MONTHLY TIPS

Keep Our Waterways Clean: Eco-Friendly Car Washing Tips!

Protect water sources

Car wash suds are a stormwater pollutant

Learn more: Concordnc.gov/stormwaterpollution

Did you know that many car wash soaps contain harmful ingredients that can pollute our stormwater system and harm aquatic life? Next time you wash your car, follow these simple steps to protect our waterways:

- Choose biodegradable, eco-friendly soap.
- Wash your car on grass instead of pavement to prevent runoff into storm drains.
- Opt for a professional car wash when possible, where water is properly treated and disposed of.

Small changes make a big impact, so let's work together to keep our community clean!
