

Bid# 2633 Water Treatment Plant Chemicals

Addendum 1

AMENDMENT FOR HYDROFLUOSILICIC ACID

1. In this fiscal year we plan to switch over to a mini bulk delivery system. This delivery will still be at the Hillgrove Water Treatment Facility, 55 Palaside Dr, Concord, North Carolina. Each order will be placed as needed, approximately 250-600 gals at 4-6 week intervals. The plan to start this process is projected to be by September 1, 2024.
2. The company who is awarded the bid must be able to deliver in a small box truck and be able to off load using their own equipment. All other requirements included in the original bid specifications.
