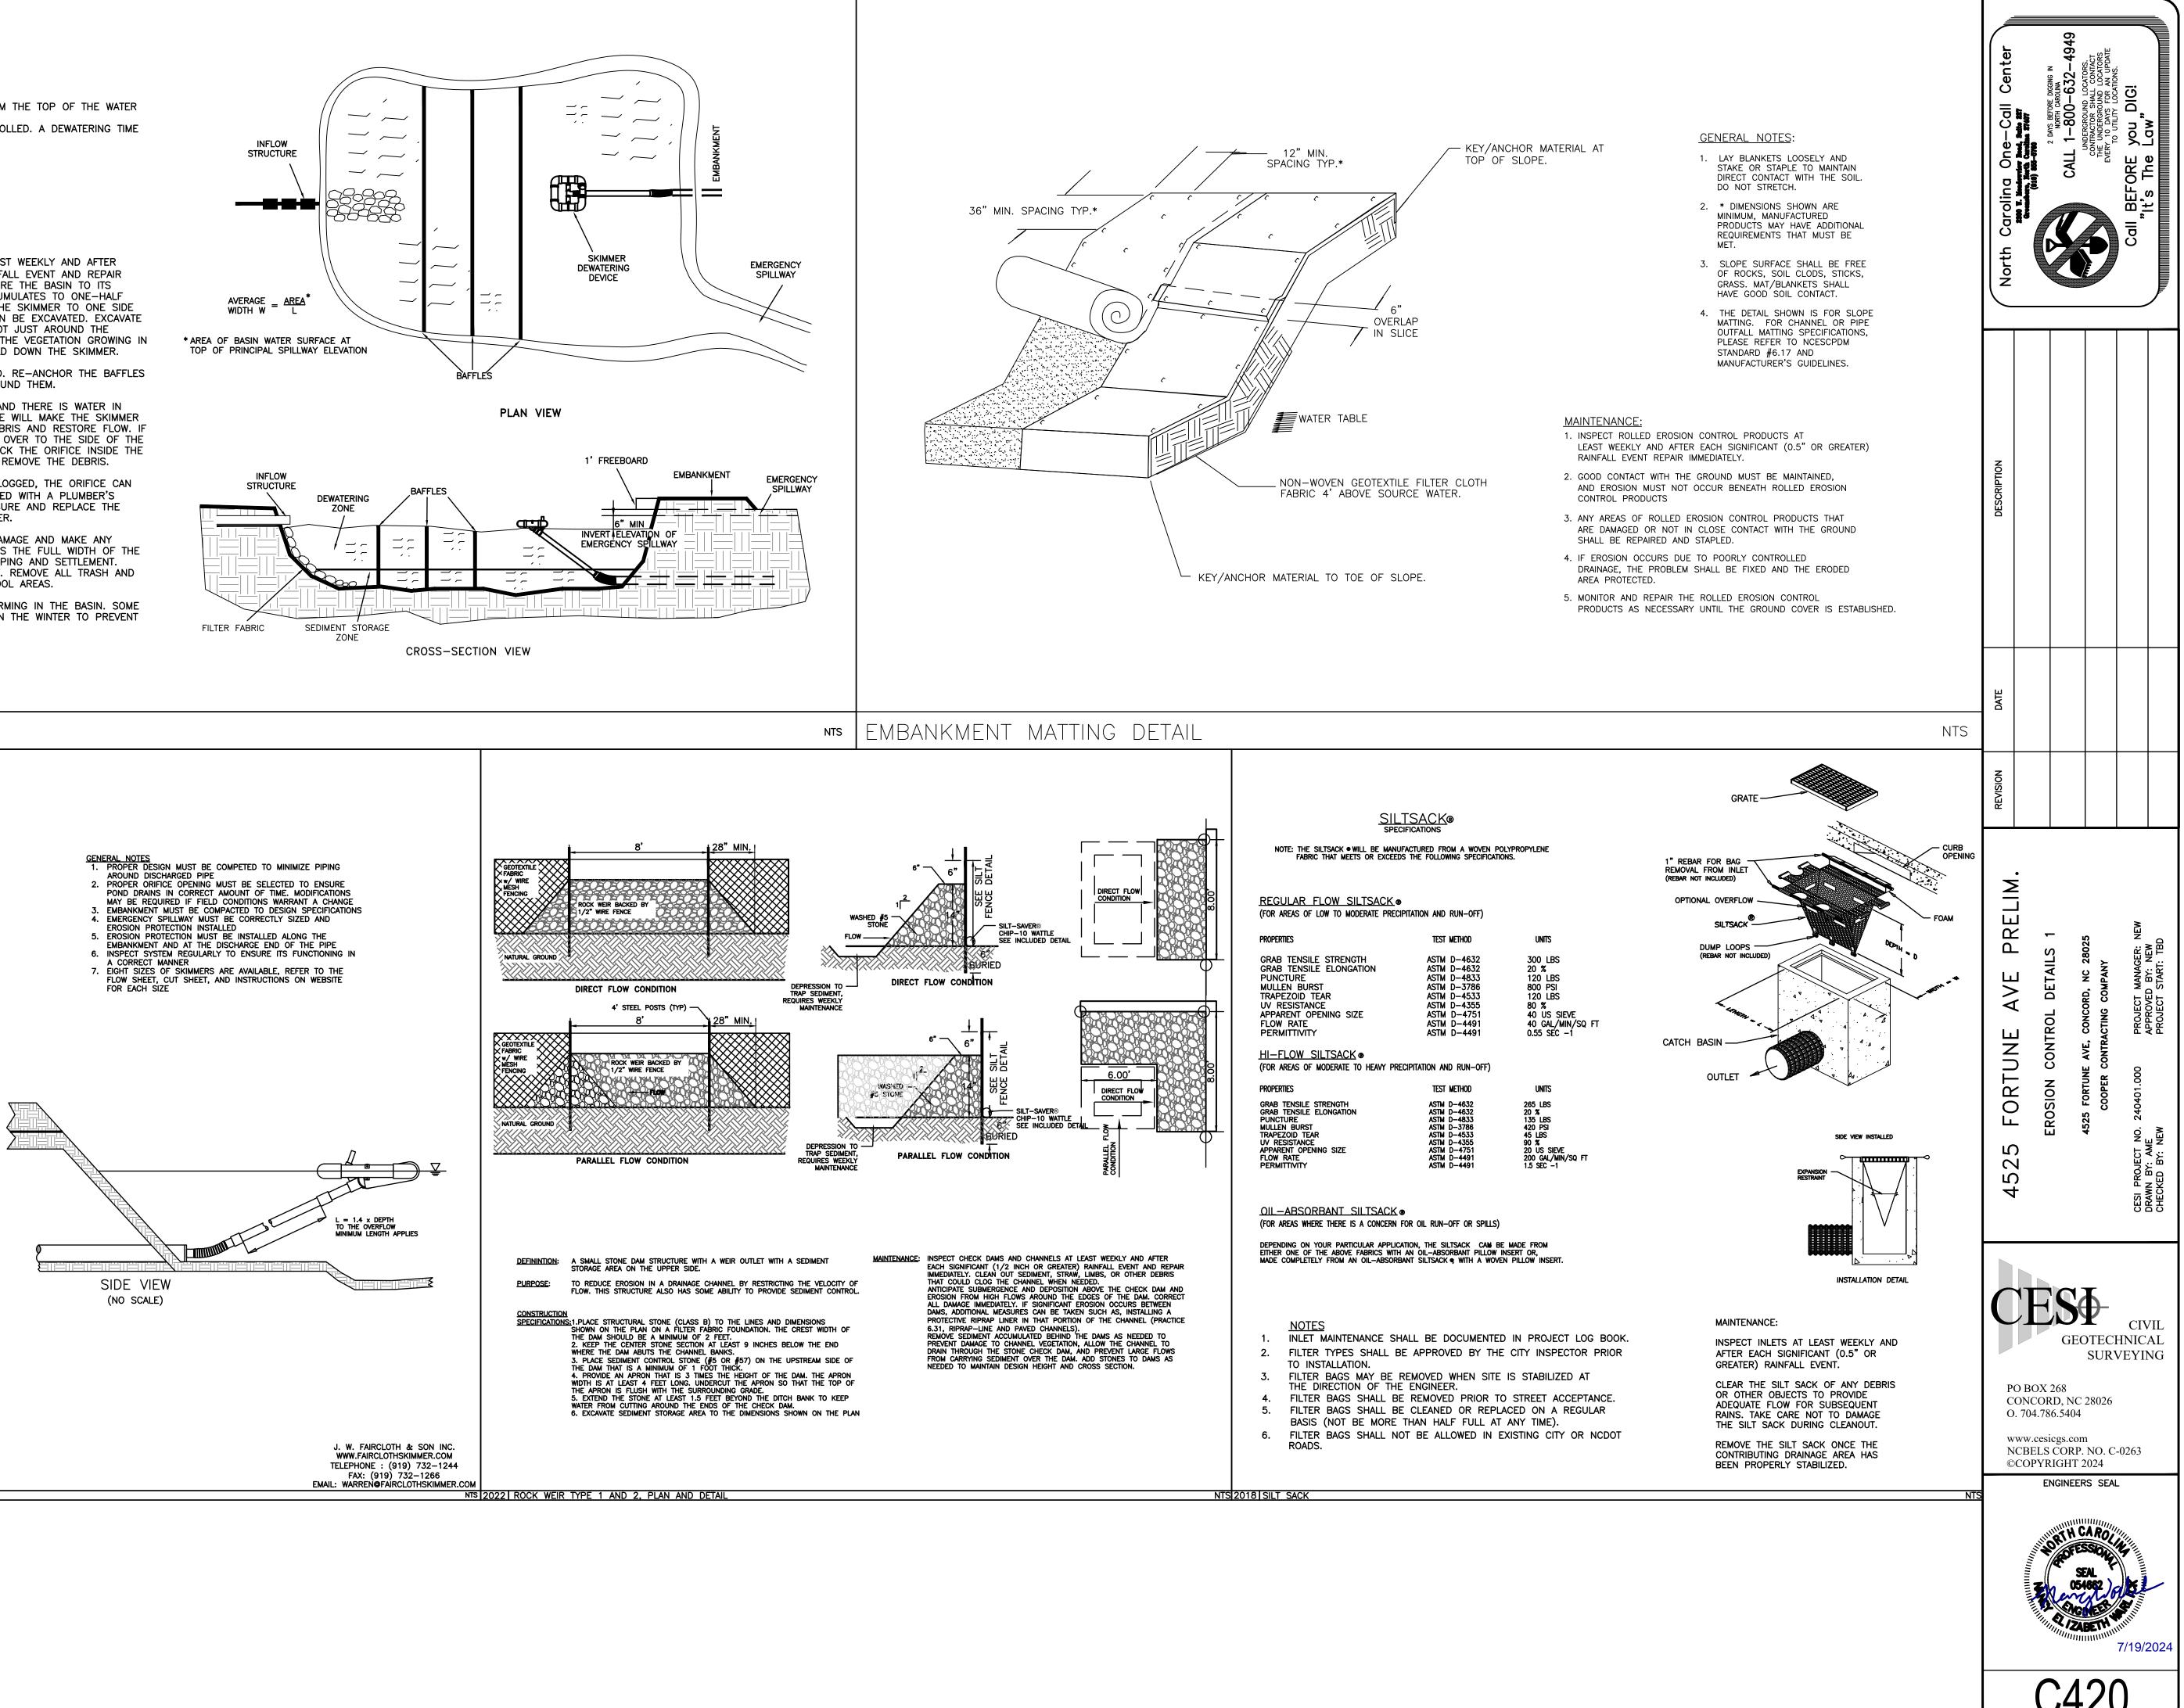

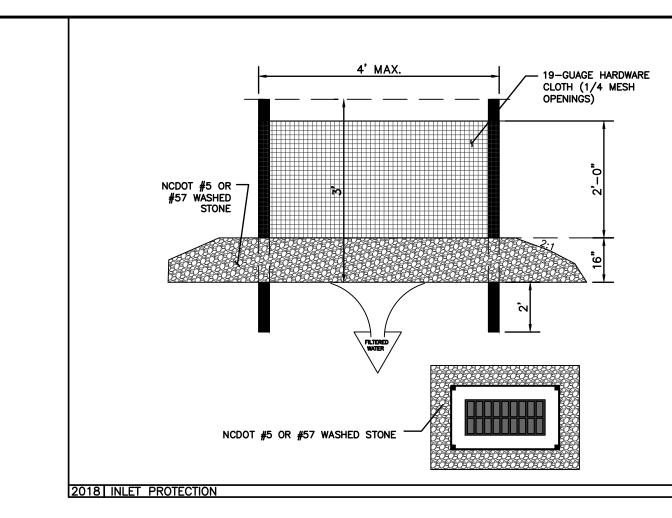

SKIMMER BASIN DETAIL

2018 FAIRCLOTH SKIMMER® DISCHARGE SYSTEM WITH EMBANKMENT

#### DEFINITION: A TEMPORARY MEASURE OF WIRE-MESH HARDWARE CLOTH AROUND STEEL POSTS SUPPORTING WASHED STONE PLACED AROUND THE OPENING OF A DROP INLET.

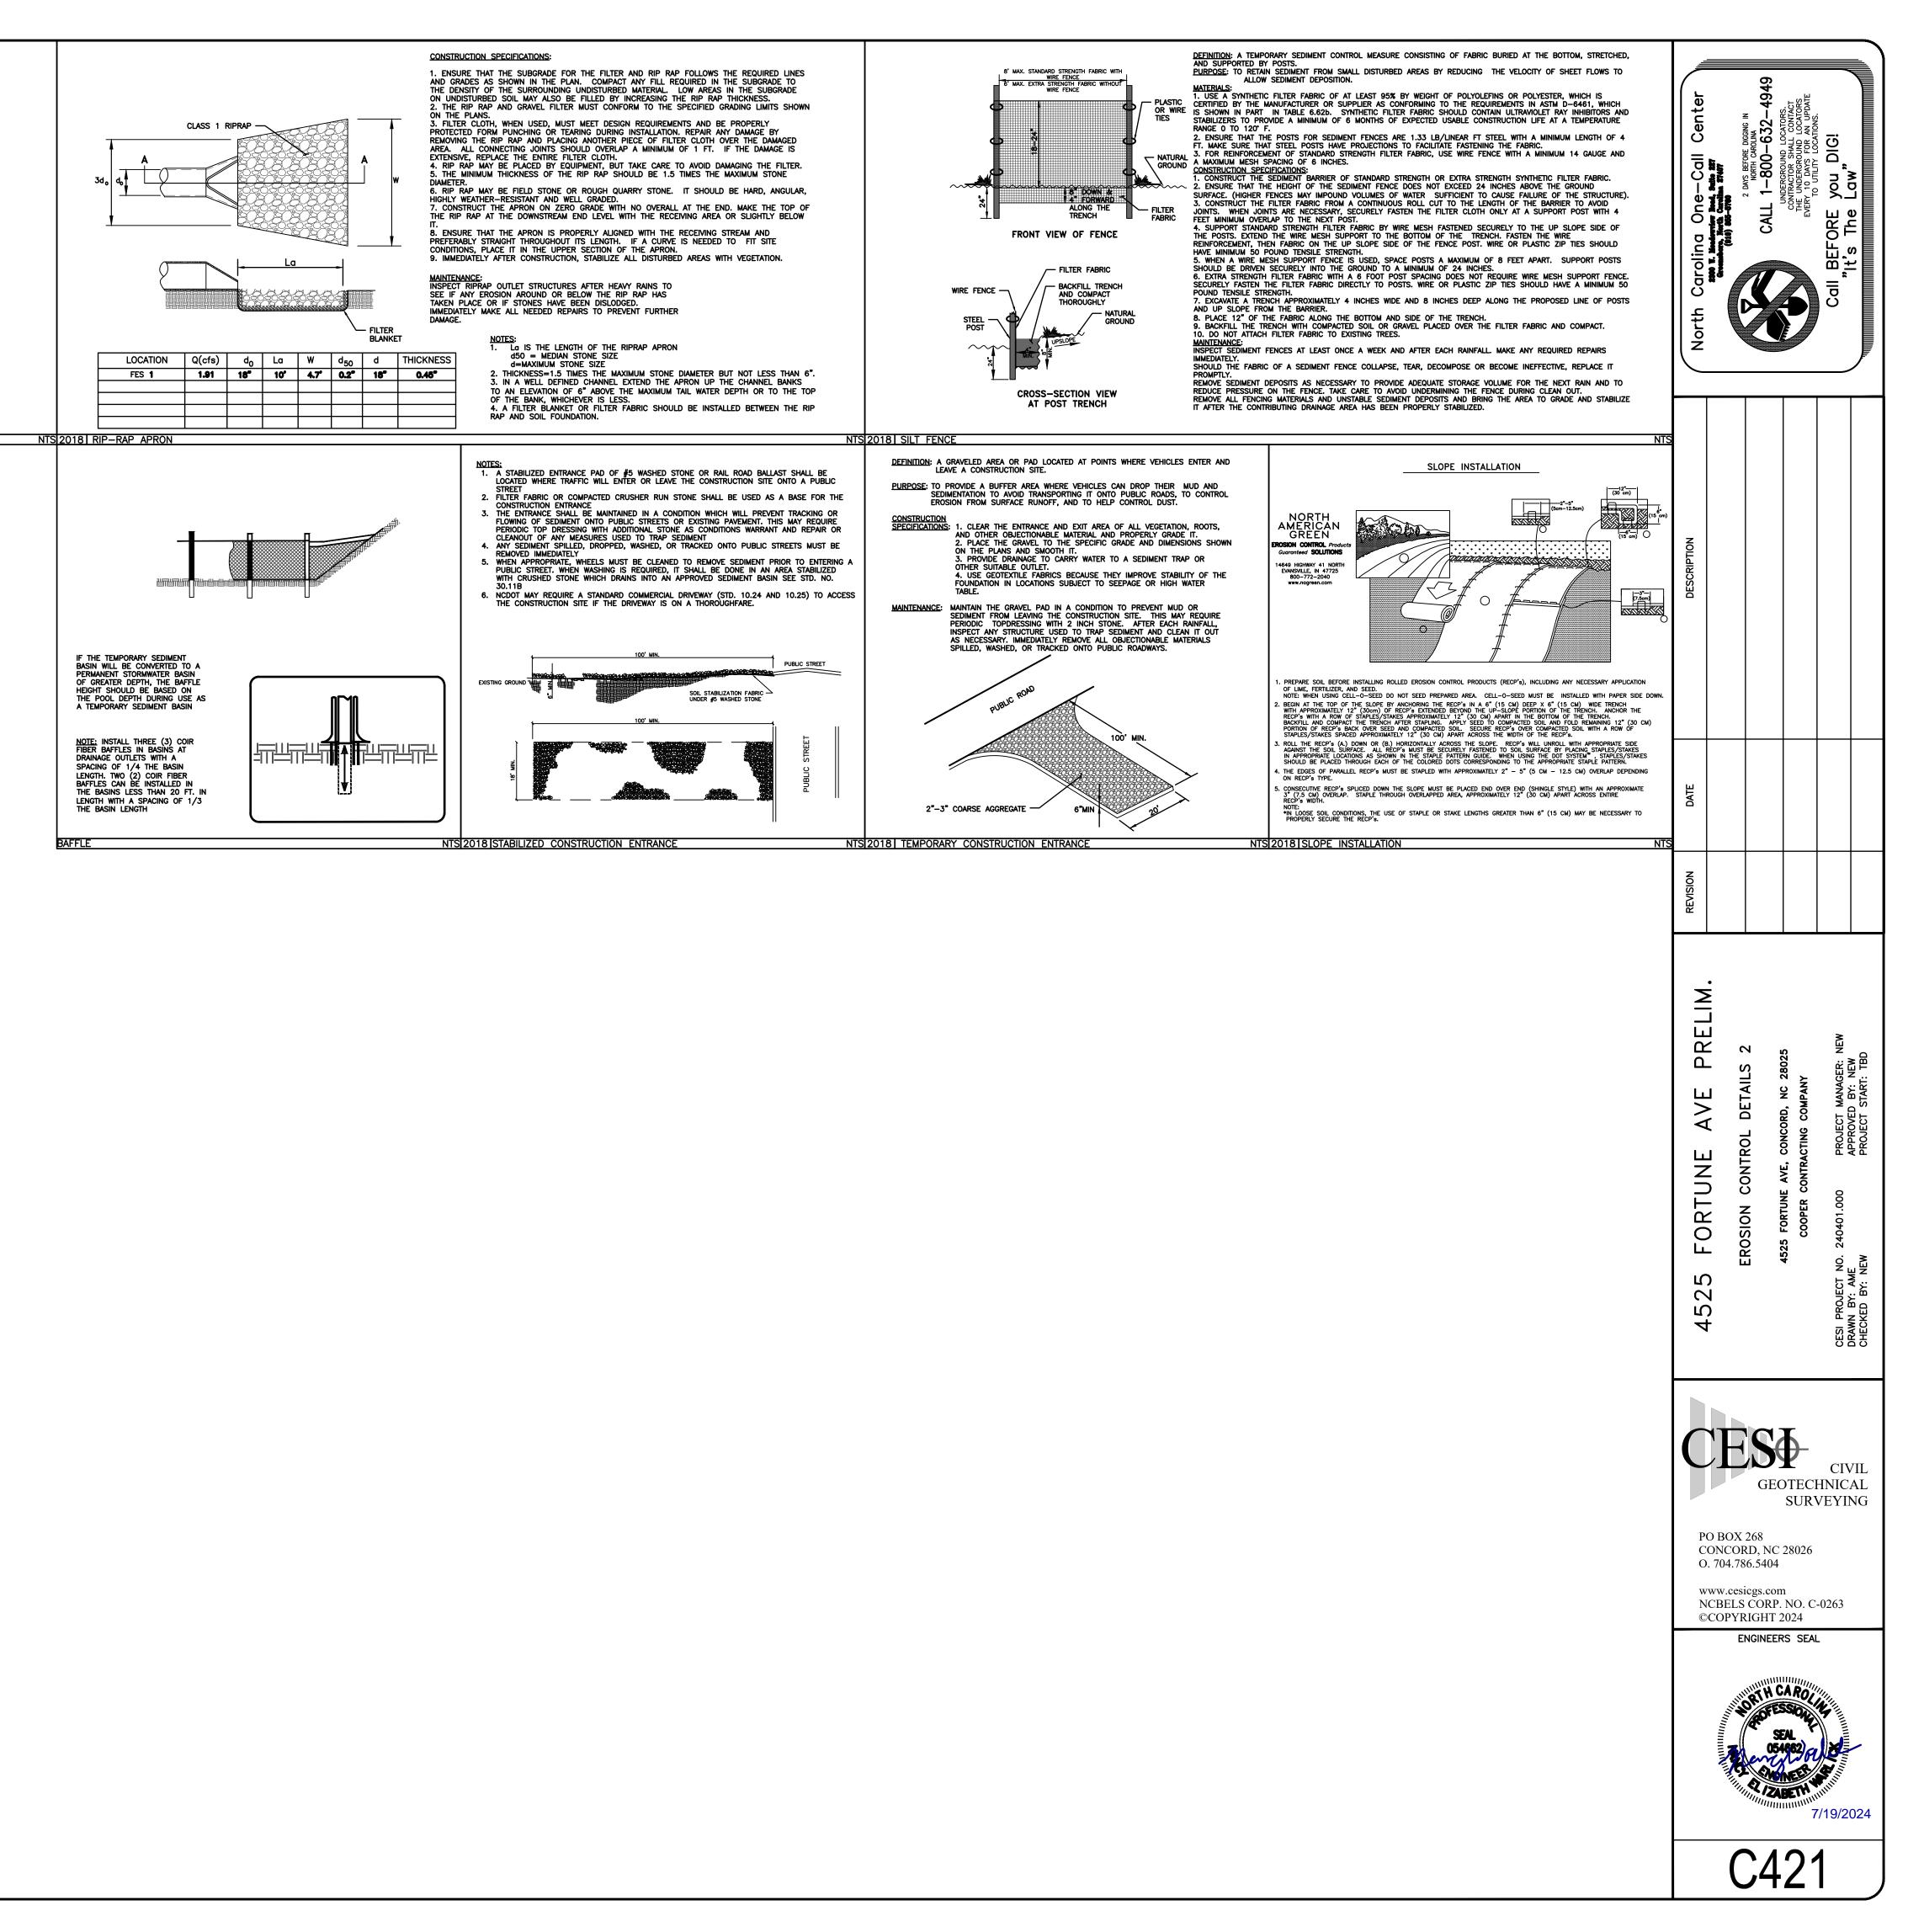

<u>PURPOSE</u>: TO PREVENT SEDIMENT FROM ENTERING YARD INLETS, GRATED STORM DRAINS OR DROP INLETS DURING CONSTRUCTION. THIS PRACTICE ALLOWS EARLY USE OF THE STORM DRAIN SYSTEM.

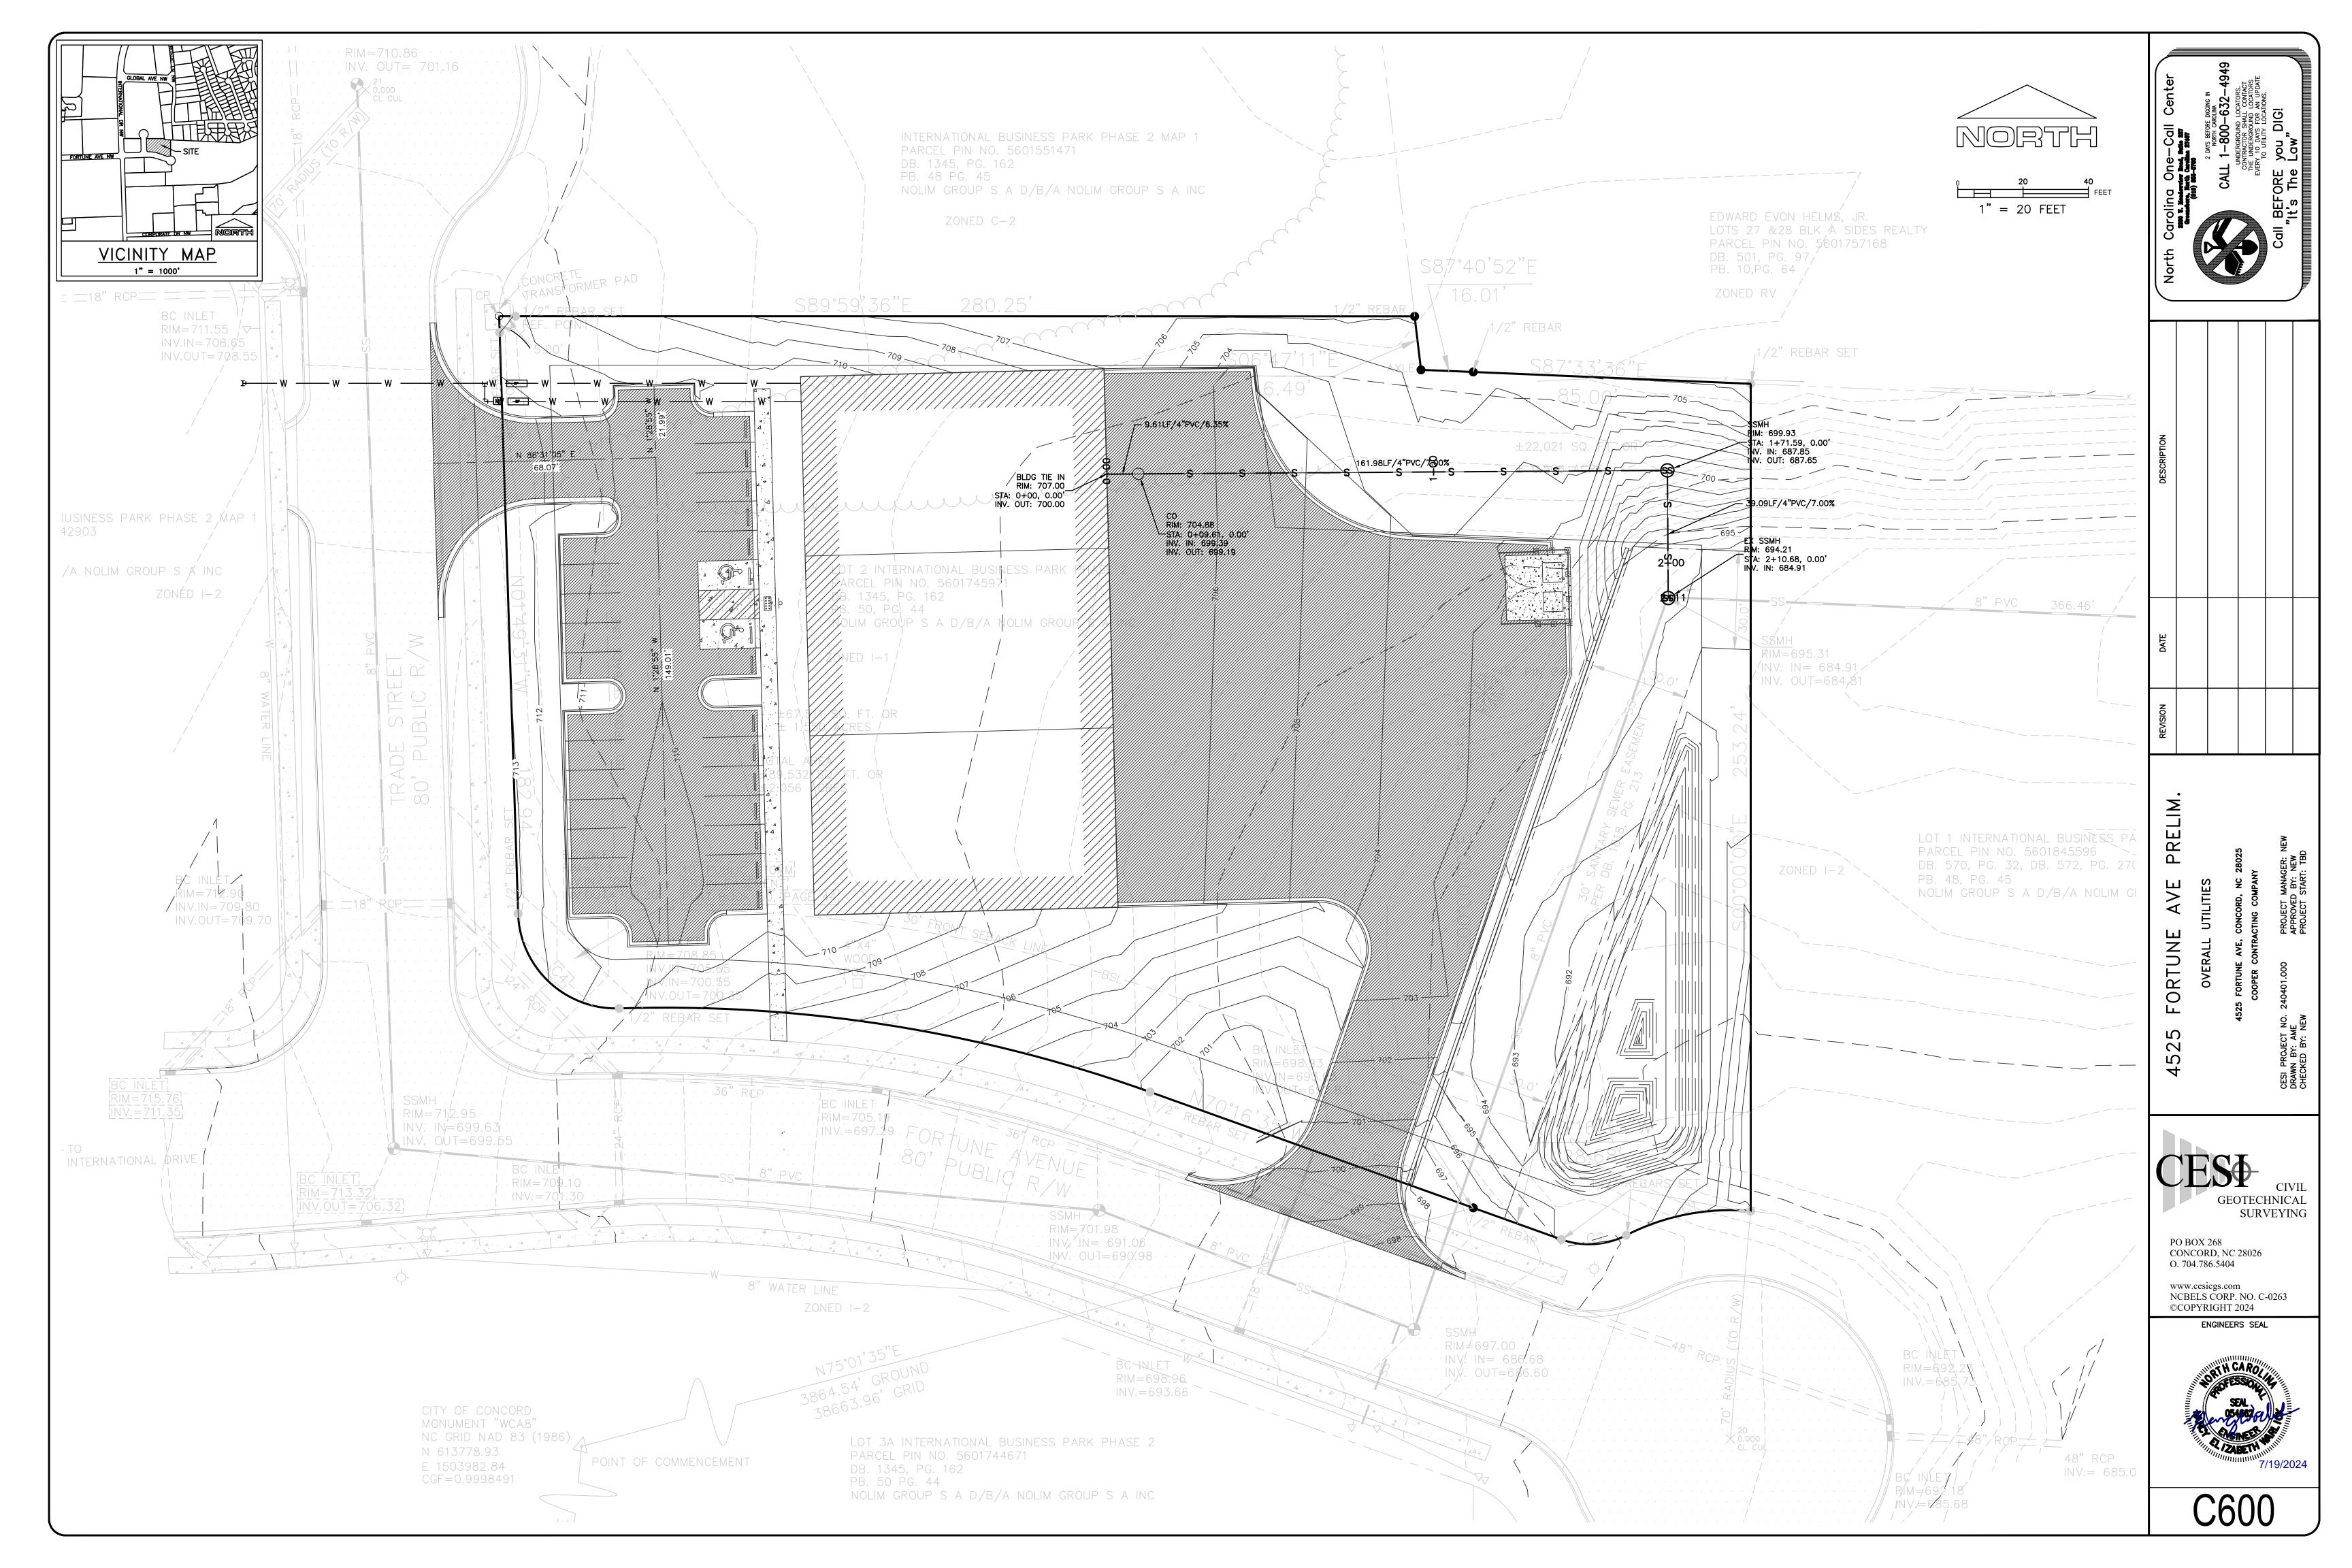

MAINTENANCE: INSPECT INLETS AT LEAST WEEKLY AND AFTER EACH SIGNIFICANT (1/2 INCH OR GREATER) RAINFALL EVENT. CLEAR THE MESH WIRE OF ANY DEBRIS OR OTHER OBJECTS TO PROVIDE ADEQUATE FLOW FOR SUBSEQUENT RAINS. TAKE CARE NOT TO DAMAGE OR UNDERCUT THE WIRE MESH DURING SEDIMENT REMOVAL. REPLACE STONE AS NEEDED.

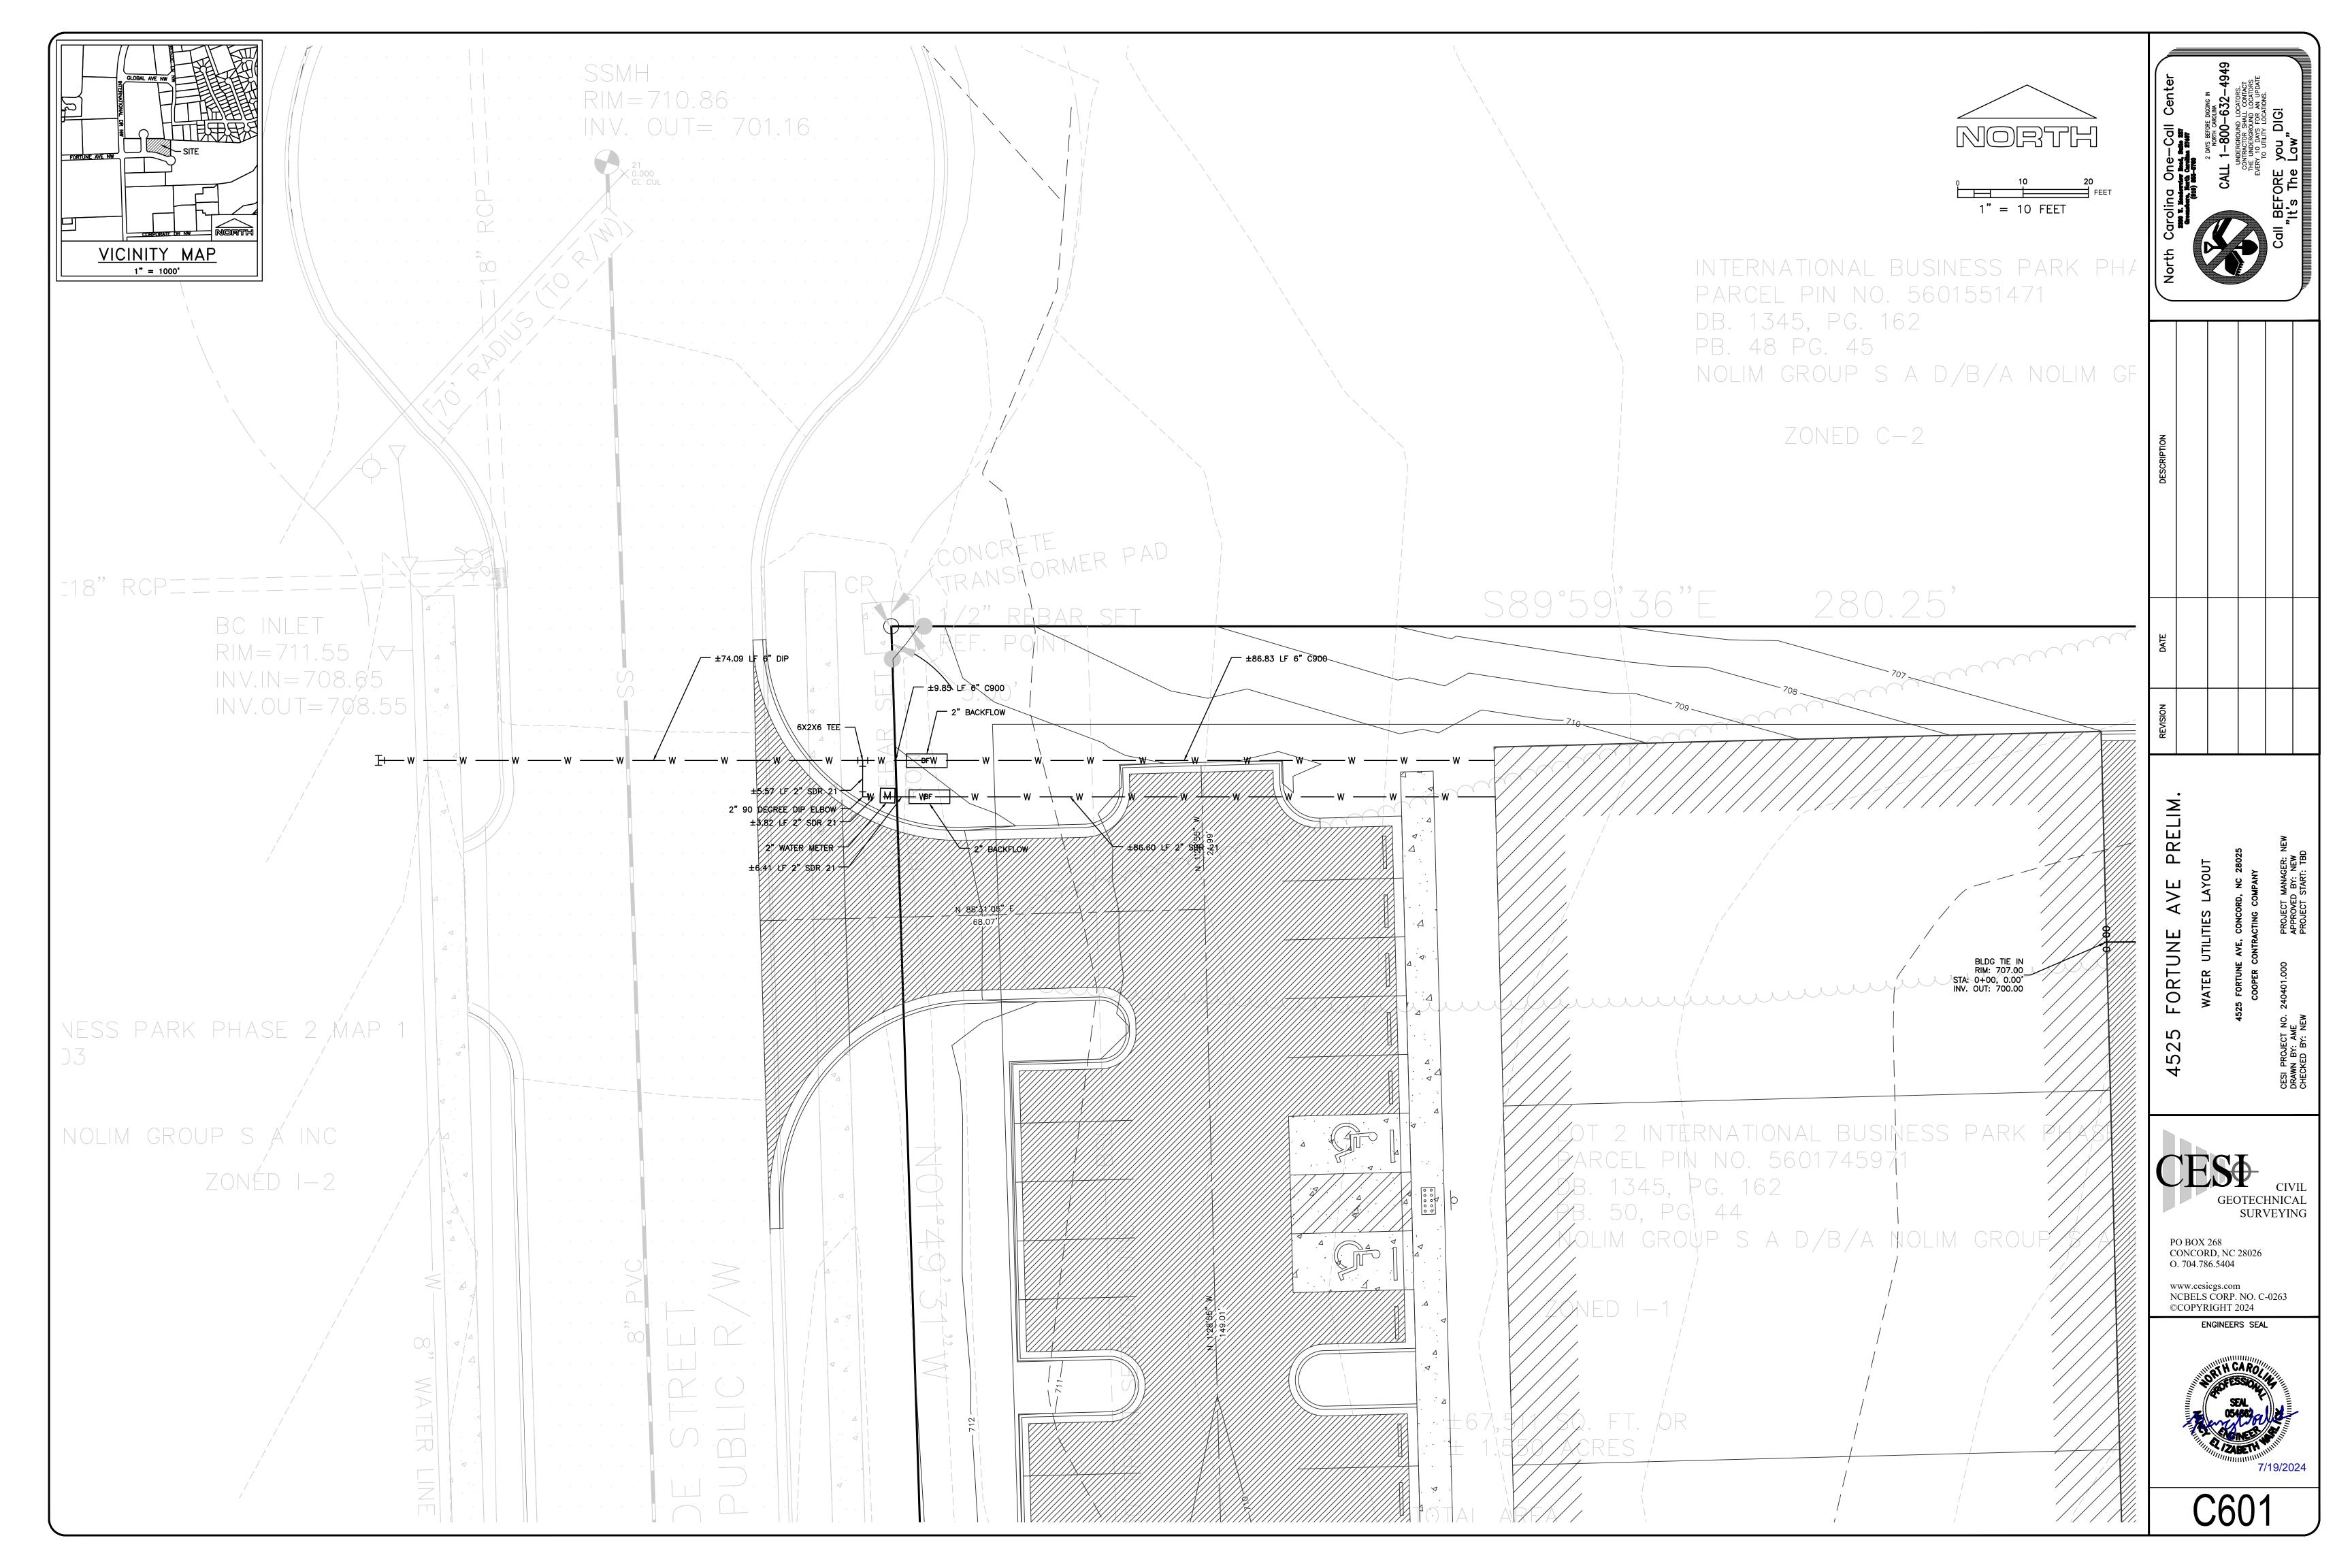

CONSTRUCTION SPECIFICATIONS: 1. UNIFORMLY GRADE A SHALLOW DEPRESSION APPROACHING THE INLET. 2. DRIVE 5-FOOT STEEL POSTS 2 FEET INTO THE GROUND SURROUNDING THE INLET. SPACE POSTS DEFINITION OF THE INLET.

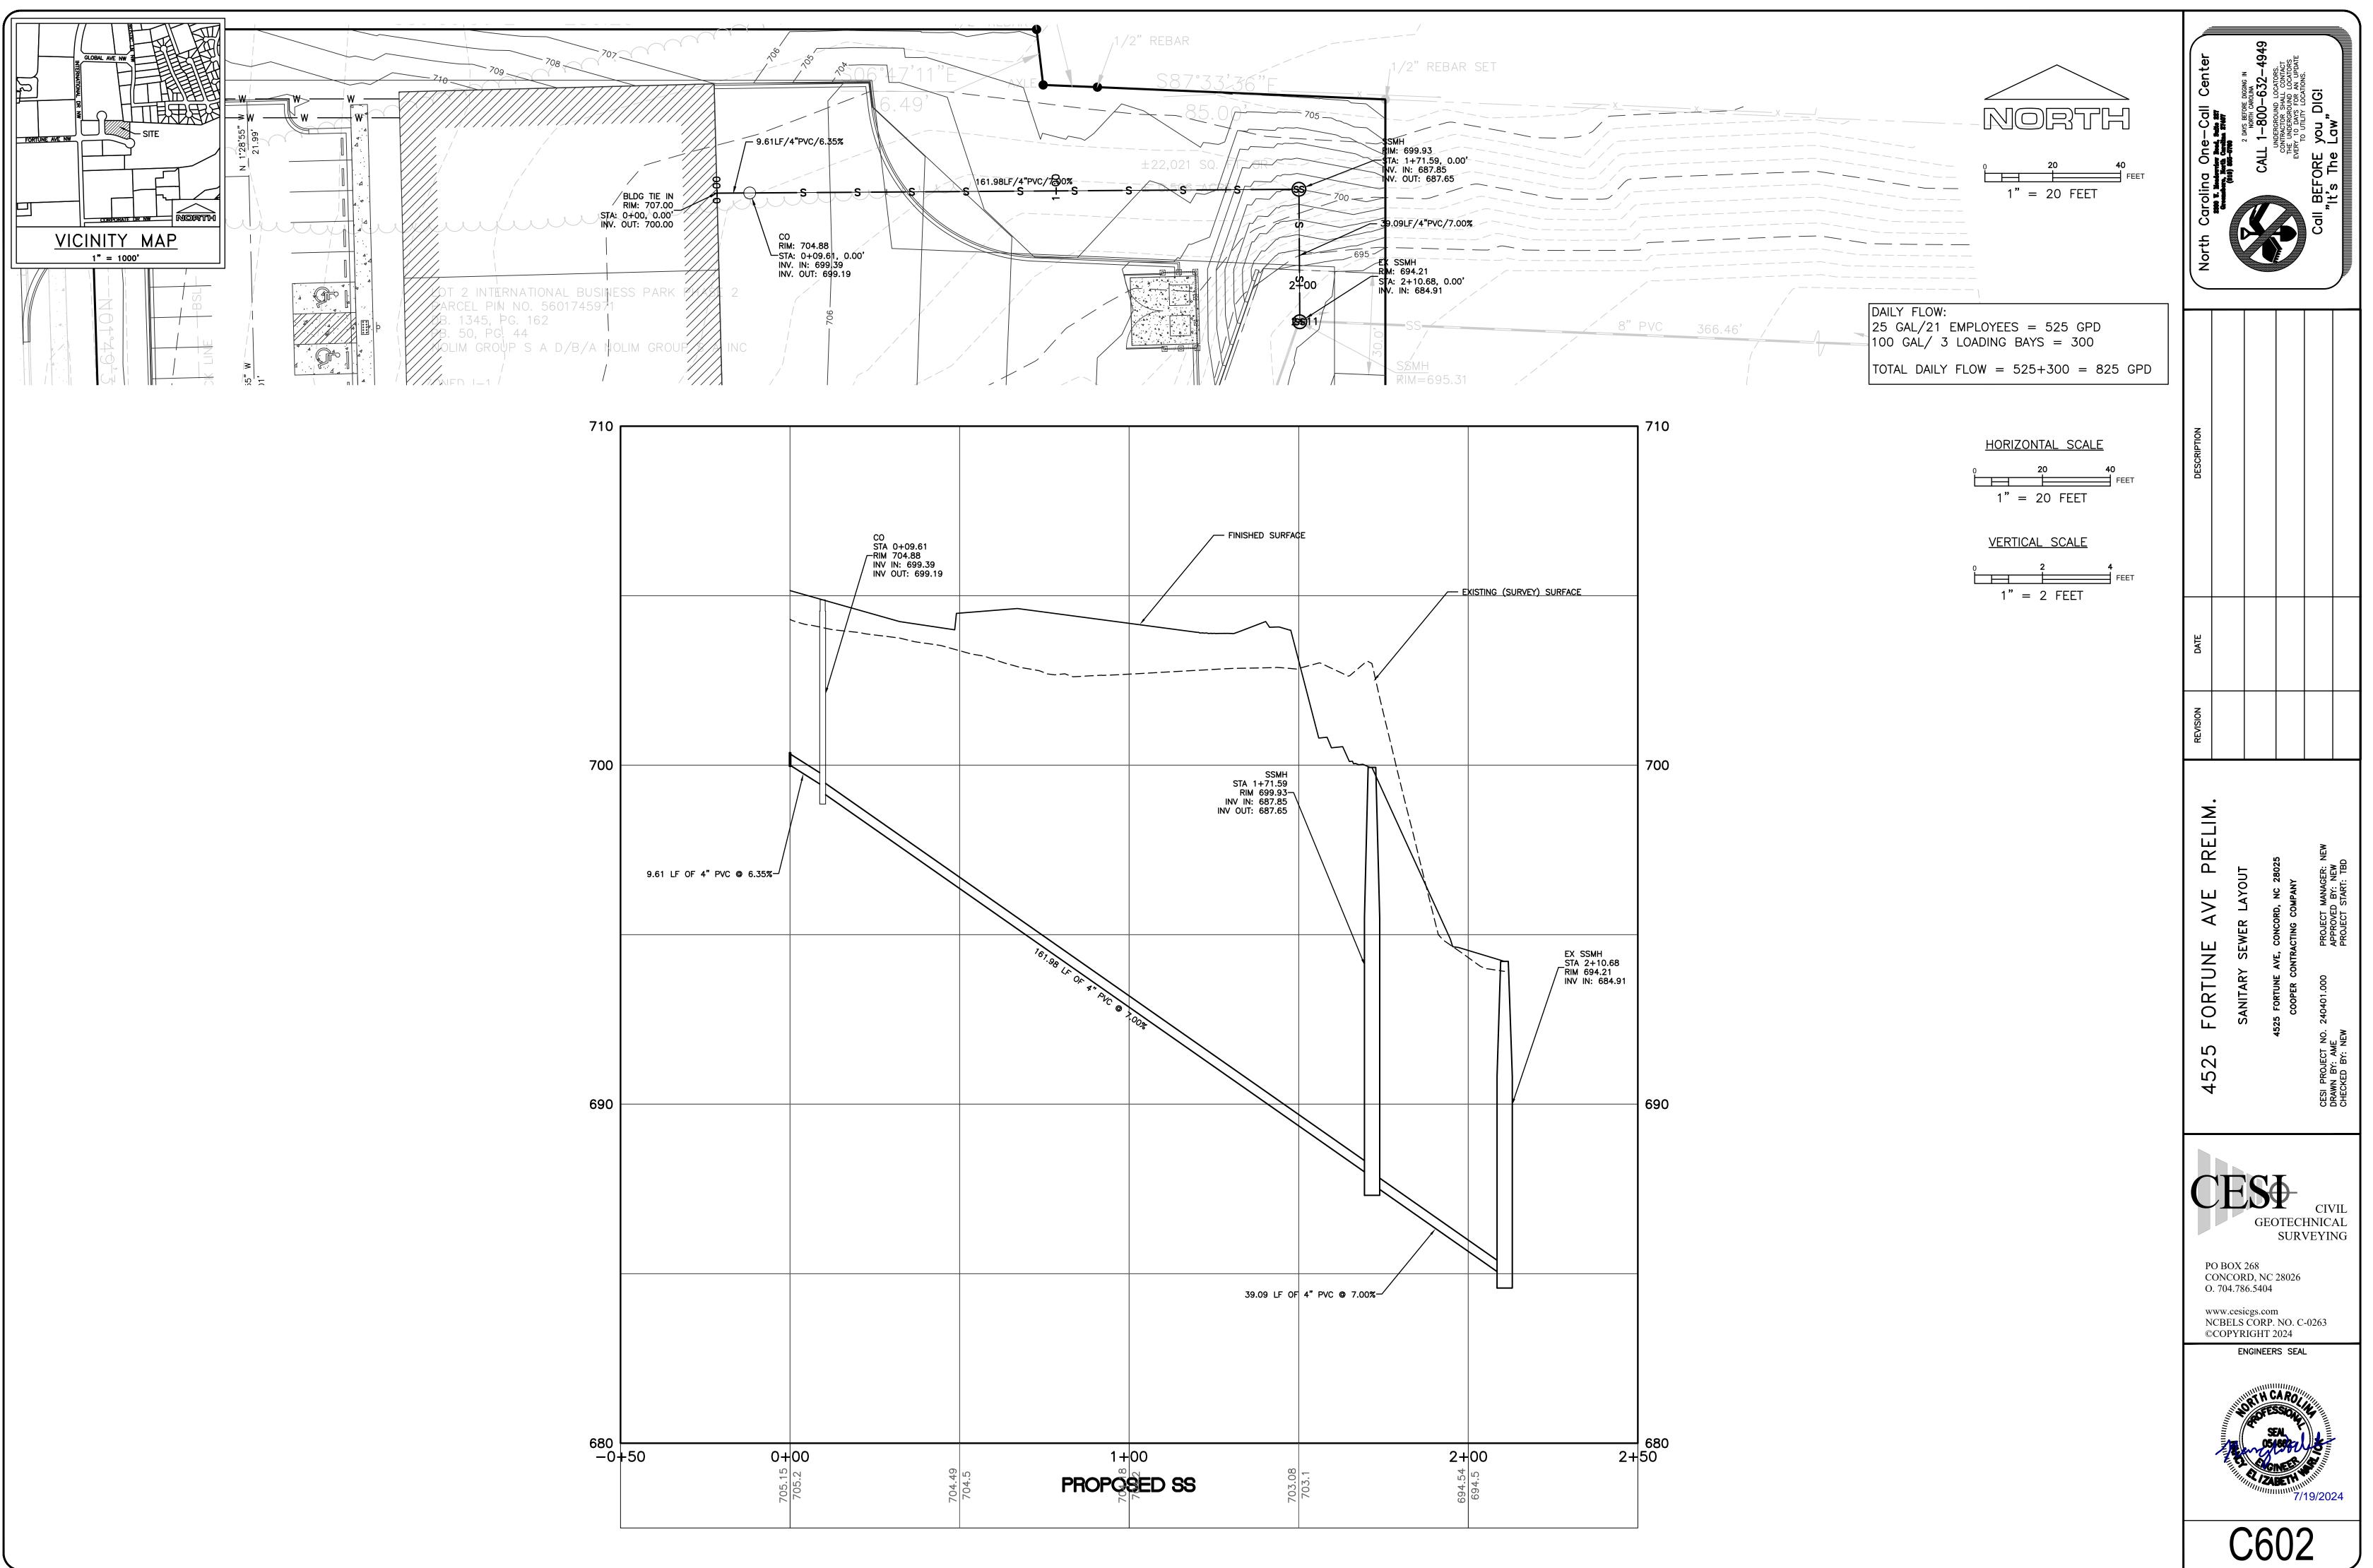

WITH GROUND COVER.

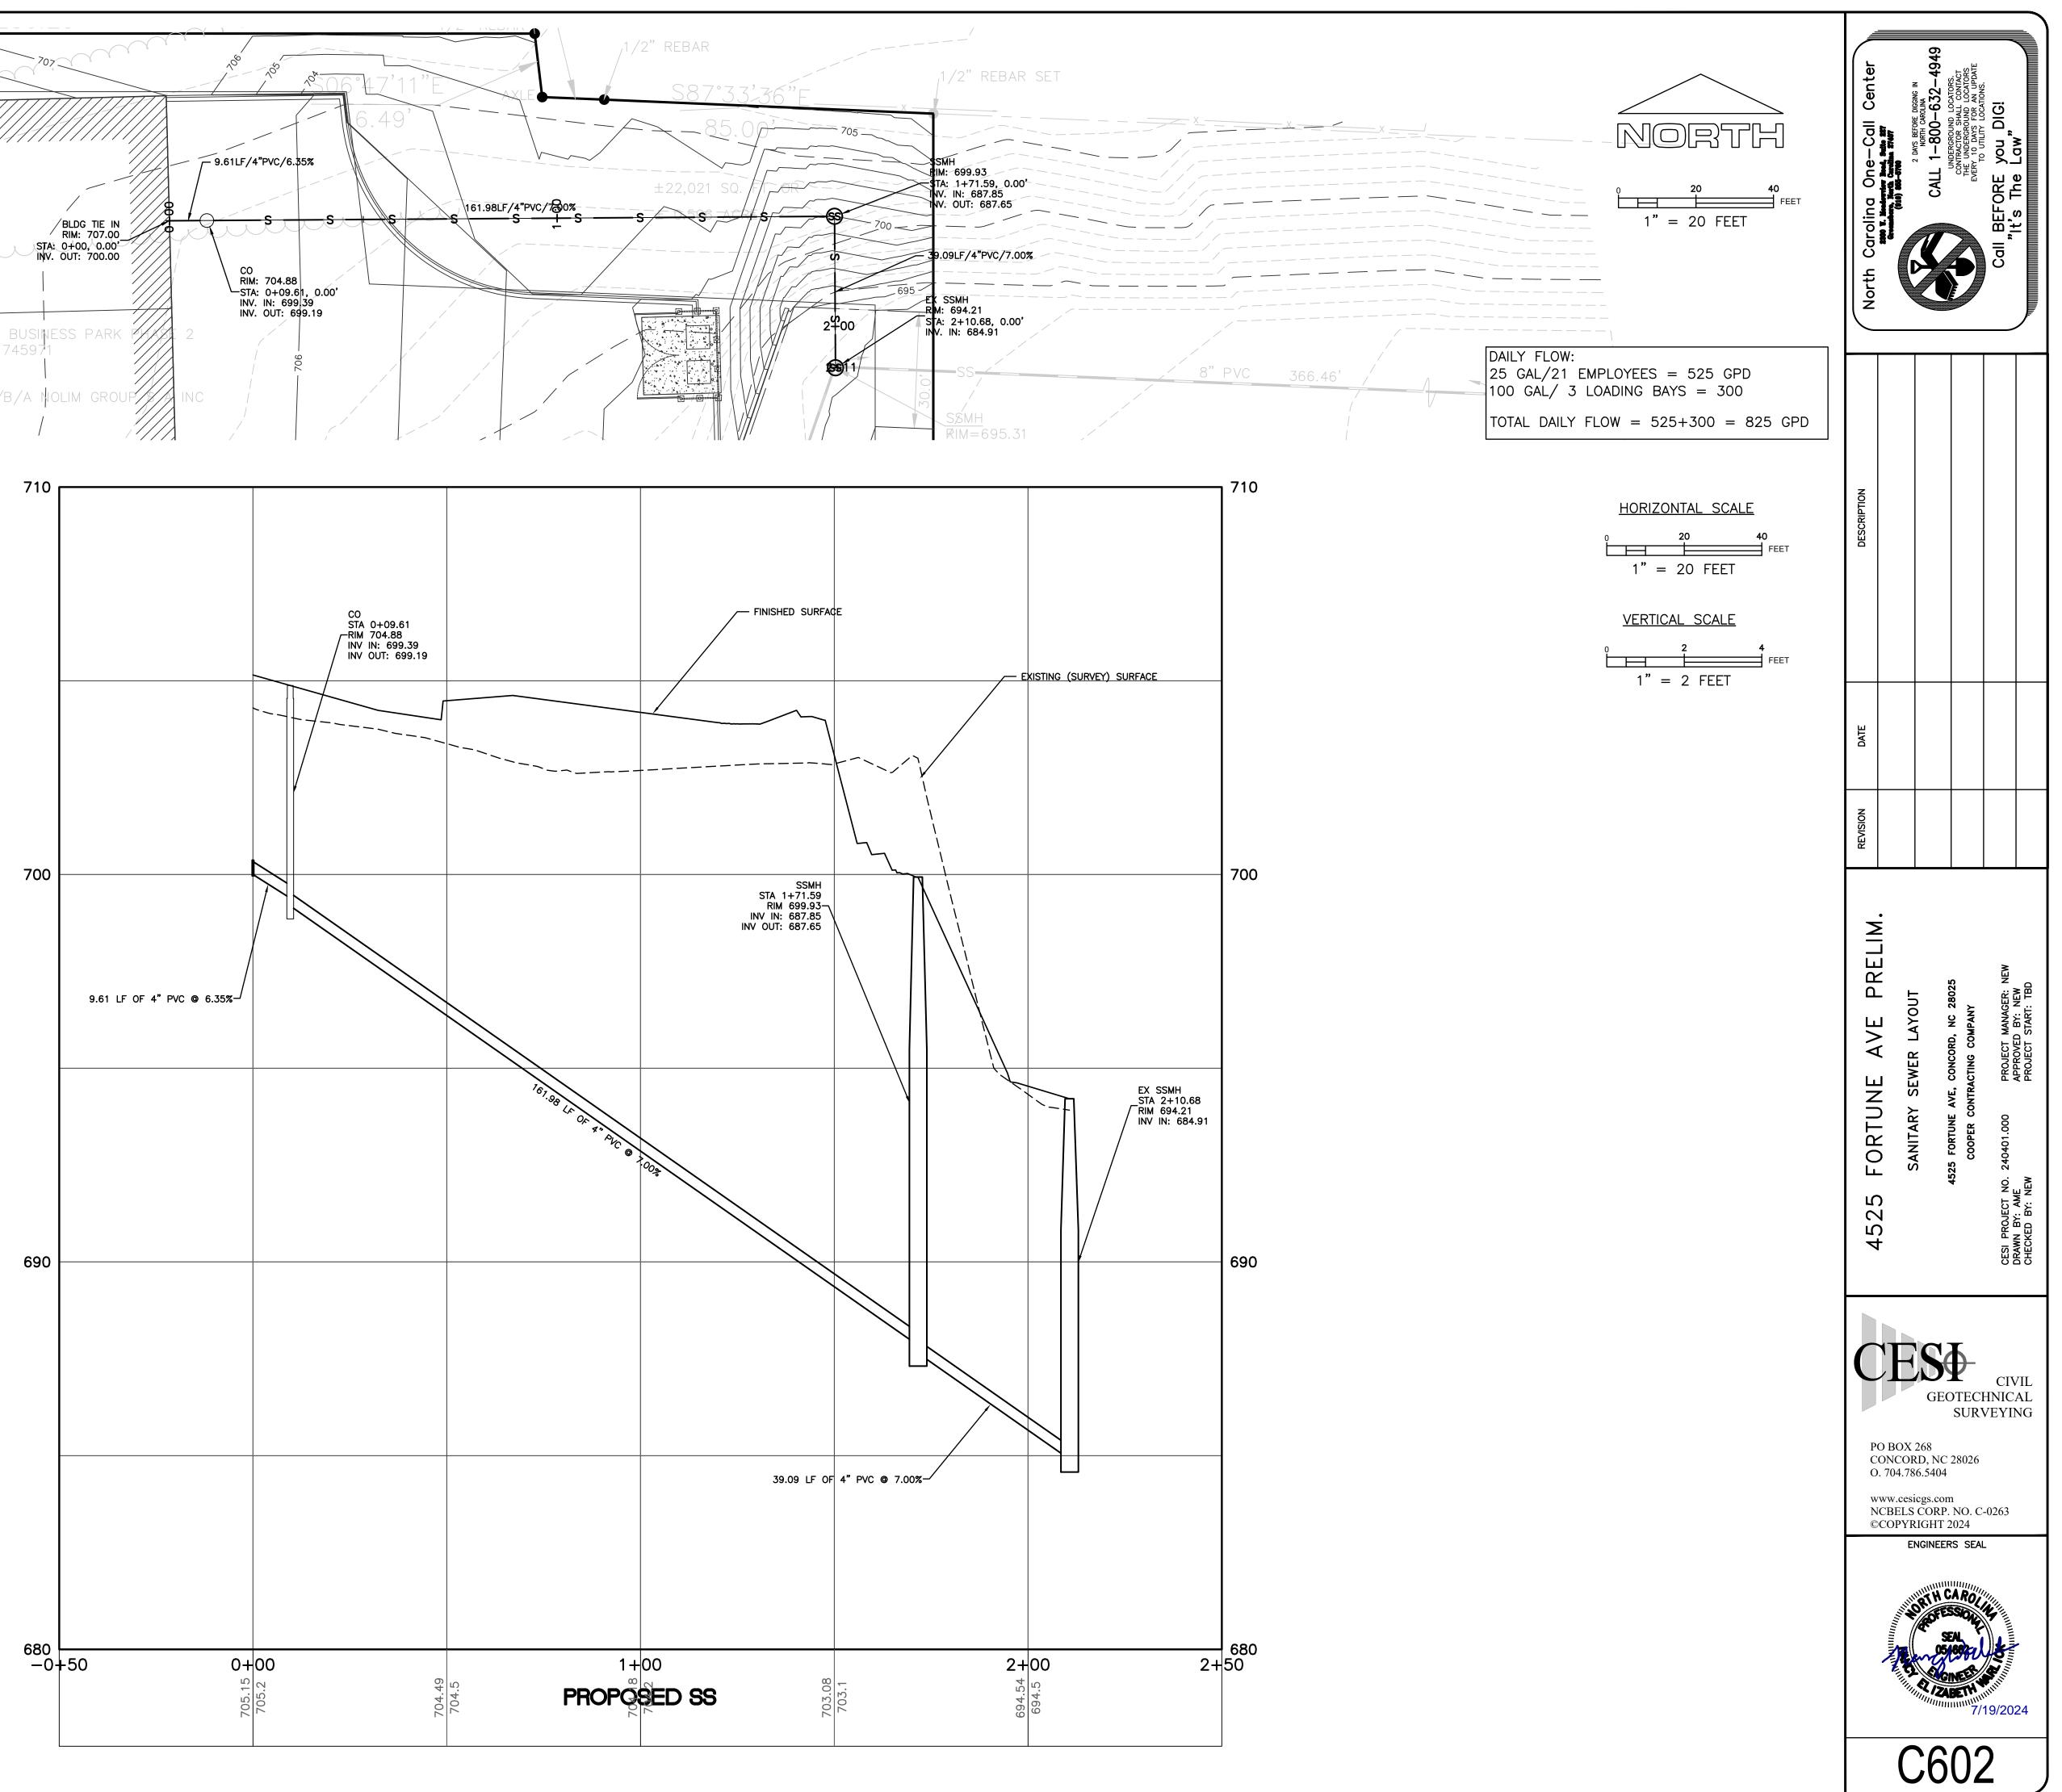

2. DRIVE 5-FOOT STEEL POSTS 2 FEET INTO THE GROUND SURROUNDING THE INLET. SPACE POSTS EVENLY AROUND THE PERIMETER OF THE INLET, A MAXIMUM OF 4 FEET APART. 3. SURROUND THE POSTS WITH WIRE MESH HARDWARE CLOTH. SECURE THE WIRE MESH TO THE STEEL POSTS AT THE TOP, MIDDLE AND BOTTOM. PLACING A 2-FOOT FLAP OF THE WIRE MESH UNDER THE GRAVEL FOR ANCHORING IS RECOMMENDED. 4. PLACE CLEAN GRAVEL (NCDOT #5 OR #57 STONE) ON A 2:1 SLOPE WITH A HEIGHT OF 16 INCHES AROUND THE WIRE, AND SMOOTH TO AN EVEN GRADE. 5. ONCE THE CONTRIBUTING DRAINAGE AREA HAS BEEN STABILIZED, REMOVE ACCUMULATED SEDIMENT, AND ESTABLISH FINAL GRADING ELEVATIONS. 6. COMPACT THE AREA PROPERLY AND STABILIZED IT

## Branchview Dr. Center Expansion Project Narrative

South Coast Centers has owned the neighborhood retail center located at 970 Branchview Dr. since 2017. The current center includes dine-in restaurants, medical offices, neighborhood service businesses, and retail stores. South Coast has acquired the neighboring parcel at 960 Branchview Dr. where they plan to use the 2-acre parcel to expand the existing shopping center by adding space for 3 new tenants and a drivethrough coffee business. The owners anticipate that the tenants of the new center will include food and service businesses and/or medical offices and personal care services. The development of the parcel is estimated to have a valuation of \$3.2M. The addition of these businesses will create between 7 and 20 new jobs, as well as complete the shopping center as originally planned.

#### **Project Narrative**

The intended tenant for the project is CarMax, based out of Richmond, Virginia. As a globally recognized chain, CarMax takes environmental resources and impacts very seriously and conserves them carefully.

The new project is located on parcel #5601570080000 (6.93 acres within Concord City limits, zoned C-2) and parcel #56015733320000 (4.95 acres within Kannapolis City limits, zoned GC) and includes an 11,311 square foot, single-story building, with surface parking. The majority of the improvements, including all of the buildings, will be located within the City of Concord. These parcels are identified as an 'Employment' area in the NC 73 Transportation/Land Use Corridor Plan. This is a very appropriate location for this use given the convenient access approaching Interstate 85 and Highway 73 with connectivity west to Interstate 77. The use will generate new jobs, great revenue for the local tax base and be welcomed by local residents at a very low impact to public resources.

#### Site Data

The site is located along Davidson Highway (Highway 73), west of the Interstate 85 interchange in the City of Concord, North Carolina. The site is approximately 6.9 acres and was partially developed, with utility stubs and multiple driveway connections. Existing improvements include frontage driveways with public access and utility stub-outs. This project will consist of a new building with surface parking for sales and visitors.

The City of Concord owns and maintains a 16" water main along Davidson Highway. The project will be supplied with domestic, fire and irrigation services.

Sewer service will be provided via an existing manhole located along the west side of the property. The sewer line extends west through a recorded sanitary sewer easement (DB1991, PG 188) to a public sanitary sewer manhole. All sanitary sewer flow will be domestic in nature.

Stormwater onsite will be directed to the proposed underground stormwater facility.

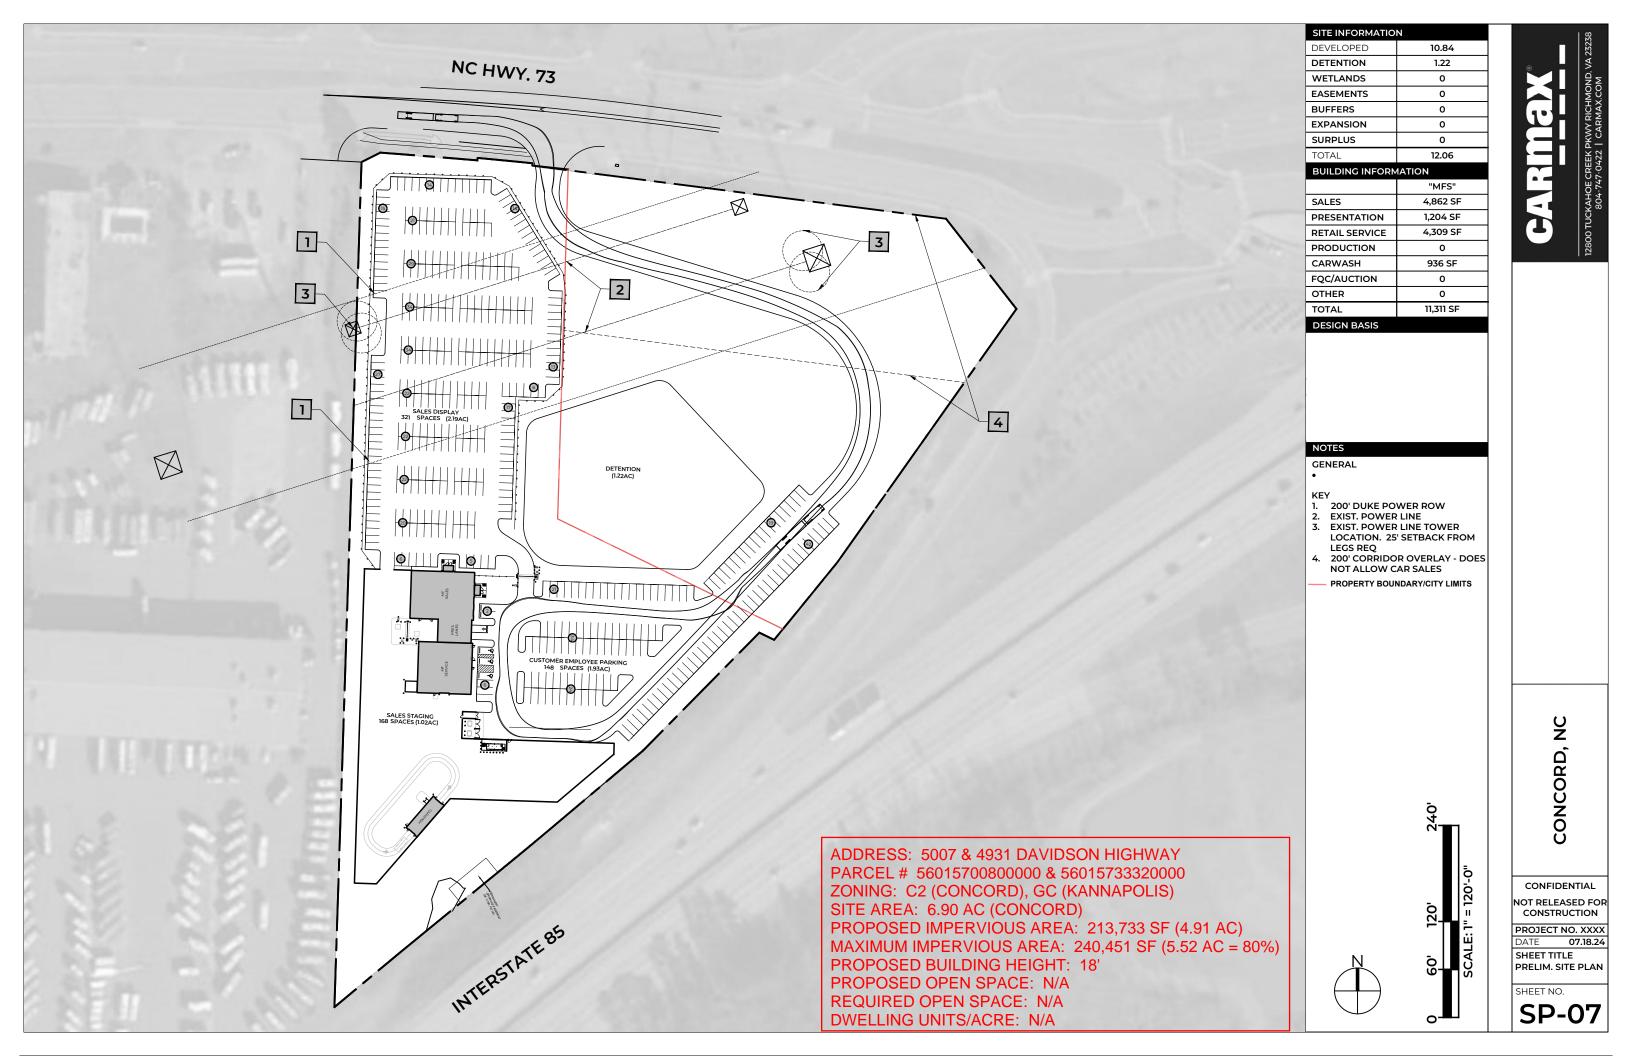

Existing gas, electrical, and telecommunication lines are nearby and available to serve the proposed facility.

This project will be subject to the City of Concord Tree Ordinance. Landscaping will be provided in the form of native trees and shrubs in order to minimize the need for irrigation. Street and internal trees and landscape buffers will be provided throughout the property to meet Code requirements.

Project Narrative for Save The Children Harris Street PIN – 5620-39-1722 Zoned RC 4.463 acres

The project for an additional modular for Teacher offices has been approved and the modular construction has been completed. In the approved plans, we had planned to tap the existing manhole for the force main. When trying to make the tap it was discovered that there is physically not enough room for the tap itself. Therefore, an alternative is to run a lateral and tap into the existing Lift Station at the original classroom modular that was completed 2 years ago.

The projected wastewater calculations are 16 pre-school staff members (25 gpd) = 400 GPD.

Save The Children believes that "Every child deserves the opportunity to learn. Save the Children works in the United States and around the world to reach those children who are missing out most on learning and education. We help children get ready for kindergarten and learn to read by third grade — a major indicator of future success. We're especially focused on reaching vulnerable children in rural America where early learning resources are scarce. Globally, we ensure that no child's learning stops because they are caught up in crisis."

Save The Children currently has existing classrooms on this site that were completed in 2022.

#### Site Data

The Site Survey is nearing completion but was unavailable at the time of this narrative. The as-built documents for the Performance Learning Center were provided and utilized for coordination and development of the Concept Site Plan. Final Site Details related to the construction of exterior improvements will be included in the Construction Documents.

The site is located at the southwest corner of the education campus that includes Weddington Hills Elementary, Winkler Middle and the Performance Learning Center in the City of Concord, North Carolina. The campus is generally located at the southeast corner of the intersection of Weddington Road and George W. Liles Parkway. The campus is 123.48 acres and is zoned RM-2 and O-I and is comprised of three (3) parcels. All vehicular access is from Weddington Road along existing roads that serve the other schools. This project will consist of one (1) new building with surface parking for visitors and staff on the north side of the building and bus access on the south side of the building.

The site slopes generally from north to south at an approximate 1.5% grade. There is an existing drainage feature along the eastern edge of the development area, but our project will not result in any work near this drainage feature. The existing Performance Learning Center directs storm drainage runoff to a above ground stormwater pond with a sand filter east of the building. The intent is to expand the sand filter and stormwater basin to the south to account for the added runoff from the Opportunity School. There are existing mature trees along the perimeter of the development area and those trees are to be preserved.

This project will result in an increase in impervious cover and will be subject to the NCDEQ Post Construction Stormwater Manual. Stormwater will be collected via catch basins and area drains and piped to the expanded stormwater pond.

This project will be subject to the City of Concord Development Ordinance. Trees and landscape islands will be required in the new parking lot. Landscaping will be provided in the form of native trees and shrubs in order to maximize suitability with minimal reliance on supplemental irrigation. Irrigation is not intended for this project. The landscaping materials will be consistent with the look of those on the remainder of the campus.

RE: Sanitary Sewer Allocation Narrative - David Phillips Park Concord, North Carolina COC23002.00

### NARRATIVE

Sewer allocation is required to support the further development of David Phillips Park in the City of Concord North Carolina. The total site area is approximately 10.387 acres. The property is zoned RM-1 which allows for the proposed development. Adjacent site uses are single family homes and Epworth United Methodist Church with Threemile Branch forming the Northern and Northeastern border of the site along with Branchview Drive NE. Proposed amenities will include the following:

- > Terraced ADA walk + hillside garden;
- > Expanded restroom facility at existing shelter;
- > Nature based playground;
- > Flex area for games;
- > Hillside slide;
- > Outdoor classroom + bird watching area with shade structure;
- > Aggregate + paved trails;
- > Tree house + ADA boardwalk ramp;
- > Integrated rain garden style stormwater facilities;

Stormwater management will provide through a combination of hillside step pools emptying into a constructed wetland facility. These facilities are also meant to be used as educational tools on site to teach visitors about water quality and natural systems. Post construction stormwater control measures will be implemented as necessary to comply with local and state detention/water quality ordinances.

Existing water service to restroom will be re-outed to construct tiered ADA walk and hillside garden. Water lines for quick connect hose bibbs will be extended toward garden beds. Proposed gravity sanitary sewer services will be discharged into existing public main running through the site, which is owned by the Water and Sewer Authority of Cabarrus County (WSACC). The estimated sewer flow demand associated with this project is 1,000 gallons per day.
