

Installation of City Fiber Optics  
and Associated  
Construction/Maintenance Work

**Addendum #1**

1. Regarding permit that we should include in the bid price:
  - a. Should we account for any designs that might be needed to obtain permits or will the city provide permitted designs for our permitting team department?  
*The City will provide permits as needed for this. We will be attaching to City owned power poles and will obtain NCDOT permits as needed.*
  - b. In the case of permit fee, will these be reimbursed, or should we account for this as well?  
*Permits will be obtained by the City.*
2. Regarding the performance bond:
  1. Does this need to be furnished with the bid or upon contract signing?  
*-The performance bond will be required at the time of contract execution*
