

**CITY OF CONCORD  
CONCORD, NORTH CAROLINA  
SCHEDULE TOU  
GENERAL SERVICE**

**AVAILABILITY**

Available only to non-residential loads with a demand greater than or equal to 100 kW during at least three months of a twelve-month period and an average annual load factor of at least 55%. Service under this Schedule should be used for a Customer with a single enterprise located entirely on a single, contiguous premise.

This Schedule is not available for auxiliary or breakdown service, or for individual customers who qualify for either a residential or industrial rate schedule. Power delivered under this schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City for service in conjunction with the Renewable Energy Generation Rider, or under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary right-of-ways, privileges, franchises and permits, for the delivery of such power. The City shall not be liable to any customer or applicant for power in the event it is delayed in or is prevented from furnishing the power by its failure to secure and retain such right-of-ways, rights, privileges, franchises and permits.

**TYPE OF SERVICE**

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts, or  
3-phase, 208Y/120 volts, 480Y277 volts; or  
3-phase, 3-wire, 240, 480, volts; or  
3-phase, 12470/7200 volts; or  
3-phase voltages other than these listed above, but only at the City's option and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault build in accordance with the City's specification.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by contacting the office of the City before purchasing equipment.

Motors of less than 5 H.P. may be single phase. All motors of more than 5 H.P. must be equipped with starting compensators. The City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

**RATE**

I.	Basic Facilities Charge	\$104.00	
II.	Plus, Demand Charge	Summer Months <u>June 1 – September 30</u>	Winter Months <u>October 1 – May 31</u>
	A. On peak Demand Charge per month	\$1630 per KW	\$11.65 per KW
	B. Economy Demand Charge	\$ 4.15 per KW	\$4.15 per KW
III.	Energy Charge	Summer Months <u>June 1 – September 30</u>	Winter Months <u>October 1 – May 31</u>
	A. On peak Energy Charge per month	8.5410 cents per kWh	8.2850 cents per kWh
	B. Economy Energy Charge	5.0770 cents per kWh	4.8210 cents per kWh

**Determination of On Peak and Off-Peak Hours**

	Summer Months <u>June 1 – September 30</u>	Winter Months <u>October 1 – May 31</u>
On-Peak Period Hours:	1:00 p.m. – 7:00 p.m. Monday – Friday	6:00 a.m. – 9:00 a.m. Monday – Friday
Off-Peak Period Hours	All other weekday hours and all Saturday and Sunday Hours.	

**DEFINITION OF "MONTH"**

The term "month" as used in this Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty (30) days.

**DETERMINATION OF BILLING DEMAND****A. On Peak Billing Demand**

The On- Peak Billing Demand each month shall be the maximum integrated thirty-minute demand measured during the on peak period during the month for which the bill is rendered.

**B. Economy Demand**

The monthly economy demand shall be defined as the difference between the monthly off-peak demand and the monthly on-peak demand. The monthly economy demand shall not be less than zero.

**MINIMUM BILL**

The minimum bill shall be the bill calculated on the Rate above including the Basic Facilities Charge, Demand Charge and Energy Charge.

**POWER FACTOR CORRECTION**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

**PURCHASE POWER ADJUSTMENT RIDER**

The City's Purchase Power Adjustment Rider is applicable to all service supplied under this schedule.

**RENEWABLE ENERGY PORTFOLIO STANDARD (REPS) RIDER**

The City's Renewable Energy Portfolio Standard (REPS) Rider is applicable to all service supplied under this schedule.

**EXTRA FACILITIES CHARGE**

A monthly "Extra Facilities Charge" equal to 1.7% of the installed cost of extra facilities necessary for service required under this schedule, but not less than \$25, shall be billed to the Customer in addition to the bill under the appropriate rate schedule when applicable.

**PAYMENT**

Bills under the Schedule are due and payable on the date of the bill at the office of the City. Bills are past due and delinquent on the fifteenth day after the date of the bill. If any bill is not so paid, the City has the right to suspend service. In addition, all bills not paid by the twenty-fifth day after the date of the bill shall be subject to a one- and one-half percent (1 ½ %) late payment charge on the unpaid amount. This late payment charge shall be rendered on the following month's bill, and it shall become part of and be due and payable with the bill on which it is rendered.

Effective for bills rendered on or after July 1, 2024.
